Interest Basis: The Notes may be either Fixed Rate Notes or Floating Rate Notes.

Fixed Rate Notes: Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer.

Floating Rate Notes: Floating Rate Notes will bear interest at a rate determined:

- (a) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc. (ISDA), and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series), or the latest version of the 2021 ISDA Interest Rate Derivatives Definitions (as published by ISDA as at the Issue Date of the first Tranche of the Notes of the relevant Series) as specified in the applicable Pricing Supplement; or
 - (b) on the basis of the reference rate set out in the applicable Pricing Supplement.

Interest on Floating Rate Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer, will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, as may be agreed between the Issuer and the relevant Dealer.

The margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer for each Series of Floating Rate Notes.

Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both. For the avoidance of doubt, the interest rate in respect of Floating Rate Notes shall not be less than zero.

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined for Floating Rate Notes, on the occurrence of a Benchmark Event the Issuer shall use its reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser that may (subject to certain conditions and following consultation with the Issuer) determine a Successor Rate, failing which an Alternative Rate and, in either case, an Adjustment Spread, and Benchmark Amendments (if any) in accordance with Condition 7.2(c) (*Benchmark Replacement*).

Final Redemption:Unless previously redeemed in accordance with Condition 9
(Redemption and Purchase) the Notes will be redeemed:

- (a) at the Final Redemption Amount on the Maturity Date specified in the applicable Pricing Supplement; or
- (b) where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, in the Instalment Amounts on the Instalment Dates specified in the applicable Pricing Supplement.

Notes having a maturity of less than one year are subject to restrictions on their denomination and distribution. See "*Certain Restrictions*" above.

Early Redemption: The applicable Pricing Supplement will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity date or stated instalment dates (other than for taxation reasons or following an Event of Default, a Group Borrower Default or a Borrower ceasing to be a Registered Provider of Social Housing or Registered Social Landlord, as applicable) or that such Notes will be redeemable at the option of the Issuer (where Retained Notes are specified to be applicable in the applicable Pricing Supplement, at any time after the relevant Final Retained Note Disposal Date) upon giving notice to the Noteholders on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer.

Early Redemption for TaxThe Issuer shall redeem the Notes of a Series in whole, but not in
part, at their principal amount, together with any interest accrued,
if, as a result of any actual or proposed change in tax law, the Issuer
determines that it would be required to make a withholding or
deduction on account of tax in respect of payments to be made by
it in respect of the Notes and the Issuer does not opt to pay
additional amounts pursuant to Condition 10(b) (*Taxation*) or,
having so opted, notifies the Note Trustee of its intention to cease
paying such additional amounts.

Mandatory EarlyThe Notes of each Series shall be redeemed in full at their principal
amount, plus accrued interest, upon the mandatory prepayment of
the Loan advanced in connection with such Series following a
Borrower ceasing to be a Registered Provider of Social Housing or
Registered Social Landlord (other than following, or as part of, a
Permitted Reorganisation or if such Borrower ceases to be a
Borrower or regains its status as a Registered Provider of Social
Housing or Registered Social Landlord within 180 days).

In addition, if the Loan in respect of a Series becomes repayable as a result of a Group Borrower Default, the Notes of the relevant Series shall be redeemed in full at their principal amount, plus accrued interest.

A **Group Borrower Default** includes non-payment, breach of other obligations, cross-acceleration, winding-up, cessation of business, insolvency, unlawfulness and breach of the asset cover ratio (in respect of Secured Loan Agreements) or breach of the unencumbered assets test (in respect of Unsecured Loan Agreements), in each case as set out in the Secured Loan Agreement Standard Terms and described further in "*Description* of the Secured Loan Agreements" or the Unsecured Loan Agreement Standard Terms and described further in "*Description* of the Unsecured Loan Agreements", as applicable.

 Purchases:
 The Retained Notes (if specified as being applicable in any Pricing Supplement) will be immediately purchased by the Issuer on the applicable Issue Date.

The Group Borrower, any Borrower and any other member of the Sanctuary Group (other than the Issuer) may, at any time, purchase Notes in accordance with the provisions of Condition 9.10 (*Purchase of Notes by the Group Borrower or any Borrowers*). Any Notes of a Series purchased by the Group Borrower, any Borrower or other member of the Sanctuary Group may be surrendered to the Issuer for cancellation in consideration for an amount equal to the principal amount of the Notes being surrendered being deemed to be prepaid under the Loan Agreement entered into in connection with such Series of Notes or, to the extent that the relevant Loan is not then outstanding, an amount of the Undrawn Commitment (as defined below) in respect of such Loan Agreement equal to the Outstanding Balance of the Notes surrendered being deemed to be cancelled.

For so long as any Notes are held by or on behalf of or for the benefit of the Issuer (including, for the avoidance of doubt, the Retained Notes for so long as they are held by or on behalf of the Issuer), the Group Borrower, a Borrower or any other member of the Sanctuary Group, in each case as beneficial owner, such Notes shall (unless and until ceasing to be so held) be deemed not to be outstanding for the purpose of, *inter alia*, voting in accordance with the Note Trust Deed.

Retained Notes: Pursuant to the terms of the Retained Note Custody Agreement, the Custodian will hold the Retained Notes (if any) of each Series on the Issuer's behalf and the Issuer has instructed the Custodian to waive its rights to receive payments (of interest, principal or otherwise) on the Retained Notes for so long as the Retained Notes are held on the Issuer's behalf. Such waiver may not be revoked without the consent of the Note Trustee.

> Pursuant to the Note Trust Deed, the Issuer has covenanted with the Note Trustee that it will, immediately prior to a sale of any Retained Notes which are Fully Secured Notes by the Issuer, deliver to the Note Trustee a certificate in writing signed by two directors of the Issuer addressed to the Note Trustee confirming that, immediately following the sale of such Retained Notes, the Group Borrower will be in compliance with the Asset Cover Test in respect of such Series of Fully Secured Notes. For the purpose of giving such confirmation, the Issuer will require the relevant Group Borrower to deliver a Retained Note Compliance Certificate

pursuant to the relevant Secured Loan Agreement, as described further in "*Description of the Secured Loan Agreements*".

The Retained Notes may only be held on the Issuer's behalf until (but not including) the Retained Note Cancellation Date specified in the applicable Pricing Supplement (if any), and the Issuer must therefore sell the Retained Notes prior to that Retained Note Cancellation Date, or else any Retained Notes that have not been so sold will be cancelled in accordance with Condition 9.12 (*Cancellation*).

Events of Default: Following an Event of Default in respect of any Series, the Note Trustee may, and if so requested by the holders of at least onefourth in principal amount of the Notes of such Series then outstanding shall (subject to it being secured and/or indemnified and/or pre-funded to its satisfaction and, upon certain events, the Note Trustee having certified to the Issuer that such event is, in its opinion, materially prejudicial to the interests of the Noteholders), give notice to the Issuer and the Notes shall become immediately due and repayable.

The Events of Default include, *inter alia*, non-payment of any principal and interest due in respect of the Notes, failure of the Issuer to perform or observe any of its other obligations under the Conditions and the Note Trust Deed, insolvency, unlawfulness and acceleration, or non-payment, in respect of other indebtedness in an aggregate amount equal to or in excess of £15,000,000 (or its equivalent).

Upon the Notes becoming repayable prior to the Maturity Date (other than as a result of a prepayment or termination of the Loan Agreement), the Group Borrower is required to prepay the relevant Loan in full together with accrued interest and commitment fee to and including the date of redemption. The Group Borrower is also required to pay to the Issuer, within three Business Days of demand, the Issuer's reasonable costs, expenses and liabilities throughout the life of the Notes.

- Series Security The Issuer's obligations in respect of each Series of Partly Secured Notes are secured pursuant to the Note Trust Deed in favour of the Note Trustee for the benefit of itself and the Noteholders and the other Series Secured Parties by the following (the Series Security):
 - (a) an assignment by way of security of the Issuer's rights, title and interest arising under the Loan Agreement, the Deed of Guarantee, the Group Borrower Security Agreement, the Security Trust Deed, the Agency Agreement and the Account Agreement, in each case to the extent that they relate to such Series;

- (c) a charge by way of first fixed charge over all sums held from time to time by the Paying Agents for the payment of principal or interest in respect of the Series.

No Series of Notes will have access to the Series Security securing another Series of Notes, including, in particular, security over the rights, title and interest arising under any Loan Agreement or Series Underlying Security not specifically allocated to such Series whether prior to or after the Note Trustee has served a notice of enforcement on the Issuer in relation to any Series of Notes.

Account (in respect of Fully
Secured Notes):For so long as insufficient security has been granted (or procured
to be granted) by the Borrowers in favour of the Security Trustee,
and allocated for the benefit of the Issuer, to permit the drawing of
any Commitment under any Secured Loan Agreement in full or the
Group Borrower has not otherwise drawn any part of the Initial
Commitment under any Secured Loan Agreement, the amount of
the Commitment that remains undrawn (in respect of each

Commitment, the **Undrawn Commitment**) shall (subject, in the case of any portion of the Commitment which is to be funded by a sale of Retained Notes, to receipt by the Issuer of the net sale proceeds thereof) be retained in a charged account (the **Series Initial Cash Security Account**) of the Issuer in respect of the relevant Series of Fully Secured Notes (and may be invested in Permitted Investments) in accordance with the terms of the Account Agreement and the Custody Agreement (the **Retained Proceeds**).

Any Retained Proceeds shall be advanced to the Group Borrower at a later date pursuant to the relevant Secured Loan Agreement to the extent that Properties of a corresponding value have been charged in favour of the Security Trustee, and allocated for the benefit of the Issuer, and, if applicable, subject to the sale by the Issuer of Retained Notes.

is maintained (see "Description of the Secured Loan Agreements"
below). In the event that the value of the Apportioned Property
multiplied by the Issuer's Security Percentage in respect of the
relevant Secured Loan Agreement is insufficient to maintain the
relevant asset cover ratio, the Group Borrower may deposit (or may
procure that any Borrower deposits) moneys into the relevant
Series Ongoing Cash Security Account. Such moneys will be
charged in favour of the Note Trustee pursuant to the terms of the
Note Trust Deed.

Funds standing to the credit of each Series Ongoing Cash Security Account may:

- be held on deposit, in which case they shall accrue interest at the rate to be notified by the Account Bank to the Issuer pursuant to the Account Agreement; or
- (b) be invested in Permitted Investments in accordance with the Custody Agreement.

See "Permitted Investments" below.

and, in any event, if no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing.

- direct obligations of the United Kingdom or of any agency or instrumentality of the United Kingdom which are guaranteed by the United Kingdom;

In the event that any Permitted Investments are sold to fund an advance to the Group Borrower pursuant to a Secured Loan Agreement and such sale results in a gain realised by the Issuer (such gain, the **Permitted Investment Profit**), the Issuer shall advance monies to the Group Borrower in an amount equal to the Actual Advance Amount and may (at its discretion) make a Gift Aid Payment to a charitable member of the Sanctuary Group which is connected with the Group Parent (the Issuer being its wholly owned subsidiary) for the purposes of section 939G of the Corporation Tax Act 2010 (a **Charitable Group Member**) in an amount equal to the Permitted Investment Profit.

Immediately prior to the end of each accounting period, to the extent that the Issuer would otherwise be required to recognise a profit for tax purposes in respect of its Permitted Investments and/or Retained Notes as a result of the movement in the fair value recognised in its accounts of such Permitted Investments and/or Retained Notes for that accounting period, the Issuer shall sell Permitted Investments in an aggregate amount equal to the amount required to offset or discharge any corporation tax liability (either by the payment of such corporation tax liability or by making a Gift Aid Payment to a Charitable Group Member) in respect of the Accounting period or such later period permitted under section 199 of the Corporation Tax Act 2010, make a Gift Aid Payment to any Charitable Group Member in an amount equal to the Accounting Profit.

Risk Factors

In purchasing Notes, investors assume the risk that the Obligors may become insolvent or otherwise be unable to make all payments due in respect of the Notes or the Loan Agreements. There is a wide range of factors which individually or together could result in the Obligors becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Obligors may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Obligors' control. The Issuer has identified in these Programme Admission Particulars a number of factors which could materially adversely affect the business of the Obligors and their ability to make payments due.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in these Programme Admission Particulars and reach their own views prior to making any investment decision.

Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

A. Special Purpose Vehicle Issuer

The Issuer is a special purpose finance entity with no business operations other than the incurrence of financial indebtedness, including the issuance of the Notes, and on-lending the proceeds thereof to or for the benefit of members of the Sanctuary Group and investing in Permitted Investments. As such, the Issuer is entirely dependent upon receipt of funds from the Group Borrower and the Borrowers in order to fulfil its obligations under each Series of Notes including the payment of interest and principal to the Noteholders.

B. Credit Risk

The Issuer, and therefore payments by the Issuer in respect of each Series of Notes, will be subject to the credit risk of the Group Borrower and the Borrowers. The Issuer will be subject to the risk of delays in the receipt, or risk of defaults in the making, of payments due from the Group Borrower in respect of the Loan Agreement in respect of each Series of Notes. However, each of the Borrowers has (or will, upon acceding to the Deed of Guarantee when becoming Borrowers, have) guaranteed the obligations of the Group Borrower to the Issuer under the Loan Agreements and it is envisaged that in the event that a Borrower is unable to make a payment under an Intra-group Facility Agreement to which it is a party (pursuant to which the Group Borrower has on-lent part of the proceeds of the Loan Agreement in respect of the relevant Series of Notes) such payment will be made by the other Borrowers pursuant to the terms of the Deed of Guarantee. Delays in the receipt of payments due from the Group Borrower under the Loan Agreement or from the Borrowers under the Deed of Guarantee could adversely affect the ability of the Issuer to fulfil its payment obligations under the corresponding Series of Notes. For a discussion of the factors which may affect the Group Borrower's or the Borrowers' ability to fulfil their obligations under the Loan Agreements, the Deed of Guarantee and the Security Agreements, please see "Factors which may affect the Group Borrower's ability to fulfil its obligations under the Loan Agreements" and "Factors which may affect the Borrowers' ability to fulfil their obligations under the Intra-group Facility Agreement, the Deed of Guarantee and the Security Agreements".

C. Effect of losses on each Series Loan on Interest Payments and Repayments on the corresponding Series of Notes

There can be no assurance that the levels or timeliness of payments or collections received in respect of the Loan relating to each Series will be adequate to ensure fulfilment of the Issuer's obligations to the Noteholders in respect of the corresponding Series of Notes on each Interest Payment Date, on each Instalment Date, if applicable, or on the Maturity Date. In addition, a default under a Secured Loan Agreement could ultimately result in the enforcement of the Series Underlying Security in relation to the corresponding Series of Notes. The proceeds of any such enforcement may be insufficient to cover the full amount due from the Group Borrower resulting in a shortfall in funds available to repay the corresponding Series of Notes. However, it is expected that, in the event that the Group Borrower's payment obligations under the Loan Agreement are not fulfilled, the Borrowers shall fulfil such obligations pursuant to the Deed of Guarantee without the need to enforce the Series Underlying Security or seek recourse through the courts.

Factors that may affect the Group Borrower's ability to fulfil its obligations under the Loan Agreements

A. Special Purpose Finance Vehicle

The Group Borrower is a special purpose finance entity with no business operations other than the incurrence of financial indebtedness, including the entry into the Loan Agreements, and on-lending the proceeds thereof to or for the benefit of members of the Sanctuary Group. As such, the Group Borrower is entirely dependent upon receipt of funds from the Borrowers in order to fulfil its obligations under each Loan Agreement.

B. Credit Risk

The Group Borrower, and therefore payments by the Group Borrower in respect of each Loan Agreement, will be subject to the credit risk of the Borrowers. The Group Borrower will be subject to the risk of delays in the receipt, or risk of defaults in the making, of payments due from the Borrowers in respect of the Intra-group Facility Agreements. Delays in the receipt of payments due from the Borrowers under the Intra-group Facility Agreements could adversely affect the ability of the Group Borrower to fulfil its payment obligations under the Loan Agreements. For a discussion of the factors which may affect the Borrowers' ability to fulfil their obligations under the Intra-group Facility Agreements, please see "Factors which may affect the Borrowers' ability to fulfil their obligations under the Intra-group Facility Agreements, the Deed of Guarantee and the Security Agreements".

Factors that may affect the Borrowers' ability to fulfil their obligations under the Intra-group Facility Agreements, the Deed of Guarantee and the Security Agreements

A. Risks related to Social Housing Rents and Rental Income

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

Any reduction in social rental income could have an adverse impact on the Borrowers' cash flows that could adversely affect the ability of a Borrower to meet its payment obligations in respect of its Intragroup Facility Agreement.

For the year ended 31 March 2024, the turnover from general needs housing, supported housing/housing for older people and other tenures (comprising intermediate rent, keyworker and social leaseholders) was £572.3 million, or 52.7 per cent. of the Sanctuary Group's £1,085.4 million of turnover.

The operating surpluses from general needs housing, supported housing/housing for older people and other tenures (comprising intermediate rent, keyworker and social leaseholders) were £177.9 million, or 82.7 per cent. of the Sanctuary Group's £215.2 million of operating surpluses.

The tenants of the social housing (as defined in Part 2 of the Housing and Regeneration Act 2008) properties of the Borrowers are personally responsible for the rental payments on the relevant occupied properties and, consequently, the Borrowers are exposed to the risk of arrears and bad debts. Any significant exposure to arrears and bad debts may adversely affect the ability of the Borrowers to meet their payment obligations in respect of their respective Intra-group Facility Agreements.

The Original Borrowers and their tenants receive (and any Additional Borrower and its tenants are expected to receive) a material proportion of their rental income from housing benefit and Universal Credit (where alternative payment arrangements are in place) payable by local authorities. A series of welfare reforms were incorporated in the Welfare Reform and Work Act 2016 (the **WRWA 2016**). The WRWA 2016 makes provisions on the household benefit cap and social security and tax credits that expose the Borrowers to the risk of a reduction in rental income and an increase in arrears.

Registered Providers of Social Housing were required to reduce rents in respect of almost all tenancies that were subject to the rent standard by 1 per cent., per annum from April 2016 for a four year period. All of the required rent reductions were applied by the Original Borrowers in England. Any further reduction in rental income could, if material, adversely affect the ability of a Borrower to make payments in respect of its Intra-group Facility Agreement (see "*Risks related to Welfare Reform*"). On 4 October 2017, the Government announced that social housing rents would be restored to the Consumer Price Index (**CPI**) plus 1 per cent. formula for five years from 1 January 2020.

The current Rent Standard 2020 came into force on 1 April 2020 giving effect to the UK Government's Policy Statement of Rents for Social Housing. This provides that social rented housing and affordable rented housing rents in England may increase by up to CPI + 1 per cent., each year. The Policy Statement on Rents for Social Housing states the intention that this should apply for at least five years.

However, in response to high levels of inflation during 2022, the UK Government acted to limit annual rent increases for affordable and social rent homes to a 7 per cent ceiling for rent periods that began between 1 April 2023 and 31 March 2024. The English Original Borrowers, along with many other Registered Providers, also committed to a voluntary equivalent cap to the rental increase on their shared ownership leases.

Subsequently annual rent increases have returned to CPI plus 1 per cent, and in December 2024 the UK Government announced that the Policy Statement would be rolled over by a further year until April 2026. Based on September CPI, this means permitted rents growth for rent periods that begin in the year from April 2025 of 2.7 per cent..

During October to December 2024 the UK Government consulted on social housing rent policy from 1 April 2026, with a proposal that rent policy should remain in place for at least 5 years from 1 April 2026 to 31 March 2031 with a proposed policy that rents should be permitted to increase by up to CPI +1 per cent. When the results of the consultation have been analysed and new policy settled, this will give the English Borrowers certainty over future income streams, subject to any further UK Government rent policy changes.

The English Borrowers will apply future rent increases or decreases in accordance with the UK Government rent regimes (if any) in place at the time. Any rent reduction may also apply to rents in respect of shared ownership leases held by the English Borrowers and any reduction in rental income generally could, if material, adversely affect such Borrowers' ability to meet their payment obligations

under their respective Intra-group Facility Agreement on a timely basis, which may, in turn, affect the Group Borrower's ability to meet its payment obligations under the Loan Agreement and, therefore, the Issuer's ability to meet its payment obligations under the Notes.

In Scotland, the Housing (Scotland) Act 2001 allows landlords to increase rent (giving tenants at least four weeks' notice) but requires them to consult with tenants and have regard to their views about rent increases. In addition, when suggesting a rent increase, landlords should keep in mind what is affordable for their tenants. The Cost of Living (Tenant Protection) (Scotland) Act 2022 amended the Housing (Scotland) Act 2001 to introduce a moratorium on increases in rents for homes provided by Registered Social Landlords. The moratorium on rent increases for Registered Social Landlords imposed by the Scottish Government expired on 26 February 2023.

For non-RSL landlords, the moratorium was replaced by a cap on rent increases of 3 per cent. until 31 March 2024. Rent caps for private residential tenancies are now set to be re-introduced as the Housing (Scotland) Bill makes its way through the Scottish Parliament. Should the Bill pass, rent increases will be restricted to 1 per cent. over the Consumer Price Index, up to a maximum of 6 per cent. As proposed, this cap would only apply in rent control areas, and the power to designate all or parts of a local authority area as a rent control area falls to the Scottish Ministers. Under the Bill, rent increases would be capped both during and in between tenancies.

The Scottish Ministers are also given the power to exempt properties from the restrictions imposed on rent control areas. While the Scottish Government is yet to confirm which properties will be exempt, the Housing Minister, in their statement to the Scottish Parliament on 31 October 2024, indicated that mid-market rental properties are likely to be exempt.

Receipt of rental income by the Borrowers relies on their ability to let properties. Demand for the Borrowers' properties is mainly driven by local housing need and property condition relative to alternatives, as well as a stable external environment. Sudden domestic or global macro-events, including, without limitation, another pandemic, may adversely affect the Borrower's ability to collect rental income on a timely basis or may cause rental arrears to rise. A net reduction in demand for the Borrowers' properties could reduce overall rental income. If material, this may adversely affect the ability of each affected Borrower to make payments in respect of its Intra-group Facility Agreement. The Borrowers collectively hold stock throughout England and Scotland where household formation continues to outpace the provision of new housing supply, increasing the demand for rented housing. As at 31 March 2024 the occupancy in the Original Borrowers' social housing properties was 97 per cent.

B. Pensions Risk

Sanctuary and, in some cases, its subsidiaries, participates in the following defined benefit pension schemes:

- (a) the Sanctuary Final Salary Pension Scheme (**SHAFSPS**);
- (b) the Sanctuary North West Housing Association Pension Scheme (SNWHAPS);
- (c) the Greenwich Fund of the Local Government Pension Scheme (**GF-LGPS**);
- (d) the Cheshire Pension Fund of the Local Government Pension Scheme (**CPF-LGPS**);
- (e) the Shropshire Fund of the Local Government Pension Scheme (**SF-LGPS**);
- (f) the Cheshire Pension Fund (Avenue Services) (**CPFAS-LGPS**)

- (g) the Merseyside Fund of the Local Government Pension Scheme (MF-LGPS); and
- (h) the National Health Service Pension Scheme (NHSPS).

The SHAFSPS is a stand-alone defined benefit trust-based pension scheme which sits within TPT Retirement Solutions' (the **TPT**) (formerly known as The Pension Trust) collection of occupational pension schemes. The scheme is closed to new and existing members.

At the point of the acquisition by Sanctuary, each of Swan and "Johnnie" Johnson Housing Trust Limited (**Johnnie Johnson**) (which transferred its engagements into Sanctuary on 31 January 2025) had defined benefit arrangements in the multi-employer Social Housing Pension Scheme (the **SHPS**). To remove the last man standing risk in the SHPS, Swan's defined benefit arrangement was transferred to SHAFSPS on 30 September 2024 and Johnnie Johnson's defined benefit arrangement was transferred to SHAFSPS on 30 January 2025. These pension arrangements are closed to new and existing members.

The combined SHAFSPS (including Swan and Johnnie Johnson) current annual deficit employer contributions are £4.66 million, increasing by 3 per cent. per year for Sanctuary and ex-Swan members and 5.5 per cent. per year in the case of ex-Johnnie Johnson members. As part of the Swan bulk transfer to SHAFSPS it was agreed that Swan would make a one off £2 million deficit contribution payment to SHAFSPS to equalise the funding level of the swan pension arrangement with the SHAFSPS with no further contributions due until October 2026. The next SHAFSPS actuarial valuation date is 30 September 2025 at which point the deficit recovery contributions will be reviewed.

The SNWHAPS is a stand-alone defined benefit trust-based pension scheme that is closed to new and existing members. On 31 March 2025, Sanctuary completed a bulk purchase annuity transaction in respect of the SNWHAPS which secures all benefits in an insurance policy with an insurer. The effect of this is that Sanctuary will have no further material liabilities in respect of the SNWHAPS.

The LGPS is a public sector scheme administered at a local level by administering authorities in relation to its LGPS funds (each being a **Fund**). Admission to participation in a Fund enables employees to build up defined benefit pensions and it is only available to small numbers of Sanctuary employees (as a result of their historic public sector/local authority employment). However, risk sharing mechanisms mean that Sanctuary and its subsidiaries are protected from deficits arising in CPFAS-LGPS, SF-LGPS and MF-LGPS.

Sanctuary ceased to employ active members in the NESPF, Strathclyde PF, Essex Pension Fund and Oxfordshire Pension Fund on 31 December 2024 and it is currently in discussions with the respective local authorities regarding exit credits/debits.

Sanctuary ceased to employ active members of the CPFAS-LGPS on 31 January 2022. It has since entered into a deferred debt arrangement (as governed by the Local Government Pension Scheme Regulations 2013) with Cheshire West and Chester Borough Council with a current expiry date of 31 January 2037, whereby Sanctuary's obligation to meet the exit debt has been deferred whilst Sanctuary remains a deferred employer.

Sanctuary is a direction body employer of NHSPS. NHSPS is an unfunded occupational scheme backed by the Exchequer and the terms of participation secured by Sanctuary mean that no deficit or surplus will arise for Sanctuary in respect of this scheme.

As at 31 March 2024, the fair market value of the assets held in the LGPS Funds attributable to the Sanctuary Group, combined with the assets held in SHAFSPS and SNWHAPS amounted to £323.1

million. As at 31 March 2024, the corresponding pension liabilities and reporting requirements amount to £347.0 million, resulting in a net deficit of £23.9 million, valued on an IAS 19 accounting basis.

The year 2025 is a funding valuation year for SHAFSPS with a revised payment schedule for this scheme becoming known during 2026. It is the intention that revised payment schedules will fund the scheme deficits over a 6 year period.

As with all defined benefit pension schemes, there may be certain circumstances in which the sponsoring employers of the pension arrangements listed above are required to make good a funding deficit in short order. Certain forms of restructuring of the Sanctuary Group may also result in circumstances in which a funding deficit has to be met. However, Sanctuary always carefully considers the pension implications of restructuring proposals and wherever possible ensures that such restructurings are organised to avoid pension liabilities crystallising.

The Sanctuary Group is developing a pensions strategy with the aim of mitigating the risks associated with defined benefit participation wherever possible. The strategy will include consideration of the estimated liabilities associated with each of the schemes noted above, and possible future liability management exercises over the medium to long term.

Any increased pension liabilities may have an effect on the Borrowers' cash flow, which could, in turn, adversely affect their ability to make payments under the Intra-group Facility Agreements and, ultimately, the Issuer's ability to meet its payment obligations on the Notes.

C. Risks related to Care Income

The Original Borrowers' care home income is paid (and any Additional Borrower's care home income is expected to be paid) by private fee payers (the **PFP**s) and local authority funded residents. Local authorities (**LAs**) have a variety of contractual terms with the Original Borrowers which include, but are not limited to, providing guaranteed rooms for LA funded residents in return for discounts on standard market rates. Most of these contracts are renewed annually with LAs taking different stances on what level of cost increases are acceptable. Operating expenditure in the Sanctuary Group's care businesses is increasing due to higher labour, energy and food costs. The Original Borrowers regularly review the benchmark market rates for PFPs and LA contracts on a local and national basis.

However, the current ability of LAs to match the true cost of care provision is uncertain. The UK Government recently updated its guidance to LAs in "*The Market Sustainability and Fair Cost of Care fund 2022 to 2023*" document (updated on 27 September 2024) which sets out that the stated primary purpose of the fund as being "to support local authorities to prepare their markets for reform, including the further commencement of Section 18(3) of the Care Act 2014 in October 2023, and to support local authorities to move towards paying providers a fair cost of care". In addition, the guidance states that: "In 2022 to 2023 local authorities are also expected to start making genuine progress towards more sustainable fee rates, where they are not already doing so. This means increasing fee rates paid to providers (in respect of 65+ care homes and 18+ domiciliary care, including those who operate in extra care settings). The Local Government Finance Settlement 2022 to 2023 included additional funding for local authorities to cover the demographic graphic and unit cost pressures facing social care. The fund is additional to those pressures and it will help local authorities to increase fees further." The September 2024 update added a note stating that the planned adults social care charging reforms, which were inherited from the previous UK Government, will not be taken forward in October 2025.

The Borrowers are committed to maintaining and improving the service in the Sanctuary Group's care homes and have provided for operating cost increases in the Sanctuary Group business plan along with likely price increases acceptable to both PFPs and LAs. Increases to the costs of care provision, including the increases to National Insurance contributions and minimum wages announced in the October 2024 Budget, without associated increases to fee income may have an effect on the Borrowers' cash flow, which could, in turn, adversely affect their payments under the Intra-group Facility Agreements and, ultimately, the Issuer's ability to meet its payment obligations on the Notes.

D. Risks related to Government Policy

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

Under the Welfare Reform Act 2012 (as amended, the **WRA 2012**), the total household benefit cap (the combined income from a number of welfare benefits for those that are of working age) is £22,020 per year for couples or single parents with resident children (or £25,323 in Greater London) and £14,753 per year for single people without children (or £16,967 in Greater London). Exemptions to the total household benefit cap can apply to those tenants who: qualify for working tax credit; are above the qualifying age for pensions credit; obtain certain benefits for sickness and disability; or claim a war pension. The benefit cap will not apply in circumstances where a tenant or a tenant's partner is in receipt of (or is responsible for a child or young person who is in receipt of) benefits such as disability living allowance, personal independence payment or carer's allowance. During the 2023-2024 financial year, households on eligible means-tested benefits, disability-related benefits and pensioners were eligible to receive additional "cost of living payments" of up to £900 per year to supplement their usual benefits, which also do not count towards the cap. The benefit cap will remain frozen at these levels for 2025/26.

In September 2024, the UK Government announced the removal of the Winter Fuel Payment for households in England unless they receive Pension Credit or certain other means-tested benefits. Winter Fuel Payments are not available in Scotland, although individuals may be eligible for a similar payment from the Scottish Government known as the Winter Heating Payment. The following benefits are available to people already receiving the following UK benefits during the "qualifying week": Universal Credit; Pension Credit; Income Support; Income based Jobseeker's Allowance; Income Related Employment Support Allowance; or Support for Mortgage Interest.

Both the household benefit cap and the occupation size criteria (also known as the "bedroom tax") introduced in April 2013 may have an adverse impact on the ability of those tenants affected by the WRWA 2016 to pay their rent (particularly where the other sources of income of those tenants remain unchanged or decrease). For households where the total amount of welfare benefits would be more than the capped amount, the local authority will limit a claimant's entitlement to housing benefits to ensure the cap is not exceeded, meaning that affected tenants would have to pay a larger proportion of the rent themselves. For those on legacy benefits it is only housing benefit that can be capped, (even when the total of other benefits exceeds the capped amount). Increasingly the benefit cap will be administered through Universal Credit where the cap is not limited to the housing element. In turn, this could have an adverse impact on the Borrowers' cash flows that could adversely affect the ability of a Borrower to meet its payment obligations in respect of its Intra-group Facility Agreement.

Any cap reduction, amendment or termination by the UK Government of housing benefit or the Universal Credit housing element or any other benefits may have an adverse impact on the payment of rent, as the tenants would have to pay a higher proportion of the rent themselves. Non-payment, partial payment or any delay in payment of rent by the tenants could increase rental income arrears and bad debts, and could have an adverse effect on the Borrowers' cash flows that could adversely affect the ability of a Borrower to meet its payment obligations on a timely basis in respect of its Intra-group Facility Agreement. However, this risk, and the introduction of occupation size criteria, is not considered by the Original Borrowers to be material in the context of their existing and future rental income streams and the level of social rents charged compared to LHA (see "*Risks related to the Housing Market*"). In

particular, the Original Borrowers undertake (and any Additional Borrower is expected to undertake) a wide range of measures to help minimise any loss of rental income including, but not limited to, educating their tenants how to manage their financial affairs, assisting unemployed tenants to find employment and eviction.

Discretionary Housing Payments (**DHPs**) are administered in England and Scotland by local authorities and may be awarded when a local authority considers that a claimant on housing benefit or universal credit (which includes a housing element towards rental liability) requires further financial assistance towards housing costs. DHPs may be used to mitigate the impact of the removal of the spare room subsidy.

E. Risks related to Universal Credit

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

Universal Credit was introduced under the WRA 2012, which replaced six existing means-tested benefits and tax credits for working-age families, namely income support, income-based jobseeker's allowance, income-related employment and support allowance, housing benefit, child tax credit and working tax credit with a single monthly payment, transferred directly into a household bank account of choice. Universal Credit is currently in an extended "roll out" phase across the UK and the transfer of all individuals from existing benefits or tax credits onto Universal Credit is expected to be completed by March 2026.

The implementation of Universal Credit is likely to increase transaction costs. Additionally, the receipt of rental payments by the Borrowers may be delayed due to several factors. These include the tenant's failure to apply for Universal Credit and/or regularly pay rent which is due in addition to the housing element and/or, in circumstances where the housing element is not paid directly, a failure to pass on the housing benefit payments. In such circumstances, non-payment, partial payment or any delay in payment of rent could increase rental income arrears and bad debts and may affect the ability of a Borrower to meet its payment obligations in respect of its Intra-group Facility Agreement. However, this risk is not considered by the Original Borrowers to be material in the context of their existing and future rental income streams.

The housing benefit element of Universal Credit can be paid directly to a landlord in both England and Scotland (including RSLs) at the tenant's request, or if the local authority considers it to be in the tenant's best interests, mitigating the risk of accruing rent arrears following the introduction of Universal Credit. The local authority must make payments direct to a tenant's landlord if there are rent arrears of eight weeks or more, or if a deduction from income support, income-based jobseeker's allowance or pension credit is being made to pay arrears, unless the local authority considers this not to be in the claimant's interest.

F. Risks related to the UK Government's "Right to Buy", "Right to Acquire" and "Right to Shared Ownership" policies

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

Most assured tenants of housing associations do not have a statutory right to buy. Some assured tenants may have a 'preserved right to buy' if they were secure tenants of the local authority when ownership of their homes transferred to a housing association. Assured tenants of houses built after April 1997 on public funding do not have a statutory right to buy might have a statutory right to acquire

(**RTA**). There are exemptions to the RTA, such as where the property is in a designated rural area. The RTA offers a less generous discount to eligible tenants.

The introduction of the right to buy to assured tenants of Registered Providers of Social Housing was a manifesto commitment of the Conservative party for the 2015 general election, but as part of the Autumn Budget in October 2024 the UK Government announced a number of changes to the Right to Buy scheme, and has since confirmed that the Right to Buy will not be extended to housing associations. Discounts for purchases through the Right to Buy scheme (which affect the English Borrowers where some tenants of formerly local authority housing have the Preserved Right to Buy), will revert to the substantially lower pre-2012 levels and will no longer be automatically increased annually by CPI.

On 17 October 2019 the UK Government announced a new right to shared ownership. Eligible tenants in eligible social or affordable rented homes delivered by the Affordable Homes programme 2021-26 have the right to buy a minimum 10 per cent. share of their home, with the ability to buy further shares over time. The UK Government has also committed to work with housing associations on a voluntary basis to determine what similar offer could be made to tenants in existing housing association properties.

A wide scale roll out of this policy could have an adverse impact on the Borrowers' rental cash flows (and operating margin) which could affect the ability of a Borrower to meet its payment obligations in respect of its Intra-group Facility Agreement. However, this risk is not considered by the Original Borrowers to be material in the context of their existing and future rental income streams.

In Scotland, the provision to end Right to Buy with a two-year notice period was included in the Housing (Scotland) Act 2014, and the scheme subsequently closed to all new applicants on 31 July 2016.

G. Risks related to Stock and Zero Carbon

The anticipated increased frequency of weather events and the global transition to a low-carbon economy are expected to result in a broad range of impacts, including potential strategic, operational, reputational, structural and credit-related risks for the Sanctuary Group. In addition, climate change regulations, frameworks and guidance are rapidly emerging and evolving. Through the Climate Change Act 2008 (2050 Target Amendment) Order 2019, the UK set a legally binding target of net zero greenhouse gas emissions by 2050. The Scottish Government, by way of its Climate Change (Emissions Reduction Targets) (Scotland) Act 2019 (amending The Climate Change (Scotland) Act 2009), has set out its ambition in terms of Scotland's own emissions reduction target of reaching net zero by 2045. The Climate Change (Emissions Reduction Targets) (Scotland) Bill recently passed by the Scottish Government removed the annual and interim emissions reduction targets in favour of setting five-year carbon budgets (in line with the rest of the United Kingdom). Such targets are now driving policy change across UK and Scottish Government, including a stated intention that new-build homes will have 75-80 per cent. less carbon emissions than homes built to current standards. Interim targets have also been set by the UK Government for all fuel poor homes. In September 2024, the UK Government reaffirmed its intention to require all social homes in England to achieve an Energy Performance Certificate (EPC) standard of Band C by 2030. The Scottish Government has a stated ambition for as many fuel poor households as possible to have attained the equivalent of an EPC B by 2040 and have recently consulted on proposals for a new Social Housing Net Zero Standard. Increasing regulatory expectations create a new set of requirements and accompanying risks that need to be managed.

Energy use in all UK buildings is estimated to make up roughly 30 per cent. of national emissions. Although specific legal targets for the social housing sector in relation to net zero greenhouse gas emissions by 2050 have not been set across the whole of the UK, a reduction or elimination of greenhouse gas emissions from the Borrowers' properties will be necessary. Some landlords are

already unable to let buildings that do not satisfy relevant EPC requirements. The net zero 2050 target is currently acting as a lever to encourage real estate owners to make significant investments in the energy efficiency and decarbonisation of their buildings. Innovation from the construction and building services industries will be required to overcome any technical challenges that arise as a result of such programmes. The costs of relevant retrofit programmes are estimated to be substantial, particularly the longer term replacement of gas boilers and upgrading of connected heating systems to achieve decarbonisation targets.

The Sanctuary Group has identified approximately 26,000 properties that require assessment and possible retrofit work to bring them to a standard of EPC Band C. Work is already underway to complete this by the 2030 Government target, via the Sanctuary Group's whole home retrofit programme with budget agreed within the Sanctuary Group's 7-year asset management strategy.

The Sanctuary Group has published its third Sustainability Report in July 2024, which looks at the impact of the organisation against each environmental, social and governance (**ESG**) theme and, in November 2023, published its first Decarbonisation and Net Zero Strategy which presents a quantified and targeted roadmap to net zero by 2050. This has since been followed by the first annual Progress Report, published in October 2024.

The exact extent of investment required for the Borrowers to meet the Government and the Scottish Government targets and to comply with environmental legislation in relation to achieving Net Zero can currently only be estimated, due to the complexities of forecasting decarbonisation costs over the long-term. However, the Sanctuary Group has included at least £150 million within its long-term financial plan to meet the requirements of EPC Band C by 2030 as well as allocating additional capital expenditure to contribute to the Sanctuary Group's net zero ambition. Whilst a significant proportion of the reinvestment expenditure included within the long-term financial plan beyond 2030 will improve the energy efficiency of the stock, at this stage estimating the cost of achieving net zero via decarbonisation works is challenging and it is likely that the technical solutions to achieve this outcome are yet to be brought to the market at appropriate scale or cost. If the Borrowers are faced with material costs in this regard, this may adversely affect the ability of the Borrowers to meet their payment obligations in respect of their respective Intra-group Facility Agreements.

H. Litigation Risk

At the date of these Programme Admission Particulars, claims made against the Sanctuary Group have not had a material impact on the revenue or business of the Sanctuary Group, although there can be no assurance that the Sanctuary Group will not, in the future, be subject to a claim which may have a material impact upon its revenue or business.

Following an incident in 2020 at a development site owned by Swan, where its subsidiaries, Swan Commercial Services Limited (**SCS**) and Swan New Homes Ltd (**SNH** and together with Swan and SCS the **Affected Companies**), were acting as developer and principal contractor respectively, the Affected Companies are the subject of an ongoing joint investigation by the police and the Health and Safety Executive (**HSE**) as well as civil claims from certain affected parties. The police and HSE investigations are ongoing and, as at the date of these Programme Admission Particulars, no charges have been brought against any of the Affected Companies.

As at the date of these Programme Admission Particulars, it is not possible to determine: (a) whether any criminal or regulatory charges relating to these matters will be brought against any of the Affected Companies, (b) the basis of any charges, (c) whether any of the Affected Companies may be subject to successful prosecutions in the future and/or the quantum of any fines which the Affected Companies may face if convicted (which would be subject to applicable sentencing guidelines) and/or (d) the uninsured aggregate quantum of any successful civil claims which have been brought against any of the Affected Companies (or settlement amounts which may be paid in relation to such claims by any of the Affected Companies).

If the Affected Companies are faced with material fines or uninsured claims in this regard, this may adversely affect the ability of Swan to meet its payment obligations in respect of its Intra-group Facility Agreement.

Furthermore, the Sanctuary Group has the benefit of insurance for, among others, employer's liability, public liability, and professional indemnity at a level which the management of the Sanctuary Group considers to be prudent for the type of business in which the Sanctuary Group is engaged.

I. Infrastructure Levy

There are separate provisions in the Planning (Scotland) Act 2019 which allow the Scottish Ministers to introduce an infrastructure levy in Scotland. However, discussions with stakeholders carried out during summer 2024 revealed significant concerns over whether the levy would offer meaningful benefits in terms of infrastructure funding and delivery. This was linked to concerns about its likely complexity and potential impact on development viability. The written responses submitted to the Scottish Government in response to their discussion paper on the introduction of the levy highlighted the same issues. In light of these concerns, the Minister for Public Finance announced, on 12 November 2024, that the Scottish Government would stop work on introducing the infrastructure levy and instead explore ways of improving existing mechanisms for securing contributions, namely via planning obligations. The provisions that allow the introduction of an infrastructure levy are subject to a "sunset clause", meaning that they will lapse if regulations establishing the levy are not made by July 2026.

J. Dependency on third-party suppliers

The Sanctuary Group has an internal maintenance service that covers a material proportion of the maintenance on its properties, yet it still relies on third party contractors for certain repairs. The maintenance of the Borrowers' properties (including, but not limited to, the Charged Properties) is therefore partially dependent on third-party contractors performing their obligations under their maintenance contracts with the Borrowers in a timely manner. The Original Borrowers work closely with their maintenance contractors to avoid property maintenance-related problems, but there can be no assurances that the Original Borrowers (or any Additional Borrower) will not experience problems in the future. The performance of contracts by the maintenance contractors with the Borrowers may be subject to disruption for a variety of reasons, including, but not limited to, availability of materials, work stoppages, labour relations and breakdown in machinery. The same contractor risk exists under contracts issued by the Original Borrowers (and is expected to exist under contracts issued by any Additional Borrowers) in relation to their development of a housing programme. Any such failure by contractors to fulfil their contractual obligations or any such disruption could, if significant, interrupt the Borrowers' ability to provide social housing and this could negatively impact the Borrowers' rental income stream, which could, in turn, adversely affect their payments under the Intra-group Facility Agreements and, ultimately, the Issuer's ability to meet its payment obligations on the Notes.

K. Risks related to Shared Ownership

The Borrowers may also generate revenue from their housing for sale programmes which includes shared ownership. Shared Ownership income is generated on the initial sale of the "first tranche" and subsequent sales of further "tranches" or "staircasings". Household income eligibility thresholds are currently £80,000 outside London and £90,000 in London. Other restrictions, such as local authorities' right to set additional eligibility criteria, are in the process of being relaxed or removed.

There is a risk that, if a tenant of a shared ownership property borrows monies through a mortgage from a commercial lender (having obtained consent from a Borrower), that lender's mortgage may take priority ahead of the security arrangements in place under the Security Trust Deed. However, if that commercial lender were to enforce its security following a tenant defaulting on its mortgage, such lender could staircase (i.e. purchase a portion of the freehold property) up to 100 per cent. in order to be able to sell the whole leasehold interest, in which case a Borrower as landlord would receive such staircasing payments from the commercial lender. If the price for the full 100 per cent. receivable on sale is not sufficient to meet the principal outstanding (plus 12 months interest and other statutorily permitted costs), the shortfall will remain as a debt due to the landlord from the defaulting leaseholder. Under current rules, any shortfall not recovered is borne first by the provider of any grant in respect of the property, and thus the Borrowers are only affected to the extent that the shortfall is not covered by grant monies, which impacts particularly on properties which are not grant funded.

Changes were made to the shared ownership product that will apply to grant funded units under the Affordable Homes Programme 2021 - 2026 (the **Affordable Homes Programme**). Key changes in the revised scheme are that:

- the minimum initial equity share purchased is reduced from 25 per cent. to 10 per cent.;
- the Registered Provider of Social Housing will retain responsibility for repairs to the external fabric of the building and structural repairs for the first 10 years of the lease term;
- whilst the leaseholder remains responsible for general repairs, they may apply to the Registered Provider of Social Housing for an annual contribution of up to £500 towards qualifying repairs and maintenance, including the repair and maintenance of installations for the supply of services. If they do not claim the full repairs allowance in one year, a maximum of one year's allowance will roll over to the next year; and
- staircasing can be exercised in tranches of just 1 per cent. for the first 15 years of the lease, and thereafter in tranches of 5 per cent., rather than the current 10 per cent. requirement. The Registered Provider of Social Housing cannot charge an administration fee when the leaseholder purchases a 1 per cent. share during the first 15 years after becoming a shared owner.

It remains possible to acquire the whole of a Registered Provider of Social Housing's equity subject to certain exceptions as under the previous scheme. These changes to the shared ownership product will impact the potential cash flow and risk profile of shared ownership from the housing association's perspective compared to the previous scheme. However, the Sanctuary Group does not consider it will have a material impact on cash flow of the English Borrowers given the potential number of units affected.

The Affordable Homes Programme is run by Homes England and therefore does not apply in Scotland. In Scotland, the Affordable Housing Supply Programme includes a range of funding mechanisms to enable affordable housing providers to deliver homes for social rent, mid-market rent, and low cost home ownership in communities across Scotland to support local authorities' Local Housing Strategies. As at the date of these Programme Admission Particulars, Sanctuary Scotland does not have any shared ownership properties.

L. Low Cost Home Ownership - Rent to Buy

Rent to Buy is a scheme which allows working households in England to rent a home at Intermediate Rent providing them the opportunity to save for a deposit over time to purchase their first home. Homes are let for a maximum of five years. After the initial five year letting period, the Registered Provider of Social Housing may continue offering the property as Rent to Buy; sell the home on an outright basis with the tenant being given the right of first refusal; or retain and convert the home as rented housing on either an affordable or market rent basis. At the discretion of the Registered Provider of Social Housing, a tenant can also purchase their property within the five years rental period. A purchase under Shared Ownership is permitted as it remains as affordable housing. Tenants must meet all the shared ownership eligibility, affordability and sustainability requirements. At the date of these Programme Admission Particulars the English Borrowers do not have any such units.

M. Outright Sales Risk

The Original Borrowers are exposed (and any Additional Borrower is expected to be exposed) to cash flow and profits from a programme of outright sales of properties undertaken by the Sanctuary Group's wholly owned subsidiary, Beech Grove Homes Limited (**Beech Grove Homes**), through on-lending from the Borrowers. As at 31 March 2024, the total direct lending from the Original Borrowers to Beech Grove Homes was £196.1 million and to jointly controlled entities (joint ventures with a national housebuilder) was £10.2 million (including capitalised interest). All sales made by Beech Grove Homes are dependent on economic conditions and performance of the housing market (see "*Risks related to the Market and Development*") so too is Beech Grove Homes' capacity to service debt borrowed from the Borrowers. A material downturn in the housing market may therefore adversely affect the Borrowers' cash flows and their ability to make payments in respect of their respective Intra-group Facility Agreements.

For the year ended 31 March 2024, the Sanctuary Group's turnover from shared ownership first tranche sales and open market sales was £27.1 million and £63.2 million, respectively. In total this was £90.3 million or 8.3 per cent. of the Sanctuary Group's £1,085.4 million of turnover, whilst operating surpluses from shared ownership first tranche sales and open market sales was £2.2 million and £13.3 million, respectively. A total of £15.5 million, or 7.2 per cent. of Sanctuary Group's £215.2 million of operating surplus.

N. Other Income Risk

The calculation of housing benefits includes the treatment of service charges within the Affordable Rent figure, rather than them being these being additional amounts. This means that service charges need to be accurately calculated with the Affordable Rent agreed otherwise there is a risk that service costs will not be covered by the rent and, where applicable, Universal Credit.

The Sanctuary Group provides care, support, housing management and assistive technology solutions to vulnerable adults through its Sanctuary Supported Living division (the **SSL**). For the year ended 31 March 2024, SSL generated revenue income of approximately £114.3 million, or 10.5 per cent. of the Sanctuary Group's total revenue of £1,085.4 million.

The majority of residents in the Sanctuary Group's registered care homes depend on funding from social services/primary care trusts or local authorities. Given the constraints on public sector budgets, there have been limited annual fee increases from these sources, and it is likely that this trend will persist. There is a risk that costs might rise more than revenue increases, leading to a decrease in surplus for this business. At the date of these Programme Admission Particulars, approximately 40 per cent. of income in the registered care homes business comes from private payers. Furthermore, Sanctuary Group provides various levels of care including those areas where there is a greater need from the public sector.

Sanctuary Care, the Sanctuary Group division which delivers care to older people, manages 109 care homes and a supported living service. At as 31 March 2024, Sanctuary Care revenue income was $\pounds 269.0$ million or 24.8 per cent. of the Sanctuary Group's total revenue of $\pounds 1,085.4$ million.

In most instances, the relevant local housing authority or the local authority's adult social care budget administers and disburses these payments. However, due to budget constraints and changes within the local authority, there is a risk that this source of revenue might decrease in certain cases. Such a reduction could temporarily affect the Sanctuary Group potentially leading to fewer services for tenants, who have previously benefited from services funded in this manner. To mitigate these risks, Sanctuary actively collaborates with local commissioners in delivering this service.

Sanctuary Supported Living and the Sanctuary Group's registered care homes business are also exposed to cost pressures associated with increases in both the National Living Wage and the employer National Insurance contributions announced by the UK Government in the 2024 autumn budget, thereby increasing costs but with limited scope to increase revenue other than as described above.

O. Risks related to the Housing Market

Risks related to the Market, Development and Operations

The majority of the properties of the Sanctuary Group are social rented properties (general needs, sheltered housing and supported housing), all of which have a limited exposure to housing market downturn risk. Rental income from these properties provides the major source of the Sanctuary Group's income. The Sanctuary Group has limited exposure to housing market downturn risk through its shared ownership sales.

The Nationwide House Price Index, published in January 2025, confirmed a slowdown in the annual increase of house price to 4.1 per cent. (from 4.7 per cent. in December 2024). Despite the significantly higher interest rate environment, the housing market remained relatively resilient, with the volume of mortgage approvals nearing the pre-pandemic figures.

Residential property investment is subject to varying degrees of market and development risks. The market values of properties are generally affected by overall conditions in the economy; political factors and systemic events, including the condition of the financial markets; the cost and availability of finance to businesses and consumers; fiscal and monetary policies; changes in government legislation; political developments, including changes in regulatory or tax regimes; changes in unemployment, gilt yields, interest rates and credit spreads; levels of prevailing inflation; changes in consumer spending; an increase in the supply of, or a reduction in demand for, residential property; infrastructure quality; the returns from alternative assets as compared to residential property; environmental considerations; changes in planning laws and practices; and the perceived threat from terrorism. Residential real estate values and rental revenues are also affected by factors specific to each local market in which the property is located, including the supply of available property and demand for residential real estate and the availability of mortgage finance to prospective purchasers. However, the Sanctuary Group's wide spread of property locations provides some level of insulation to localised property market conditions.

Among other things, these market risks were heightened as a result of the Covid-19 pandemic, the volatility in the energy market, the end of the post-Brexit transition period, high inflation and the impact on mortgage rates.

These risks may impact upon the value of the Sanctuary Group's assets and the expenses incurred in connection with existing residential properties. Additionally, they could influence the rental income produced by these properties, the ability to develop the land acquired, the ability to sell properties and the ability to acquire additional sites. This, in turn, could impact on a Borrower's cash flow and its ability to satisfy any covenants which it is required to maintain pursuant to the terms of existing and any future financing arrangements, including its obligations under the relevant Intra-group Facility Agreement.

Risks relating to proposed changes to the Private Rented Sector

In September 2024, the Renter's Rights Bill was introduced into UK Parliament. It is part of a package of reforms set to introduce wide ranging changes to the residential sector in England and Wales. The Bill aims to set minimum standards for the quality of private rental housing and deliver a tenancy structure that provides greater security, stability and rights of redress for the consumer. This broad package of reforms is anticipated generally to apply to landlords across the private rented sectors, including those in the Affordable Housing sector.

The Bill amongst other things, abolishes section 21 "no fault" evictions and will deliver a simpler, more secure tenancy structure by moving all tenants who would previously have had an assured tenancy or an assured shorthold tenancy onto a single system of periodic tenancies. Section 21 evictions will also be abolished in the social rented sector. However, the Regulator of Social Housing (the **RSH**) will need to update its Tenancy Standard which will require a statutory consultation process and so the new system will be delayed in respect of the English Borrower's social tenancies. Existing possession grounds will also be overhauled – for example, where tenants are in arrears the mandatory threshold for eviction will be increased from two to three months and the notice period for eviction will be increased from two to four weeks. Although landlords will be able to regain possession when their circumstances change (for example, they want to sell the property or they or a close relative want to occupy it), they will not be able to do so in the first year of the tenancy and will have to give four months' notice.

Living standards in the private rented sector are expected to be improved by the extension of 'Awaab's law' and the Decent Homes Standard to the private sector (scheduled to take effect from October 2025); currently they only apply to social housing landlords. 'Awaab's law' refers to the death of two-year-old Awaab Ishaak who passed away because of a severe respiratory condition due to prolonged exposure to mould in his home. All landlords will be required to investigate and fix health hazards in their properties within a specified time.

It is possible that some of these reforms will impact on the Borrowers and could adversely affect future profits and the ability of an English Borrower to meet its payment obligations on a timely basis under its respective Intra-group Facility Agreement which, in turn, may have an adverse effect on the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes. At the date of these Programme Admission Particulars, the reforms are not seen as a material risk for the English Borrowers and the English Borrowers' ability to meet their payments under their respective Intra-group Facility Agreements and, in turn, the Issuer's ability to meet its obligations to the Noteholders in respect of the Noteholders in respect of the Notes.

In Scotland, private rented sector tenancies are provided for under the Private Housing (Tenancies) (Scotland) Act 2016. This does not apply to tenancies granted by Registered Social Landlords within the definition given in section 165 of the Housing (Scotland) Act 2010 but may apply to entities in the Sanctuary Group who are not Registered Social Landlords.

The Scottish Government's "*A New Deal for Tenants*" proposals, aims to deliver a fairer rented sector that meets the needs of tenants and welcomes responsible landlords. The proposals include: increasing penalties for illegal evictions and stronger enforcement; restricting evictions during winter; developing a national system of rent controls for the private rented sector; introducing a new Housing Standard to apply to all homes; establishing a private rented sector regulator and setting minimum standards for energy efficiency. The proposals form part of the Scottish Government's Housing to 2040 strategy which also sets a new ambition to deliver 100,000 affordable homes by 2031/32. The new Housing (Scotland) Bill has now passed Stage 1 in the Scottish Parliament with the Scottish Government report on it published on 14 November 2024. This Bill will eventually become the Housing (Scotland) Act 2025 and will amend existing legislation, namely the Private Housing (Tenancies) (Scotland) Act 2016

Although the Bill can still be amended before it becomes law, as currently drafted, the Bill can provide an indication of the changes that the Scottish Government are looking to implement in the private rented sector in Scotland. The key changes include:

- the introduction of rent control areas, although the detail of these will become clearer in subordinate legislation;
- within these rental control areas, the proposal is that private rent increases would be capped at
 a level of CPI plus 1 per cent. up to a maximum of 6 per cent., which cap will apply to rent rises
 during the tenancy and between tenancies. The exemptions to any rent caps are still to be
 confirmed in future consultations with the next one planned for spring 2025 before amendments
 to the Bill are proposed at Stage 2. Strong arguments are being made to exclude mid-market
 rental properties from any rent caps applied to the private rented sector; and
- the introduction of a further step for evictions. The First Tier Tribunal (Housing and Property Chamber) and the Sheriff Court, where applicable, will have to consider whether it would be reasonable to select a date that postpones a landlord's recovery of the let property in the particular circumstances. This would only be applicable where the tenant is deemed to be entitled to protection, for example if they are under some form of financial hardship or detrimental health effect. This would be compared against any detrimental effect to the landlord when making a decision on delaying an eviction.

As noted above, the Bill is still subject to further consultation and could be amended as it goes through further stages in the Scottish Parliament. Therefore, details of any final proposals and consideration of their impact on the ability of Sanctuary Scotland to meet its payment obligations under the Intra-Group Facility Agreement and thus the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes will only become clearer when the final draft Housing Bill is published.

P. Risks related to the Regulatory Framework and Housing Grant

Risks related to Regulation

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

The Social Housing (Regulation) Act 2023 (the **SHRA 2023**) became law in July 2023. The SHRA 2023 is the enabling legislation to facilitate the RSH's new consumer regime. This regime is underpinned by four Consumer standards and a Code of Practice, applicable from 1 April 2024. The RSH's increased powers and aim to proactively inspect Registered Providers of Social Housing against the standards, are a far-reaching and transformative shift, aiming to drive significant change in landlord behaviour and drive-up quality standards of social housing. Prior to the SHRA 2023, the RSH took a reactive approach to regulating the Consumer Standards. Its intervention and enforcement powers were restricted to cases in which there were reasonable grounds to suspect actual or a significant risk of serious detriment to tenants. The "serious detriment" test has been removed by the SHRA 2023 and, from 1 April 2024, the RSH applies the same scrutiny and focus across all the Standards.

The SHRA 2023 also strengthened the role of the Housing Ombudsman in order to provide tenants with a means of complaint and redress for inadequate housing provision by Registered Providers. A revised Complaints Handling Code (the **Code**), setting out good practice for Registered Providers in responding to complaints fairly and effectively, became statutory on 1 April 2024 and it is actively enforced by the Housing Ombudsman.

These measures increase the RSH's power to intervene and inspect the Borrowers in relation to health and safety matters and will also place further reporting obligations on the Borrowers in terms of its communications with tenants. It is likely that there will be associated costs for the Borrowers in complying with these measures.

Any breach of the new measures by the English Borrowers could lead to the exercise of the RSH's statutory powers. As part of the new measures, there is an intention to strengthen the RSH's enforcement powers to tackle failing Registered Providers of Social Housing. This will include removing the cap on the level of fines that the RSH may charge. Any such intervention by the RSH in respect of an English Borrower may affect its ability to meet its payment obligations on a timely basis under its Intra-group Facility Agreement which, in turn, may have an adverse effect on the Issuer's ability to meet its obligations to the Noteholders in respect of the Notes.

Noteholders are exposed to the creditworthiness of the Borrowers and any change in the regulatory framework for social housing in England (the **Regulatory Framework**) or changes to the regulation of community benefit societies could lead to the English Borrowers facing increased costs to comply with the Regulatory Framework and its other regulatory obligations. Any breach of the Standards (as defined below) could lead to the exercise of the RSH's statutory powers. Serious non-compliance with the Economic Standards (as defined below) may lead to a downgrade of the RSH's published regulatory judgment and agreement with the RSH of the corrective action to be taken. The Consumer Standards will be enforced in a similar way to the Economic Standards. In the event that the RSH (or its successor (if any) or any other regulatory body) requires an English Borrower to take corrective action necessitating significant additional expenditure by that Borrower, the ability of that Borrower to meet its payments under its respective Intra-group Facility Agreement and, in turn, the ability to meet its obligations to the Notes.

The Borrowers have a range of mechanisms to ensure that their residents can participate in the governance of the Sanctuary Group including resident board members on the landlord bodies, service task teams, regional scrutiny boards, regional service task teams on repairs, virtual forums, resident associations and other local offers. Value for money is being driven by significant efficiency savings targets supported by a strong focus on operational efficiencies and procurement. The RSH has also set standards where it adopts an interventionist role if performance is so poor as to constitute serious detriment. The RSH expects Registered Providers of Social Housing to monitor their own performance and take any remedial action swiftly.

In addition, the Borrowers own and operate certain residential care homes and, consequently, the Borrowers are also regulated by the Care Quality Commission in England and Wales and the Care Inspectorate in Scotland (together the **Care Regulators**). If any Borrower fails to comply with the Care Regulators' respective regulations, the relevant Care Regulator has the power to negatively rate a home and/or threaten to withdraw its registration, following which a local authority can embargo such Borrower, meaning that such Borrower will be unable to accept any new local authority residents until the issue has been rectified and the embargo has been lifted. Accordingly, the ability of an embargoed Borrower to provide care could be restricted which could have an adverse effect on its financial position. In addition, any failure of a Borrower to comply with the relevant regulations of a Care Regulator could attract negative publicity which could have an adverse impact on the Sanctuary Group's reputation.

Q. Risks related to Housing Grant

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

The Original Borrowers have historically received (and any Additional Borrower may receive) grant funding from a variety of sources, including Homes England, the Greater London Authority (the **GLA**) and, in the case of Sanctuary Scotland, the Scottish Government and various Scottish Councils. Due

to the nature of grant funding, there is a risk that the amount of funding available and the terms of grants will vary. Following approval of a grant there is a risk that Homes England, the GLA, the Scottish Government or Scottish Councils, as applicable, may revise the terms of a grant and reduce entitlement, suspend or cancel any instalment of a grant, if the Sanctuary Group does not comply with the terms of the relevant funding agreements. Failure to comply with conditions associated with the grant or a disposal of the property funded by a grant may result in the requirement to repay or reuse the grant. Any such reduction in, withdrawal of, or requirement to repay or re-use grant funding could adversely impact the future development of the Borrowers. Grant funding has historically been made available as part of wider Affordable Homes Programmes set out by both the UK and the Scottish Governments. The availability of future grant funding is subject to policy change. Any change in policy, delivery obligations and/or terms attached to any future grant funding may influence the Borrowers' ability and appetite to access such funding and thereby impact future development of the Borrowers.

R. Risks related to Legal and Compliance Obligations

The Original Borrowers know (and any Additional Borrower is expected to know) the significance to their operations of, and are focused on, adhering to all legal and compliance requirements. The Original Borrowers are not currently aware of any material failure to adhere to applicable health and safety or environmental laws, or breach of other regulations, or failure to comply with corporate, employee or taxation laws. If any of this were to occur in the future, this could have an adverse impact on a Borrower's results of operations and, in turn, its ability to meet its payment obligations on a timely basis under its Intra-group Facility Agreement.

As at the date of these Programme Admission Particulars, the Original Borrowers are complying with statutory obligations for health, safety and fire legislation to ensure the safety of all occupying tenants. The Original Borrowers are (and each Additional Borrower is expected to be) continually reviewing and updating their policies and procedures to ensure that they continue to comply with legislative changes and that the condition and safety of each unit is compliant with prevailing legal and regulatory requirements (also see "*Fire Safety Cost Risk*" below). The Original Borrowers also carry out health and safety checks of their properties on an on-going basis, including, but not limited to gas safety checks and fire risk assessments.

Litigation claims made against the Original Borrowers have not had a material impact on the revenue or business of the Original Borrowers, although there can be no assurance that the Borrowers will not, in the future, be subject to a claim which may have a material impact upon its revenue or business. Each Original Borrower has (and each Additional Borrower is expected to have) the benefit of insurance for, among others, employer's liability, public liability and directors' and officers' liability at levels which the management of a Borrower considers to be prudent for the type of business in which the Borrowers are engaged and commensurate with Registered Providers of Social Housing of a similar size.

S. IT Security and Data Quality and Data Governance Risks

The Sanctuary Group is heavily dependent on maintaining electronic data in a secure and accessible way. Loss of key data, for example on rent collection or contracts in place, could lead to significant operational challenges and costs. Poor quality data could lead to operational failings, impaired decision making and could put residents at risk.

The Sanctuary Group collects and processes large amounts of personal data from customers, employees, and business partners. Large organisations, such as the Sanctuary Group are becoming targets for cyber-crime. There is a risk that this data could be stolen, corrupted and/or misused because of internal or external activities, such as hacking. Data security and risk of attack could also potentially hinder the Borrowers' ability to collect rent if a malicious attack led to a loss of access to systems. This

could put pressure on the Borrowers' resources, both physical and financial, to combat or react to such activities.

The Sanctuary Group is required to comply with data protection and privacy laws in the UK. This includes compliance with the General Data Protection Regulation (EU) 2016/679 (as amended or superseded) (the **GDPR**). GDPR introduced changes to the EU and UK data protection regime. It imposes a high burden on the industry and restricts the Sanctuary Group's ability to use data, including through granting customers a "right to be forgotten" and a requirement for informed opt-in consent by customers to the processing of their data. Failure to comply with these requirements can result in significant fines equal to 4 per cent. of the Sanctuary Group's annual turnover. Therefore, there is a risk that, if the Sanctuary Group does not process the data it collects correctly and in accordance with GDPR, the Sanctuary Group's financial condition which could, in turn, affect the Borrowers' ability to meet their payment obligations under their respective Intra-group Facility Agreements and, in turn, the Group Borrower's ability to meet its payment obligations under the Notes.

T. Risks related to Key Personnel

The Sanctuary Group's success depends upon continuing services, and where necessary recruitment of the members of its senior management team and other key personnel. If one or more senior executives or other key personnel are unable or unwilling to continue in their present positions, the Sanctuary Group may not be able to replace them easily or at all. As a result, the Sanctuary Group's business may be disrupted, and its financial condition and results of operations may be materially affected. Competition for senior management and key personnel is high, the pool of qualified candidates is limited, and the Sanctuary Group may not be able to retain the services of its senior executives or key personnel or attract and retain high-quality new senior executives or key personnel. If any key personnel leave and carry on any activities in competition with the Sanctuary Group, it may lose other staff members, and legal remedies against such individuals may be limited. In addition, a lack of succession planning, the loss of suitably qualified employees, a reduction in the labour force or the inability to hire and retain suitably qualified replacements (see "*Risks relating to withdrawal of the UK from the European Union*" below), could impair the Sanctuary Group's ability to execute its business plan and achieve its objectives, leading to problems with employee morale.

U. Risks related to Business Operations

Operational risks may also result from major systems' failure or breaches in systems security (although the Sanctuary Group has prepared business continuity plans in order to mitigate against this, it is dependent upon its technology in order to deliver business processes) and the consequences of theft, fraud, health and safety and environmental issues, natural disaster, acts of terrorism and pandemic. These events could result in financial loss to the Sanctuary Group and hence the Group Borrower and the Issuer. To mitigate this risk, the Sanctuary Group has the benefit of insurance for, but not limited to, employer's liability and public liability at levels which the management of the Sanctuary Group considers to be prudent for the type of business in which the Sanctuary Group is engaged and commensurate with entities of a similar size and operating in similar industries.

V. Risks relating to withdrawal of the UK from the European Union

On 31 December 2020, the UK withdrew from the European Union (the **EU**). The UK's current relationship with the EU, as regards trade, nuclear operations, and security cooperation, is governed by

the European Union (Future Relationship) Act 2020 (the **EUFRA 2020**), which received its Royal Assent on 30 December 2020. As the business of the Borrowers is focused on providing social housing, care homes and student accommodation in England and Scotland, the direct impact of the UK's withdrawal from the EU on the Borrowers is expected to be relatively limited. However, the overall impact on the Borrowers of the continuing effects of the UK's departure from the EU are difficult to predict and there remains short-term and long-term political and economic uncertainty around the departure. As such, no assurance can be given that such matters would not adversely affect the ability of the Borrowers to meet their respective payment obligations under the Intra-group Facility Agreements, and therefore adversely affect the ability of the Group Borrower to meet its obligations under the Loan Agreement and the ability of the Issuer to meet its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market.

W. Building and Fire Safety

Please refer to "Description of the Social Housing Sector in England" and "Description of the Social Housing Sector in Scotland" below.

Risks Associated with Reinforced Autoclaved Aerated Concrete (RAAC)

RAAC is a lightweight structural construction material that was used between the1950's and 1990's in floors, walls and roofs across various commercial and residential properties. The product was factory formed in moulds, with mild steel reinforcement. The panels are a form of calcium silicate hydrate, formed from a chemical induced gas reaction between cement, lime, and sand slurry, and aluminium powder. It has no coarse aggregate, and it is manufactured using fine aggregates in producing a lightweight concrete panel. It was primarily used in two main forms of structural elements: lightweight masonry blocks and structural units (such as roof planks, walls and floor units). It is a relatively weak construction material and is no longer used in buildings.

In assessing the risks associated with RAAC, the Sanctuary Group followed the Institute of Structural Engineers, Reinforced Autoclaved Aerated Concrete Panels, Investigation and Assessment guidance.

As a result of the intrusive inspections required under the guidance, 102 properties in Scotland were identified as having RAAC roof panels.

The intrusive surveys included checking and recording the condition of the RAAC panel for any deflection, water ingress or damage. On completion of the surveys, temporary remedial works to each property was identified and carried out by the internal Construction team. These extensive works consisted of propping the underside of the RAAC panelling with additional supports, replacement ceilings and internal decorating works. Where water ingress was identified, due to failure of the roof coverings, the works were passed to Property Services to carry out essential repairs. Sanctuary Group's internal construction team completed the repairs to all properties in July 2024. The properties remain subject to an annual monitoring and assessment programme to ascertain the condition of the RAAC panels.

If Sanctuary Scotland is faced with material unforeseen remediation costs, this might mean that it could not effectively fund, and consequently may adversely affect the ability of Sanctuary Scotland to meet, its payment obligations in respect of its Intra-group Facility Agreement. As a result, this may adversely affect the ability of the Group Borrower to make payments under the Loan Agreement and, in turn, the ability of the Issuer to meet its payment obligations under the Notes.

Fire Safety Cost Risk

Following the tragic events at Grenfell Tower in the Royal Borough of Kensington and Chelsea, the Sanctuary Group completed fire risk assessments on all of the blocks it owned with six storeys or more including in relation to Aluminium Composite Material cladding, the internal safety of such buildings and housekeeping arrangements. The programme was wider in scope than the assessment of cladding and consequently remedial works were identified. Sanctuary continues to assess the fire safety risk in its buildings.

The Sanctuary Group has noted the recommendations of the Independent Review of Building Regulations and Fire Safety conducted by Dame Judith Hackitt published in May 2018 and the recommendations of the public inquiry chaired by Sir Martin Moore-Brick as set out in the Phase 1 report published in 2019 and put in place measures to address the changes in regulation.

The Sanctuary Group has reviewed fire safety measures in all buildings over 11 metres and has undertaken Fire Risk Appraisal of External Walls on all high-risk buildings, as defined by section 65 Building Safety Act 2022. All existing fire risk assessments and evacuation plans were reviewed and updated as necessary. In addition, the Sanctuary Group completed a programme to retrofit sprinkler systems in 13 high-rise buildings between 2018-2022.

While the Sanctuary Group has a relatively small number of high-rise buildings compared to its size, this is a key area of focus. As at the date of these Programme Admission Particulars, the Sanctuary Group has a total of 107 buildings over 18 metres tall across England and Scotland; of these 94 are in England and will be subject to the requirements of the Building Safety Act 2022 (the **BSA 2022**) of which 46 were inherited through the acquisition of Swan in 2023; the remediation of these buildings is ongoing.

As at 31 March 2024, the Sanctuary Group financial statements included a provision of £42.1 million in relation to cladding and fire safety works where Swan has contractual obligations to external parties to rectify the issues.

On 1 October 2022 the Smoke and Carbon Monoxide Alarm (Amendment) Regulations 2022 came into force (amending the Smoke and Carbon Monoxide Alarm (England) Regulations 2015). The regulations widen a landlord's obligation in respect of smoke and carbon monoxide alarms within private rented properties.

If the English Borrowers are faced with material increased costs of undertaking checks and remediation costs, this may adversely affect the ability of the English Borrowers to meet their payment obligations in respect of their respective Intra-group Facility Agreements which may adversely affect the ability of the Group Borrower to make payments under the Loan Agreement and, in turn, the ability of the Issuer to meet its payment obligations under the Notes.

Building Safety in Scotland

Whilst the BSA is a UK Act, the majority of its provisions do not apply in Scotland. The points highlighted above do not apply to Scotland. Scotland has a different planning and building control system. This is due to these areas along with housing being devolved to the Scotlish Government.

From 1 February 2022, in accordance with the provisions of (Housing (Scotland) Act 1987 (Tolerable Standard) (Extension of Criteria) Order 2019, it is mandatory for all homes in Scotland to be equipped with interlinked fire alarms. The requirements include having one smoke alarm in the room most frequently used during the day, one smoke alarm in every circulation area on each floor, such as hallways and landings, and one heat alarm in the kitchen. In addition, if there is a carbon-fuelled appliance like a boiler, fire, non-electric heater or flue, there must also be a carbon monoxide detector,

although this does not need to be linked to the fire alarms. The Building (Scotland) Amendment regulations, which came into force on 1 June 2022, ban the highest risk cladding products.

If Sanctuary Scotland is faced with material unforeseen renovation, maintenance and modernisation costs which it could not effectively fund, this may adversely affect the ability of Sanctuary Scotland to meet its payment obligations under its Intra-group Facility Agreement which may adversely affect Group Borrower's ability to make payments under the Loan Agreement and, which in turn, may affect Issuer's ability to meet its payment obligations under the Notes.

Sanctuary's Fire Safety Programme

An operational team has been put in place to progress with the fire safety remediation programme, and which is overseen by a Fire Remediation Steering Group.

At the date of these Programme Admission Particulars, as part of the Sanctuary Group's fire safety programme, the Sanctuary Group:

- has undertaken remediation works to four buildings (five blocks);
- is on site remediating three buildings (three blocks);
- is in negotiations with developers for remediation of nine buildings (ten blocks); and
- has received confirmation of eligibility for government funding to assist with remediation of eight buildings (twelve blocks).

This includes the higher risk buildings associated with Swan.

If the English Borrowers are faced with material increased costs of undertaking checks and remediation costs, this may adversely affect the ability of the English Borrowers to meet their payment obligations in respect of their respective Intra-group Facility Agreements which may adversely affect the ability of the Group Borrower to make payments under the Loan Agreement and, in turn, the ability of the Issuer to meet its payment obligations under the Notes.

Fire Safety in Scotland

Fire safety is a devolved matter and the Fire Safety Act 2021 (the **FSA 2021**) does not apply in Scotland. In response to the Grenfell Tower fire, the Scottish Government set up a Ministerial Working Group on Building and Fire Safety and it published its "*Review of the Fire Safety Regime for Domestic High Rise Property*" in 2018. Although the review did not recommend introducing new fire safety legislation at that time, it is something which remains under active consideration by the Scottish Government.

The review made various recommendations (particularly in relation to the "common parts" of nondomestic premises which are not currently subject to the statutory regime as set out below) and the Scottish Government is considering this further in its review of the law of the tenement, which is ongoing. It is therefore possible that new primary legislation will be introduced in that area in due course. In addition, as of February 2022, every home in Scotland requires to be fitted with an interlinked fire and smoke alarm system (although in shared ownership properties, it is generally the proportion owner, rather than the Registered Social Landlord, that has to ensure the relevant system is installed).

As at the date of these Programme Admission Particulars, fire safety in Scotland is still regulated by Part 3 of the Fire Safety (Scotland) Act 2005 (the **FSSA 2005**) and the Fire Safety (Scotland) Regulations

2006 (the **2006 Regulations**). The legislation applies to non-domestic premises which includes all workplaces, commercial premises, any premises to which the public have access and any housing which is in multiple occupation, including social housing. The FSSA 2005 places duties on employers in respect of its employees, and on anyone that is deemed to be "in control" of relevant premises. Specifically, anyone in control must carry out a risk assessment to identify fire safety risks and put in place reasonable mitigation measures to ensure fire safety. Where the person in control is not the owner, the owner must also carry out the required risk assessment and put in place mitigation measures. The duties are very general, and there are no specific requirements to consider particular parts of a building or its structure when carrying out the risk assessment, as there is under the FSA 2021.

The Scottish Fire and Rescue Service (SFRS) is the body responsible for the enforcement of fire safety in Scotland. SFRS has the power to inspect relevant premises to ensure compliance with the FSSA 2005 and the 2006 Regulations. In carrying out any an inspection, SFRS will look for evidence that a suitable and sufficient risk assessment has been carried out and that any significant findings have been appropriately acted upon. The FSSA 2005 imposes criminal liability on duty holders where there has been non-compliance and this has resulted in the risk of death or serious injury to relevant persons in the event of fire. Penalties can include unlimited fines and, in serious cases, imprisonment not exceeding two years.

If Sanctuary Scotland is faced with any significant remediation works that are identified as part of the risk assessment, which could not be effectively funded, this may adversely affect Sanctuary Scotland's ability to meet its payment obligations in respect of its Intra-group Facility Agreement which may adversely affect Group Borrower's ability to make payments under the Loan Agreement and, in turn, the Issuer's ability to meet its payment obligations under the Notes.

X. Capital, Treasury and Interest Rate Risks

Capital Resources and Treasury Risk

The ability of the Borrowers to operate their businesses depends in part on them being able to raise funds. An increase in the cost, or lack of availability, of finance (whether for macroeconomic reasons, such as a lack of liquidity in the debt markets or the inability of a financing counterparty to honour preexisting lending arrangements, or reasons specific to a Borrower) could impact the Borrowers' ability to progress their business objects, deliver the expected rates of return on investments and the day-to-day financing (or refinancing) requirements of the Borrowers' businesses over the longer term. Any material increase in the cost of financing or any decrease in the availability of financing on reasonable terms could have a material adverse effect on a Borrower's business, operations, financial condition and/or prospects and, in turn, its ability to meet its payment obligations on a timely basis under its Intra-group Facility Agreement.

In addition, the Borrowers are subject to the risk that they will be unable to generate sufficient cash flows, or be unable to obtain sufficient funding, to satisfy their obligations to service and/or refinance their indebtedness. Further, any covenants contained in the Borrowers' borrowing arrangements, including the relevant Intra-group Facility Agreement, may limit or prohibit the Borrowers' operational and financial flexibility. Any event of default, cross default, breach of a covenant or the inability to vary or waive any covenants could generally have a material adverse effect on a Borrower's business, results of operations, financial condition and/or prospects and, in turn, its ability to meet its payment obligations on a timely basis under its Intra-group Facility Agreement.

To manage liquidity risk and augment their capital reserves, the Borrowers' treasury strategies ensure that a significant liquidity buffer in the form of cash and undrawn but committed revolving credit facilities

is available, funding is procured in advance of need and sufficient headroom against covenants is maintained.

Interest Rate Risk

The Borrowers are subject to adverse interest rate movements that could lead to an increase in the cost of borrowing. Each Borrower's interest rate risk arises from the risk of fluctuations in interest charges on floating rate borrowings.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

A. Redemption prior to maturity

In the event that the Notes become repayable prior to maturity either following an Event of Default (as defined in Condition 12.1 (*Events of Default*)), due to taxation reasons (pursuant to Condition 9.2 (*Redemption for tax reasons*)), upon a Group Borrower Default or one or more of the Borrowers ceasing to be a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, (pursuant to Condition 9.6 (*Mandatory Early Redemption*)) or at the option of the Issuer (pursuant to Condition 9.3 (*Redemption at the option of the Group Borrower (Group Borrower Call*)), Condition 9.4 (*Maturity Call Par Option*) or Condition 9.5 (*Residual Call Option*)), the Notes will be redeemed in full in an amount equal to that specified in the applicable Pricing Supplement, plus accrued interest. In such circumstances it may not be possible for an investor to reinvest the redemption proceeds at an effective rate of interest as high as the interest rate on the Notes. Furthermore, the optional redemption feature of the Notes is likely to limit their market value as the market value generally will not rise substantially above the price at which they can be redeemed.

B. The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks" are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a benchmark.

Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the **UK Benchmarks Regulation**) applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the UK. Among other things, it:

- (a) requires benchmark administrators to be authorised or registered (or, if non-UK-based, to be subject to an equivalent regime or otherwise recognised or endorsed); and
- (b) prevents certain uses by UK supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The UK Benchmarks Regulation could have a material impact on any Notes linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the UK Benchmarks Regulation. Such changes could, among other

things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the benchmark.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

The Bank of England (or a successor), as administrator of SONIA, may make methodological or other changes that could change the value of SONIA, including changes related to the method by which SONIA is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, or timing related to the publication of SONIA. If the manner in which SONIA is calculated is changed, that change may result in a reduction of the amount of interest payable on the relevant Notes, which may adversely affect the trading prices of Floating Rate Notes referencing a SONIA rate. The administrator of SONIA may withdraw, modify, amend, suspend or discontinue the calculation or dissemination of SONIA, respectively, in its sole discretion and without notice and has no obligation to consider the interests of holders of the Floating Rate Notes in calculating, withdrawing, modifying, amending, suspending or discontinuing SONIA.

In its "Summary and response to market feedback - Supporting Risk-Free Rate transition through the provision of compounded SONIA" as updated in July 2020, the Bank of England confirmed that it would produce and, from August 2020, publish, its SONIA Compounded Index using the methodology described in that paper (and that it would not publish a set of period averages). The provisions of the Conditions of the Notes for determining the Rate of Interest by reference to the SONIA Compounded Index are based upon the guidance given by the Bank of England in its July 2020 paper for calculating compounded SONIA rates by reference to the SONIA Compounded Index. There can be no assurance that the Bank of England's methodology for determining the SONIA Compounded Index, or its guidance for calculating compounded SONIA rates by reference to such index, will not change over time.

Any of the above changes, or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The Conditions of the Notes provide for certain fallback arrangements in the event that an Original Reference Rate and/or any page on which an Original Reference Rate may be published (or any other successor service) becomes unavailable or a Benchmark Event (as defined in the Conditions) otherwise occurs. Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate (both as defined in the Conditions), with or without the application of an adjustment spread and may include amendments to the Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Issuer (acting in good faith and in consultation with an Independent Adviser). An adjustment spread, if applied, could be positive or negative and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of an Original Reference Rate. However, it may not be possible to determine or apply an adjustment spread and, even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a Successor Rate or Alternative Rate may nevertheless be used to determine the Rate of Interest. The use of a Successor Rate or Alternative Rate (including with the application of an adjustment spread) may still result in any Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate is determined, the ultimate fallback for the purposes of calculating the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and the potential for further regulatory developments, there is a risk that the relevant fallback provisions may not operate as intended at the relevant time. It should also be noted that fallbacks for benchmarks in hedges may operate differently than under Notes. Investors are recommended to consult their own independent advisers.

C. The market continues to develop in relation to risk-free rates (including overnight rates) as reference rates

Interest on the Notes may be determined by reference to a risk-free rate such as SONIA. SONIA, whether determined on a compounded daily basis or as a weighted average rate for a specified period, are backwards-looking, risk-free overnight rates. As such, investors should be aware that SONIA may behave materially differently from other forward-looking term rates. The use of SONIA, whether on a compounded daily or a weighted average basis, as a reference rate for bonds is nascent, and is subject to change and development, both in terms of the substance of the calculation and in the development and adoption of market infrastructure for the issuance and trading of debt securities referencing SONIA.

The market or a significant part thereof may adopt an application of SONIA that differs significantly from that set out in the Conditions as applicable to Notes referencing SONIA that are issued under this Programme. Furthermore, the Issuer may in future issue Notes referencing SONIA that differ materially in terms of interest determination when compared with any previous SONIA-referenced Notes issued by it under the Programme. The nascent development of SONIA as interest reference rates for the bond markets, as well as continued development of SONIA-based rates for such market and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SONIA-referenced Notes issued under the Programme from time to time.

The manner of adoption or application of SONIA-based rates in one market may differ materially compared with the application and adoption of SONIA-based rates in other markets, such as the derivatives and loan markets, including the manner of adoption or application by the Issuer. Investors should carefully consider how any mismatch between the adoption of SONIA reference rates across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing SONIA. If the market adopts a different calculation method, that would likely adversely affect the market value of such SONIA-referenced Notes.

Investors should carefully consider these matters when making their investment decision with respect to any such Notes.

D. Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

E. Modification, waivers and substitution

The Conditions of the Notes and the Note Trust Deed contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Conditions of the Notes and the Note Trust Deed also provide that the Note Trustee may, without the consent of the Noteholders:

- (a) agree to any modification (except as stated in the Note Trust Deed) of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or any Programme Document (to which it is a party);
- (b) determine without the consent of the Noteholders that any Potential Event of Default or Event of Default shall not be treated as such; or
- (c) agree to the substitution of another company, registered society or other entity as principal debtor under the Notes in place of the Issuer, in the circumstances described in the Conditions,

provided, in each case, that the Note Trustee is of the opinion that to do so would not be materially prejudicial to the interests of Noteholders.

F. Denominations involve integral multiples: definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of that its holding amounts to a Specified Denomination such that its holding amounts which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination such that its holding amounts to a Specified Denomination such that its holding amounts to a specified Denomination such that its holding amounts to a specified Denomination such that its holding amounts in excess of the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

G. Change in Law

Changes in law may affect the rights of Noteholders as well as the market value of the Notes. The Conditions of the Notes are based on English law and regulatory and administrative practice in effect as at the date of these Programme Admission Particulars. No assurance can be given as to the impact of any possible judicial decision or change to English law or regulatory or administrative practice in the United Kingdom after the date of these Programme Admission Particulars. Such changes in law may include changes in statutory, tax and regulatory regimes during the life of the Notes, which may have an adverse effect on an investment in the Notes.

H. Taxation

Under the Conditions of the Notes (see Condition 10 (*Taxation*) below), the Issuer may, but will not be obliged to, gross up payments in respect of the Notes if any deduction or withholding on account of tax is imposed. In the event that any deduction or withholding on account of tax is imposed and the Issuer does not opt to gross up payments in respect of the Notes or any Series (or, if having previously opted to gross up, the Issuer notifies the Note Trustee and the Noteholders of such Series of its intention to cease grossing up payments in respect of such Notes), the Notes of such Series will be redeemed in accordance with Condition 9.2 (*Redemption for tax reasons*). In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes of such Series. In addition, any amounts in respect of accrued interest which fall due on any such redemption of the Notes (and, where the redemption follows the next following Interest Payment Date, such Interest Payment Date) shall be paid subject to the required withholding or deduction and the Issuer shall not be obliged to pay any additional amounts in respect of the period from the previous Interest Payment Date to the date of redemption.

Each Loan Agreement and each Intra-Group Facility Agreement will require that if any withholding or deduction is required by law to be made by the Group Borrower or any Borrower thereunder, the amount of the payment due from the Group Borrower or such Borrower, as the case may be, shall be increased to an amount which (after making the tax deduction) leaves an amount equal to the payment which would have been due if no tax deduction had been required.

For a description of the current United Kingdom law and practice relating to withholding tax treatment of the Notes, see below in "*Taxation*".

I. Use of Proceeds / Social Bonds, Green Bonds and Sustainability Bonds

To the extent specified in the applicable Pricing Supplement, Notes issued under the Programme are intended to be Social Bonds, Green Bonds or Sustainability Bonds (as defined in ICMA's Social Bond Principles, Green Bond Principles or Sustainability Bond Guidelines) and the net proceeds from the issue of Notes of each Series will be used by the Borrowers for social, green or sustainable purposes, respectively, as set out in the section headed "*Use of Proceeds and Sustainable Finance Framework*" and the applicable Pricing Supplement.

Notes issued as Social Bonds, Green Bonds or Sustainability Bonds may not be a suitable investment for an investor's investment criteria. Prospective investors should have regard to the information set out in the relevant Pricing Supplement and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary.

No assurance is given by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person that the use of the proceeds of issue of any Notes will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates. Neither the Arranger nor the Dealers or any of their respective affiliates shall be responsible for the ongoing monitoring or verification of the use of proceeds in respect of any such Notes or any of the other commitments set out in the Sustainable Finance Framework relating to any such Notes. If the use of proceeds of any issue of Notes is a factor in a prospective investor's decision to invest in such Notes, they should consider the disclosure in the section headed "*Use of Proceeds and Sustainable Finance Framework*" (and the supplement to these Programme Admission Particulars as referred to therein) and in the applicable Pricing Supplement and consult with their legal or other advisers before making an investment in the Notes and must determine for themselves the relevance of such information for the purpose of any investment, together with any other investigation such investor deems necessary. The Sanctuary Group may, however, amend or update its Sustainable Finance Framework in the future.

It should be noted that there is currently no clearly agreed definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "social", "green" or "sustainable" or an equivalentlylabelled project or as to what precise attributes are required for a particular project to be defined as "social", "green" or "sustainable" or such other equivalent label nor can any such assurance be given that such a clear definition or consensus will develop over time. On 18 June 2020, Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment was adopted by the Council and the European Parliament (the Taxonomy Regulation). The Taxonomy Regulation establishes a single EU-wide classification system, or "taxonomy", which provides companies and investors with a common language for determining which economic activities can be considered environmentally sustainable. In addition, the UK Financial Conduct Authority has, on 31 May 2024, introduced its Anti-Greenwashing Rule which requires that references to the sustainability characteristics of products or services are (a) consistent with the sustainability characteristics of the product or service and (b) fair, clear and not misleading. The "Finalised non-handbook guidance on the Anti-Greenwashing Rule" further clarifies that sustainability references should be correct and capable of being substantiated, clear and presented in a way that can be understood and complete (they should not omit or hide important information and should consider the full life cycle of the product or service), and comparisons to other products or services should be fair and meaningful. The guidance recognises that the terms "environmental", "social" and "governance" are used to refer to sustainability matters, but also notes that there is no single definition of sustainability. Accordingly, no assurance is or can be given by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person to investors that any projects or uses of the proceeds will meet any or all investor expectations regarding such "social", "green", "sustainable" or other equivalently-labelled performance objectives or that any adverse sustainable and/or other impacts will not occur during the implementation of any projects or uses of the proceeds. In addition, no assurance can be given by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person to investors that any Notes will comply with any future standards or requirements for being Social Bonds, Green Bonds or Sustainability Bonds and, accordingly, the Social Bond, Green Bond or Sustainability Bond status of the Notes could be withdrawn at any time.

Furthermore, there is no contractual obligation to allocate the proceeds of any Notes to finance eligible businesses and projects or to provide annual progress reports as described in the applicable Pricing Supplement. A Borrower's failure to allocate the proceeds of any particular Social Bond, Green Bond or Sustainability Bond to finance an eligible project or to provide annual progress reports, the failure of any of the eligible projects to meet any or all investor expectations regarding such performance objectives, or the failure of an independent external review provider to issue a second party opinion on the allocation of the Note proceeds, will not constitute an Event of Default or breach of contract with respect to any particular Social Bond, Green Bond or Sustainability Bond and none of the Note Trustee, the Arranger, the Dealers or any of their respective affiliates will have any responsibility for the ongoing monitoring or verification of any such proceeds.

No assurance or representation is given by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made

available in connection with the issue of any Notes (including, without limitation, the Second Party Opinion (as defined below)). For the avoidance of doubt, any such opinion or certification is not, nor shall it be deemed to be, incorporated in and/or form part of these Programme Admission Particulars. Any such opinion or certification is not, nor should it be deemed to be, a recommendation by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person to buy, sell or hold any such Notes. No such opinion or certification is intended to address any credit, market or other aspects of any investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the Notes. The Noteholders have no recourse against the Obligors, the Arranger, any Dealer or any of their respective affiliates or the provider of any such opinion or certification for the contents of any such opinion or certification. Any such opinion or certification is only current as at the date that opinion was initially issued and the providers of such opinions and certifications are under no obligation to update them following their issue. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in any Notes. Currently, the providers of such opinions and certifications are not subject to any specific or regulatory or other regime or oversight. The criteria and/or considerations that form the basis of any such opinion or certification (including, when issued. the Second Party Opinion) may change at any time and any such opinion or certification (including the Second Party Opinion) may be amended, updated, supplemented, replaced and/or withdrawn at any time. Any withdrawal of any opinion or certification may have a material adverse effect on the value of any Social Bonds, Green Bonds or Sustainability Bonds in respect of which such opinion or certification is given and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As at the date of these Programme Admission Particulars, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein.

In the event that any such Notes are listed or admitted to trading on any dedicated "social", "green" or "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), including the SBM of the London Stock Exchange, no representation or assurance is given by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect sustainable impact of any projects or uses, the subject of or related to, any sustainability reports. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Obligors, the Arranger, the Dealers or any of their respective affiliates or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

Any such event or failure to apply an amount equivalent to the net proceeds of any Notes issued as Sustainability Bonds for any eligible sustainable project and/or any withdrawal of any such opinion or certification or any such opinion or certification attesting that a Borrower is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

J. The impact on investor demand for Green Bonds or Sustainability Bonds of the European Green Bond Standard is unclear

Regulation (EU) 2023/2631 introduced the European Green Bond Standard, which is a voluntary label for issuers of green use of proceeds bonds (such as any Green Bonds or Sustainability Bonds which may be issued under the Programme) where the proceeds will be invested in economic activities aligned with the Taxonomy Regulation. The Green Bonds or Sustainability Bonds issued under the Programme are intended to comply with the criteria and processes set out in the Sustainable Finance Framework and are not specifically aligned with the European Green Bond Standard. As the European Green Bond Standard is a voluntary label, it is not clear, at this stage, whether the European Green Bond Standard may impact investor demand for, and pricing of, green use of proceeds bonds (such as any Green Bonds or Sustainability Bonds which may be issued under the Programme) that do not meet such standard. It could reduce demand and liquidity for Green Bonds or Sustainability Bonds and their price.

Risks Relating to the Security for the Notes

A. Considerations relating to the Series Security and the Series Underlying Security

The validity of any security given by the Borrowers in connection with additions of Apportioned Properties in respect of Secured Loan Agreements may depend on the solvency of the relevant Borrower at the time of the grant. If any Series Underlying Security is found to be invalid as a result, this will affect the amounts available to Noteholders on an enforcement of such security in connection with the Fully Secured Notes.

B. Environmental Considerations

Under relevant UK environmental legislation, liability for environmental matters can be imposed on the "owner" or any "person in control" of land. The term "owner" is not specifically defined and could include anyone with a proprietary interest in a property, which could include a representative of a trustee as a mortgagee in possession (in respect of which see the risk factor entitled "*Mortgagee in Possession Liability*" below). Environmental laws may impose liability on the owner for clean-up costs if a property is or becomes contaminated. The Borrowers may therefore be liable for the entire amount of the clean-up and redemption costs for a contaminated site regardless of whether the contamination was caused by it or not. These costs may be significant and may affect the ability of the Borrowers to meet their payment obligations under their respective Intra-group Facility Agreements and the Deed of Guarantee and, in turn, the ability of the Group Borrower to meet its obligations under the Loan Agreements and the ability of the Issuer to meet its payment obligations under the Issuer Issuer

In addition, the presence of hazardous or toxic substances, or the failure to adequately remedy adverse environmental conditions at an Apportioned Property, may adversely affect the market value of the Apportioned Property, as well as the Borrowers' ability to sell, lease or refinance the Apportioned Property. Any environmental liability imposed on a Borrower could also affect the ability of such Borrower to meet its payment obligations under its respective Intra-group Facility Agreements and the Deed of Guarantee and, in turn, the ability of the Group Borrower to meet its obligations under the Loan Agreements and the ability of the Issuer to meet its payment obligations under the Notes.

C. Sufficiency of Insurance

Although each Apportioned Property is required to be insured at appropriate levels and against customary risks, there can be no assurance that any loss incurred will be of a type covered by such insurance, nor can there be any assurance that the loss will not exceed the limits of such insurance. Any reduction in income or any loss or damage caused to an Apportioned Property not adequately

covered by insurance could result in a shortfall in funds available to meet the Borrowers' payment obligations under the Intra-group Facility Agreements and the Deed of Guarantee and, in turn, a shortfall in funds available to meet the Group Borrower's payment obligations under the Secured Loan Agreements and the Issuer's payment obligations under the Fully Secured Notes.

D. Investment of Retained Proceeds and Charged Cash in Permitted Investments

For so long as any part of the net proceeds of the issue of any Series of Fully Secured Notes remains undrawn pursuant to the related Secured Loan Agreement, the Issuer may invest such amounts in Permitted Investments in accordance with the Custody Agreement. The Issuer may also invest the Charged Cash in Permitted Investments.

Although Permitted Investments are limited to highly rated securities which satisfy certain specified criteria (which, other than with respect to any investment in the Benchmark Gilt, includes a requirement that the investments have a maturity date which is no later than the Maturity Date), the Issuer may be required to liquidate such Permitted Investments (a) prior to the enforcement of the relevant Series Security, (in the case of the Permitted Investments purchased with Retained Proceeds) to fund advances to the Group Borrower pursuant to a Secured Loan Agreement or to fund redemptions of the Fully Secured Notes in accordance with the Conditions or (b) following the enforcement of the relevant Series Security, to make payments in accordance with the Post-enforcement Priority of Payment, in either case at a time when the disposal proceeds of such Permitted Investments is less than the price paid by the Issuer upon the acquisition thereof.

Prior to the enforcement of any Series Security, any losses realised by the Issuer in respect of a sale of Permitted Investments purchased with Retained Proceeds are passed on to the Group Borrower and the Borrowers pursuant to the terms of the Secured Loan Agreements and the Intra-group Facility Agreements as a result of (i) the Issuer's obligation to fund a principal amount of an advance being such that it may be satisfied by funding such advance at a discount in proportion to any such losses and (ii) the Group Borrower's obligation to make further payments to the Issuer (and the Borrowers' obligations to make further payments to the Issuer (and the Borrowers' obligations to make further payments to the Group Borrower) in respect of any prepayment of the loan in full to enable the Issuer to fund any shortfall on a redemption of the Fully Secured Notes. However, following the enforcement of the Series Security, any losses in respect of the Permitted Investments will reduce the amounts available to the Issuer to satisfy its payment obligations in respect of the Notes. For the purpose of calculating the Group Borrower's compliance with the Asset Cover Test, the value of such Permitted Investments will be the purchase price thereof and the Group Borrower shall not be required to monitor the market value of such Permitted Investments. Consequently, the value attributed to the Permitted Investments for this purpose may be more than the realisable value from time to time.

In the event that the enforcement of the Series Security in respect of a Series of Fully Secured Notes takes place prior to the Apportioned Properties in respect of such Series being charged with an aggregate Minimum Value equal (when multiplied by the Issuer's Security Percentage) to the principal amount of such Fully Secured Notes, and/or at a time when the Permitted Investments have been acquired with the Charged Cash or otherwise charged by the Group Borrower or the Borrowers as security for the obligations of the Secured Loan Agreement entered into in connection with such Series, the value of the proceeds of enforcement of the Series Underlying Security, together with such amounts, may be insufficient to enable the Issuer to pay its obligations under the relevant Series of Fully Secured Notes in full.

There is no limit as to the proportion of the Asset Cover Test which may be satisfied by Permitted Investments in the form of Retained Proceeds and/or Charged Cash (although in respect of Retained Proceeds, these will be deemed to be zero after the Final Charging Date).

E. Merger of Borrowers

A Borrower may merge, amalgamate or enter into a transfer of engagements with another entity at any time without the consent of the Issuer. In such circumstances, if following any such merger, amalgamation or transfer, the credit risk of the Borrower or any successor entity created thereby were weaker than that of the Borrower prior to such merger, amalgamation or transfer, the Issuer would become subject to this increased credit risk.

Other members of the Sanctuary Group (including, for the avoidance of doubt, the Group Parent) may also merge, amalgamate or enter into a transfer of engagements pursuant to section 110 of the Cooperative and Community Benefit Societies Act 2014 with another entity or entities at any time without the consent of the Issuer (other than, in the case of the Group Borrower, the Issuer's consent to the transfer or novation of the Loan Agreement). In both cases, however, any such merger, amalgamation or transfer would only be entered into with the approval of the Group Parent. The Group Borrower and the Issuer are both subsidiaries of the Group Parent and, as such, the Issuer expects that their interests will be aligned in respect of any proposed amalgamation, merger, consolidation or transfer.

F. Additions of new Borrowers and resignation of Borrowers

The Group Borrower may at any time enter into an Intra-group Facility Agreement with a new Borrower, provided that such new borrower has charitable (or exempt charitable) status and is a Registered Provider of Social Housing or a Registered Social Landlord, the other Borrowers have agreed to the same and it has acceded to the Deed of Guarantee as a guarantor. In such circumstances, if the new Borrower's credit risk were weaker than that of the rest of the Borrowers, the Issuer would become subject to increased credit risk in respect of the Borrowers as a whole. A Borrower may, upon request, cease to be a Borrower at any time provided that the resignation of such Borrower will not result in a breach by the Group Borrower of the asset cover ratio or the unencumbered assets test, as applicable, set out in the Loan Agreement.

G. The Issuer's ability to meet its obligations under the Notes after enforcement under a Loan

Following default by the Group Borrower and the Borrowers' failing to satisfy the obligations of the Group Borrower pursuant to the Deed of Guarantee, the Security Trustee shall be entitled to call for payments of any unpaid sums by the Group Borrower under and in accordance with the Deed of Guarantee. If the Guarantors do not make payment of such amounts to the Issuer pursuant to the Deed of Guarantee, the Security Trustee may enforce the Security created under the Group Borrower Security Agreement and may, in respect of any Secured Loan Agreement, enforce the Series Underlying Security pursuant to its powers under the Security Trust Deed and the Security Agreements.

In respect of Fully Secured Notes, the Issuer's ability to continue to pay principal and interest on the Notes following default by the Group Borrower under the Loan is dependent upon the ability of the Issuer to receive from the Security Trustee pursuant to the collection of rental income or a disposal of the Series Underlying Security, sufficient funds to make such payment.

H. Fixed charges may take effect under English law as floating charges

Pursuant to the Note Trust Deed, the Issuer has purported to grant fixed charges over, amongst other things, all moneys from time to time standing to the credit of each Series Transaction Account and, in respect of the Fully Secured Notes, all moneys and/or securities from time to time standing to the credit of each Series Ongoing Cash Security Account and Series Initial Cash Security Account. English law relating to the characterisation of fixed charges is unsettled. The fixed charges purported to be granted

by the Issuer (other than assignment of security) may take effect under English law only as floating charges if, for example, it is determined that the Note Trustee does not exert sufficient control over the charged assets for the security to be said to "fix" over those assets. If the charges take effect as floating charges instead of fixed charges, then the claims of the Note Trustee will be subject to claims which are given priority over a floating charge by law, including, amongst other things, prior charges, certain subsequent charges, the expenses of any winding up or administration and the claims of preferential creditors. Consequently, there may be less moneys available to pay Noteholders what is owed to them under the Notes.

I. Mortgagee in Possession Liability

There is a risk that the Security Trustee may be deemed to be a mortgagee in possession if it physically enters into possession of an Apportioned Property or performs an act of control or influence which may amount to possession, such as submitting a demand direct to tenants requiring them to pay rents to the Security Trustee. In such circumstances the Security Trustee may incur further costs and expenses which will be recoverable by it from the enforcement proceeds prior to any payment being made to the Issuer, thereby reducing the amounts available to the Issuer to pay amounts owing under the Fully Secured Notes.

J. Scottish Assignations

Pursuant to the Series Underlying Security, it is intended that each Borrower assigns in security to the Security Trustee all of its rights, title and interest in and to certain agreements and contracts. Under Scots law, fixed security is only created over incorporeal moveable property if an intimation of such assignation in security has been properly delivered to the counterparty to the agreement or contract. In addition, such intimation must not permit any element of control of the assigned assets to remain with the assignor. Therefore, where the Security Trustee takes the benefit of an assignation in security of a contract or of rental income under a lease under Scots law but does not intimate the assignation immediately, the assignation is flawed and the Security Trustee will have no security over the underlying contract or the rental income until intimation in the correct form takes place. Until such intimation, the Security Trustee has nothing more than a contractual right to create security. The Security Agreements in respect of Scottish Borrowers will provide that the assignations given to the Security Trustee by way of security will not be intimated until the Security Trustee decides to take enforcement action. Whilst this is not an unusual process in Scottish transactions, it does create a risk that the underlying contract could be disposed of or terminated at any time prior to enforcement and the Security Trustee would have no asset to which it can take title. In addition, because fixed security under the assignations is only created when they are intimated in the correct form, it may be that such security is created at a time when it may be susceptible to challenge by another creditor or an insolvency practitioner of the chargor. This may be for example because the relevant chargor is insolvent at the time such intimation is made or shortly thereafter. However, it should be noted that in such circumstances the Security Trustee would have a contractual claim against the relevant Scottish Borrower that has taken such actions in relation to the contract provided that there is a relevant restriction in the assignations preventing the Scottish Borrower from taking such actions.

Scots law assignations are always subject to the principle of *delectus personae* (i.e. that the identity of one of the parties to a contract is so fundamental to that contract that it could not be performed properly by another party). If an element of delectus personae exists, the contract cannot be transferred to a third party. It is possible that a Scottish Court might decide that many of the contracts entered into by a Housing Association can only be performed properly by that Housing Association. There is a risk therefore that some of the contracts and agreements which are purported to be assigned in security to the Security Trustee are in fact unassignable and incapable of being made subject to a right in security under Scots law.

K. Future Assets in Scotland

Under Scots law, rights in security (other than floating charges) can only be created over an asset by transferring that asset to the party receiving the right in security. This means that rights in security can only be created properly over assets in existence at the time the right is created. There is, therefore, a risk that certain Scottish assets, contracts and agreements which are acquired by a Scottish Borrower after it has signed the Security Agreement will not be subject to a right in security granted in favour of the Security Trustee unless new security documents are executed each time such an asset is acquired by such Scottish Borrower.

L. Moratorium and housing administration

In relation to security granted by an English Borrower, the Security Trustee must notify the RSH of its intention to enforce its security and cannot enforce its security during the resulting moratorium without the consent of the RSH. In relation to security over land granted by a Scottish Borrower, the Security Trustee must notify the Scottish Housing Regulator (the **SHR**) of its intention to enforce its security and cannot enforce its security and cannot enforce its security during the resulting moratorium without the consent of the SHR. This may adversely affect the Security Trustee's ability to enforce the security over the Apportioned Properties.

The Security Trustee's ability to enforce the security over the Apportioned Properties may also be adversely affected for so long as any housing administration order (in the case of an English Borrower) or an administration order (in the case of a Scottish Borrower, as no regime comparable to the housing administration regime under English law, currently exists in Scotland) is in place or could result in a housing administrator (in the case of an English Borrower) or an administrator (in the case of an English Borrower) or an administrator (in the case of an English Borrower) or an administrator (in the case of a Scottish Borrower) or an administrator (in the case of a Scottish Borrower) or an administrator (in the case of a Scottish Borrower) or an administrator (in the case of a Scottish Borrower) disposing of Apportioned Property belonging to such Borrower at a time when proceeds are not sufficient to discharge the Issuer's obligations in respect of the Fully Secured Notes.

M. The unencumbered assets test

The Unencumbered Assets Test in respect of an Unsecured Loan Agreement entered into in connection with any Series of Partly Secured Notes calculates the number of unencumbered assets of the Borrowers based on the value of housing properties, properties held for sales and inventory and investment properties plus cash at bank less any public sector subsidy less the secured debt of the Borrowers.

All secured debt facilities and secured standalone derivatives of the Borrowers contain an asset cover covenant, requiring those Borrowers to charge real property assets with an aggregate value in excess of the principal amount of the secured debt or hedging liabilities (such excess being the **Asset Cover Haircut**). The Asset Cover Haircut is typically 105-110 per cent. EUV-SH and 115-125 per cent. MV-ST.

A calculation of the unencumbered assets on the basis of the value of total assets less the aggregate of (a) secured debt plus (b) the Asset Cover Haircut would produce a lower figure.

As the Unencumbered Assets Test takes no account of the Asset Cover Haircut (i.e. the additional security that each Borrower must charge in excess of the principal amount of the secured debt facilities and standalone derivatives), it will artificially inflate the unencumbered assets figure which holders of Partly Secured Notes may have access to in an enforcement scenario. Consequently, there may be less moneys available to pay Noteholders in such circumstances as may be implied by the Unencumbered Assets Test.

Risks related to the market generally

A. Potential Limited Liquidity

Notes may have no established trading market when issued, and one may never develop. If a market for the Notes does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks and are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

B. The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

C. Exchange rate risks and exchange controls

The Issuer does not have any control over factors that generally affect exchange rate risks, such as economic, financial and political events, and the supply and demand for applicable currencies. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future.

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (**Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (a) the Investor's Currency-equivalent yield on the Notes, (b) the Investor's Currency equivalent value of the principal payable on the Notes and (c) the Investor's Currency equivalent market value of the Notes. Even if there are no actual exchange controls, it is possible that the Specified Currency for any particular Series of Notes would not be available at maturity of such Series of Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

D. Credit ratings may not reflect all risks

The on-going creditworthiness of the Sanctuary Group depends on many factors, including the link to national government, industry, competitive, financial and operational performance, economic factors, the level of drawn debt, the ability to access new debt and the strength of the Sanctuary Group's management and governance structure. Actual deterioration or a perceived deterioration in any of these factors or a combination of these factors may result in a downgrade in the Sanctuary Group's perceived creditworthiness as indicated by the Sanctuary Group's issued credit ratings that could, in turn, cause the trading price of the Notes to decline and may result in a loss of all or part of an investment in the Notes.

As with any rated entity, the rating of the Sanctuary Group may be susceptible to further adjustments (whether upward or downward) and, in particular, any adjustments which may be made as a result of a rating agency's methodology as applied to the Issuer or any other member of the Sanctuary Group.

As at the date of these Programme Admission Particulars, each of Moody's and S&P is established in the UK and is registered under Regulation (EC) No. 1060/2009 as it forms part of domestic law by virtue of the EUWA (the **UK CRA Regulation**). Neither Moody's nor S&P is established in the European Union nor has it applied for registration under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**). However, the ratings issued by Moody's and S&P have been endorsed by Moody's Deutschland GmbH and S&P Global Ratings Europe Limited, respectively, in accordance with the CRA Regulation. As at the date of these Programme Admission Particulars, each of Moody's Deutschland GmbH and S&P Global Ratings Europe Limited is established in the European Union and registered under the CRA Regulation. As such, each of Moody's Deutschland GmbH and S&P Global Ratings Europe Limited is established in the European Union and registered under the CRA Regulation. As such, each of Moody's Deutschland GmbH and S&P Global Ratings Europe Limited is published by the ESMA on its website in accordance with the CRA Regulation.

In general, UK and European regulated investors are restricted under the UK CRA Regulation and CRA Regulation, respectively, from using credit ratings for regulatory purposes, unless such ratings are issued by (or endorsed by) a credit rating agency established, as applicable, in the UK or EU and registered under the UK CRA Regulation or the CRA Regulation (and such registration has not been withdrawn or suspended). If the status of Moody's, Moody's Deutschland GmbH, S&P and/or S&P Global Ratings Europe Limited changes, UK and European regulated investors, as applicable, may no longer be able to use the relevant rating for regulatory purposes and the Notes may have a different regulatory treatment. This may result in UK and European regulated investors, as applicable, selling Notes held by them which may have an impact on the value of the Notes in the secondary market.

Form of the Notes

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Pricing Supplement, a permanent global note (a **Permanent Global Note** and, together with a Temporary Global Note, each a **Global Note**) which, in either case, will:

- (a) if the Global Notes are intended to be issued in new global note (NGN) form, as stated in the applicable Pricing Supplement, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the Common Safekeeper) for Euroclear Bank SA/NV (Euroclear) and Clearstream Banking S.A. (Clearstream, Luxembourg); and
- (b) if the Global Notes are not intended to be issued in NGN Form, be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Pricing Supplement will also indicate whether such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in the Temporary Global Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date which is 40 days after a Temporary Global Note is issued (the **Exchange Date**), interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for:

- (a) interests in a Permanent Global Note of the same Series; or
- (b) definitive Notes of the same Series with, where applicable, principal receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement),

in each case against certification of beneficial ownership as described above unless such certification has already been given.

The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

The option for an issue of Notes to be represented on issue by a Temporary Global Note exchangeable for definitive Notes should not be expressed to be applicable in the applicable Pricing Supplement if the Notes are issued with a minimum Specified Denomination such as $\in 100,000$ (or its equivalent in another currency) plus one or more higher integral multiples of another smaller amount such as $\in 1,000$ (or its equivalent in another currency).

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Pricing Supplement will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable principal receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that:

- (a) an Event of Default (as defined in Condition 12 (*Events of Default*)) has occurred and is continuing;
- (b) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Note Trustee is available; or
- (c) the Issuer has or will become subject to adverse tax consequences which would not be suffered if the Notes represented by the Permanent Global Note were in definitive form and a certificate to such effect signed by two Directors of the Issuer is given to the Note Trustee.

The Issuer will promptly give notice to Noteholders in accordance with Condition 16 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) or the Note Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (c) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Notes (other than Temporary Global Notes), principal receipts and interest coupons relating to such Notes where TEFRA D is specified in the applicable Pricing Supplement:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, principal receipts or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Notes, principal receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

General

Pursuant to the Agency Agreement (as defined under "*Conditions of the Notes*"), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

No Noteholder, Receiptholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Note Trustee, having become bound so to proceed, fails so to do within a reasonable period and the failure shall be continuing.

The Issuer may agree with any Dealer and the Note Trustee that Notes may be issued in a form not contemplated by the Conditions of the Notes, in which event a new Programme Admission Particulars or a supplement to these Programme Admission Particulars will be made available which will describe the effect of the agreement reached in relation to such Notes.

Conditions of the Notes

The following are the Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below) and each definitive Note, in the latter case only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Conditions. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to "Applicable Pricing Supplement" for a description of the content of the Pricing Supplement which will specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series (as defined below) of Notes issued by Sanctuary Capital PLC (the **Issuer**) and constituted by a Note Trust Deed dated 4 April 2025 (as modified and/or supplemented and/or restated from time to time, the **Note Trust Deed**) between the Issuer and M&G Trustee Company Limited (the **Note Trustee**, which expression shall include any successor as Note Trustee).

References herein to the **Notes** shall be references to the Notes of this Series and shall mean:

- (a) in relation to any Notes represented by a global Note (a **Global Note**), units of each Specified Denomination in the Specified Currency;
- (b) any Global Note; and
- (c) any definitive Notes issued in exchange for a Global Note.

The Notes, Receipts (as defined below) and Coupons (as defined below) have the benefit of an Agency Agreement dated 4 April 2025 (as amended and/or supplemented and/or restated from time to time, the **Agency Agreement**) between the Issuer, the Note Trustee, The Bank of New York Mellon, London Branch as principal paying agent (the **Principal Paying Agent**, which expression shall include any successor principal paying agent), the other paying agents named therein (together with the Principal Paying Agent, the **Paying Agents**, which expression shall include any additional or successor paying agents) and The Bank of New York Mellon, London Branch as agent bank (the **Agent Bank**, which expression shall include any duly appointed successor agent bank).

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Pricing Supplement attached to or endorsed on this Note which supplement these Conditions (the **Conditions**). References to the applicable Pricing Supplement are, unless otherwise stated, to Part A of the Pricing Supplement (or the relevant provisions thereof) attached to or endorsed on this Note.

Interest bearing definitive Notes have interest coupons (**Coupons**) and, in the case of Notes which, when issued in definitive form, have more than 27 interest payments remaining, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, definitive Notes will have receipts (**Receipts**) attached. Global Notes do not have Receipts, Coupons or Talons attached on issue.

The Note Trustee acts for the benefit of the Noteholders (which expression shall mean the holders of the Notes and shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the **Receiptholders**) and the holders of the Coupons (the **Couponholders**, which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Note Trust Deed.

As used herein, **Tranche** means Notes which are identical in all respects (including as to listing and admission to trading) and **Series** means a Tranche of Notes together with any further Tranche or Tranches of Notes which:

- (a) are expressed to be consolidated and form a single series; and
- (b) have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

The applicable Pricing Supplement shall specify whether the Notes of a Series of Notes are Fully Secured Notes or Partly Secured Notes.

Copies of the Note Trust Deed, the Agency Agreement, the Account Agreement, the Retained Note Custody Agreement, the Loan Agreement in respect of each Series, the Deed of Guarantee, the Group Borrower Security Agreement, the Security Trust Deed and (in respect of Fully Secured Notes) the Custody Agreement and the Security Agreements (each as defined below) are available for inspection during normal business hours at the principal office for the time being of the Note Trustee being at 4 April 2025 at 10 Fenchurch Avenue, London EC3M 5AG and at the specified office of each of the Paying Agents. If the Notes are to be admitted to trading on the London Stock Exchange's International Securities Market, the applicable Pricing Supplement will be published on the website of the London Stock Exchange through a regulatory information service or published in any other manner permitted by the International Securities Market Rulebook effective as of 1 January 2021 (as may be modified and/or supplemented and/or restated from time to time). 7 Interest

The applicable Pricing Supplement will indicate whether the Notes are Fixed Rate Notes and/or Floating Rate Notes.

7.1 Interest on Fixed Rate Notes

This Condition 7.1 applies to Fixed Rate Notes only. The applicable Pricing Supplement contains provisions applicable to the determination of fixed rate interest and must be read in conjunction with this Condition 7.1 for full information on the manner in which interest is calculated on Fixed Rate Notes. In particular, the applicable Pricing Supplement will specify the Interest Commencement Date, the Rate(s) of Interest, the Interest Payment Date(s), the Maturity Date, the Fixed Coupon Amount, any applicable Broken Amount, the Calculation Amount, the Day Count Fraction and any applicable Determination Date.

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note; or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction.

The resultant figure (including after application of any Fixed Coupon Amount or Broken Amount to the Calculation Amount in the case of Fixed Rate Notes in definitive form) shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be

the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In these Conditions:

Day Count Fraction means, in respect of the calculation of an amount of interest, in accordance with this Condition 7.1 (*Interest on Fixed Rate Notes*):

- (a) if "Actual/Actual (ICMA)" is specified in the applicable Pricing Supplement:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the Accrual Period) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (b) if "30/360" is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

7.2 Interest on Floating Rate Notes

This Condition 7.2 applies to Floating Rate Notes only. The applicable Pricing Supplement contains provisions applicable to the determination of floating rate interest and must be read in

conjunction with this Condition 7.2 for full information on the manner in which interest is calculated on Floating Rate Notes. In particular, the applicable Pricing Supplement will identify any Specified Interest Payment Dates, any Specified Period, the Interest Commencement Date, the Business Day Convention, any Additional Business Centres, whether ISDA Determination or Screen Rate Determination applies to the calculation of interest, the party who will calculate the amount of interest due if it is not the Agent, the Margin, any maximum or minimum interest rates (if applicable) and the Day Count Fraction. Where ISDA Determination applies to the calculation of interest, the applicable Floating Rate Option, Designated Maturity and Reset Date. Where Screen Rate Determination applies to the calculation of interest, the applicable Pricing Supplement will also specify the applicable Reference Rate, Interest Determination Date(s) and Relevant Screen Page.

(a) Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, Interest Period means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date or the relevant payment date if the Notes become payable on a date other than an Interest Payment Date.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition
 7.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date:
 - in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (2) below shall apply *mutatis mutandis*; or
 - 2) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event:
 - a) such Interest Payment Date shall be brought forward to the immediately preceding Business Day; and

- b) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, Business Day means:

- a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre (other than T2) specified in the applicable Pricing Supplement;
- if T2 is specified as an Additional Business Centre in the applicable Pricing Supplement, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System (or any successor thereto or replacement thereof) (T2) is open; and
- 3) either:
 - a) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency; or
 - b) in relation to any sum payable in euro, a day on which T2 is open.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Pricing Supplement.

(i) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (i), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent Bank (or other agent, if the Agent Bank (or such other agent) is unable to make such determination) under an interest rate swap transaction if the Agent Bank (or such other agent) were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating (x) if "2006 ISDA Definitions" is specified in the applicable Pricing Supplement, the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. (**ISDA**) and as amended and updated as at the Issue Date of the first Tranche of the Notes; or (y) if "2021 ISDA Definitions" is specified in the applicable Pricing Supplement, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions, as published by ISDA as at the Issue Date of the first Tranche of the Notes (together, the **ISDA Definitions**) and under which:

- (A) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (B) the Designated Maturity is a period specified in the applicable Pricing Supplement; and
- (C) the relevant Reset Date is the day specified in the applicable Pricing Supplement.

For the purposes of this subparagraph (i), Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity and Reset Date have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Pricing Supplement the Minimum Rate of Interest shall be deemed to be zero.

- (ii) Screen Rate Determination for Floating Rate Notes
 - (A) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, and the Calculation Method is specified in the applicable Pricing Supplement as being Compounded Daily SONIA Formula, the Rate of Interest for an Interest Period will, subject to Condition 7.2(c) (*Benchmark Replacement*) and as provided below, be the Compounded Daily SONIA Formula Rate with respect to such Interest Period plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).

Compounded Daily SONIA Formula Rate means, with respect to an Interest Period, the rate of return of a daily compound interest investment in Sterling (with the Sterling Overnight Index Average as the reference rate for the calculation of interest) as calculated by the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement) on the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest fourth decimal place, with 0.00005 being rounded upwards):

$$\left[\prod_{i=1}^{do} \left(1 + \frac{SONIAi xni}{365}\right) - 1\right] \times \frac{365}{d}$$

where:

d is the number of calendar days in:

- (a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Observation Period;

 $\mathbf{d}_{\mathbf{o}}$ is the number of London Banking Days in:

- (a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Observation Period;

i is a series of whole numbers from one to d_o, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Interest Period; or
- (b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the relevant Observation Period;

London Banking Day means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

n_i, means, for any London Banking Day "i", the number of calendar days from (and including) such London Banking Day "i" up to (but excluding) the following London Banking Day;

Observation Period means, in respect of an Interest Period, the period from (and including) the date falling "p" London Banking Days prior to the first day of the relevant Interest Period to (but excluding) the date falling "p" London Banking Days prior to:

- (a) the Interest Payment Date for such Interest Period; or
- (b) if applicable, the relevant payment date if the Notes become due and payable on a date other than an Interest Payment Date;

p means:

(a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the number of London Banking Days included in the "Lag Lookback Period (*p*)" in the

applicable Pricing Supplement (subject to a minimum of five London Banking Days except with the prior agreement of the Agent Bank); or

(b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the number of London Banking Days included in the "Observation Shift Period" in the applicable Pricing Supplement (subject to a minimum of five London Banking Days except with the prior agreement of the Agent Bank);

SONIA reference rate means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average (SONIA) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

SONIA, means, in respect of any London Banking Day "i":

- (a) where "Lag" is specified as the Observation Method in the applicable Pricing Supplement, the SONIA reference rate in respect of the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "i"; or
- (b) where "Observation Shift" is specified as the Observation Method in the applicable Pricing Supplement, the SONIA reference rate in respect of the relevant London Banking Day "i".
- (B) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, and the Calculation Method is specified in the applicable Pricing Supplement as being SONIA Index Determination, the Rate of Interest for an Interest Period will, subject to Condition 7.2(c) (*Benchmark Replacement*) and as provided below, be the SONIA Compounded Index Rate with respect to such Interest Period plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any).

SONIA Compounded Index Rate means, with respect to an Interest Period, the rate of return of a daily compound interest investment as calculated by the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the Pricing Supplement) on the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest fourth decimal place, with 0.00005 being rounded upwards):

$$\left(\frac{SONIA\ Compounded\ Index\ (End)}{SONIA\ Compounded\ Index\ (Start)} - 1\right) \times \frac{365}{d}$$

where:

d is the number of calendar days from (and including) the day in relation to which "SONIA Compounded Index_{Start}" is determined to (but excluding) the day in relation to which "SONIA Compounded Index_{End}" is determined (being the number of calendar days in the applicable reference period);

London Banking Day has the meaning set out in Condition 7.2(b)(ii)(A) above;

Relevant Number is as specified in the applicable Pricing Supplement (subject to a minimum of five, except with the prior agreement of the Agent Bank);

SONIA Compounded Index_{End} means the SONIA Compounded Index value relating to the London Banking Day falling the Relevant Number of London Banking Days prior to:

- (a) the Interest Payment Date for the relevant Interest Period; or
- (b) if applicable, the relevant payment date if the Notes become due and payable on a date other than an Interest Payment Date;

SONIA Compounded Index_{start} means the SONIA Compounded Index value relating to the London Banking Day falling the Relevant Number of London Banking Days prior to the first day of the relevant Interest Period; and

SONIA Compounded Index means, with respect to any London Banking Day, the value of the SONIA Compounded Index that is provided by the administrator of the SONIA reference rate to authorised distributors and as then published on the Relevant Screen Page (or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) in respect of such London Banking Day.

If the relevant SONIA Compounded Index is not published or displayed by the administrator of the SONIA reference rate or other information service at the Relevant Time specified in the applicable Pricing Supplement on the relevant Interest Determination Date, the SONIA Compounded Index Rate for the applicable Interest Period for which the SONIA Compounded Index is not available shall be the Compounded Daily SONIA Formula Rate determined in accordance with Condition 7.2(b)(ii)(A) above as if the Calculation Method specified in the applicable Pricing Supplement were Compounded Daily SONIA Formula (and not SONIA Index Determination), and for these purposes:

- (a) the "Observation Method" shall be deemed to be "Observation Shift"; and
- (b) the "Observation Shift Period" shall be deemed to be equal to the Relevant Number of London Banking Days,

as if those alternative elections had been made in the applicable Pricing Supplement.

- (C) For the purposes of Condition 7.2(b)(ii)(A) above, and subject to Condition 7.2(c) below, if, in respect of any London Banking Day in the relevant Observation Period or the relevant Interest Period, as applicable, the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement) determines that the applicable SONIA reference rate has not been made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the Agent Bank (or such other party responsible for the calculation of the Rate of Interest, as specified in the applicable Pricing Supplement, as applicable) shall determine the SONIA reference rate in respect of such London Banking Day as being:
 - 1)
- a) the Bank of England's Bank Rate (the **Bank Rate**) prevailing at 5.00 p.m. (or, if earlier, close of business) on such London Banking Day; plus
- b) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five London Banking Days in respect of which the SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and the lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- 2) if the Bank Rate under 1) a) above is not available at the relevant time, either:
 - a) the SONIA reference rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day in respect of which the SONIA reference rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors); or
 - b) if this is more recent, the latest rate determined under1) a) above,

and in each case **SONIA reference rate** shall be interpreted accordingly.

- (D) In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Rate of Interest shall be:
 - 1) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Maximum Rate of Interest and/or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as the case may be) relating to the relevant Interest Period, in place of the Margin, Maximum Rate of Interest and/or Minimum Rate of Interest (as applicable) relating to that last preceding Interest Period); or
 - 2) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first scheduled Interest Period had the Notes been in issue for a period equal in duration to the first scheduled Interest Period but ending on (and excluding) the Interest Commencement Date (and applying the Margin and, if applicable, any Maximum Rate of Interest and/or Minimum Rate of Interest, applicable to the first scheduled Interest Period).
- (E) If the relevant Series of Notes becomes due and payable in accordance with Condition 12 (*Events of Default*), the final Rate of Interest shall be calculated for the period from (and including) the previous Interest Payment Date to (but excluding) the date on which the Notes become so due and payable, and such Rate of Interest shall continue to apply to the Notes for so long as interest continues to accrue thereon as provided in Condition 7.2(k) and the Note Trust Deed.

(c) Benchmark Replacement

This Condition 7.2(c) applies only where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined.

(i) Independent Adviser

Notwithstanding the provisions in Condition 7.2(b)(ii) (*Screen Rate Determination for Floating Rate Notes*) above, if the Issuer determines that a Benchmark Event has occurred in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to that Original Reference Rate, then the Issuer shall use its reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine, following consultation with the Issuer and no later than ten Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the **IA Determination Cutoff Date**), a Successor Rate or, failing which, an Alternative Rate (in accordance with Condition 7.2(c)(ii) (*Successor Rate or Alternative Rate*)) and, in either case, an Adjustment Spread (in accordance with Condition 7.2(c)(iii))

(*Adjustment Spread*) and any Benchmark Amendments (in accordance with Condition 7.2(c)(iv) (*Benchmark Amendments*)).

An Independent Adviser appointed pursuant to this Condition 7.2(c) (*Benchmark Replacement*) shall act in good faith and in a commercially reasonable manner following consultation with the Issuer. In the absence of wilful default, bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Noteholders, the Note Trustee, the Paying Agents or the Agent Bank for any determination it makes pursuant to this Condition 7.2(c) (*Benchmark Replacement*). No Independent Adviser appointed in connection with the Notes (acting in such capacity), shall have any relationship of agency or trust with the Noteholders.

- lf:
- (A) the Issuer is unable to appoint an Independent Adviser; or
- (B) the Independent Adviser fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 7.2(c)(i) (*Independent Adviser*) prior to the relevant IA Determination Cut-off Date,

then the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. Where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the immediately preceding Interest Period, the Margin, Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin, Maximum Rate of Interest relating to that immediately preceding Interest Period. For the avoidance of doubt, this sub-paragraph shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 7.2(c) (*Benchmark Replacement*)).

(ii) Successor Rate or Alternative Rate

If the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 7.2(c)(iii) (Adjustment Spread)), subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the further operation of this Condition 7.2(c) (Benchmark Replacement)); or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 7.2(c)(iii) (Adjustment Spread)) subsequently be used in

place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the further operation of this Condition 7.2(c) (*Benchmark Replacement*)).

(iii) Adjustment Spread

The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

Following any such determination by the Independent Adviser, following consultation with the Issuer, of the Adjustment Spread, the Issuer shall give notice thereof in accordance with Condition 7.2(c)(vi) (*Notices*). The Principal Paying Agent or the Agent Bank, as applicable, shall apply such Adjustment Spread to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or any component part(s) thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(iv) Benchmark Amendments

If any Successor Rate or Alternative Rate and Adjustment Spread is determined in accordance with this Condition 7.2(c) (*Benchmark Replacement*) and the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines:

- (A) that amendments to the Conditions, the Note Trust Deed or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and, in each case, the application of the Adjustment Spread (such amendments, the **Benchmark Amendments**); and
- (B) the terms of the Benchmark Amendments,

then the Issuer shall, following consultation with the Independent Adviser and subject to the Issuer giving notice thereof in accordance with Condition 7.2(c)(vi) (*Notices*), without any requirement for the consent or approval of Noteholders, the Receiptholders, the Couponholders or any other Series Secured Party, vary the Conditions, the Note Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice, provided that neither the Principal Paying Agent nor the Agent Bank shall be bound by or be obliged to give effect to any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendment, if in the opinion of the Principal Paying Agent or the Agent Bank the same would not be operable or would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or the Agency Agreement and/or any documents to which it is a party in any way.

At the request of the Issuer, but subject to receipt by the Note Trustee of a certificate signed by one Authorised Signatory of the Issuer pursuant to Condition 7.2(c)(vi) (Notices), the Note Trustee shall (at the expense and direction of the Issuer), without any requirement for the consent or approval of the Noteholders, Receiptholders or Couponholders or any other Series Secured Party, be obliged to use its best endeavours to implement any Benchmark Amendments (including, inter alia, by the execution of a deed supplemental to or amending the Note Trust Deed) and the Note Trustee shall not be liable to any party for any consequences thereof (irrespective of whether such Benchmark Amendment(s) relate(s) to a Basic Terms Modification (as defined in the Note Trust Deed)), provided that the Note Trustee shall not be obliged so to implement if, in the opinion of the Note Trustee, doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in these Conditions and/or the Note Trust Deed and/or any documents to which it is a party (including, for the avoidance of doubt, any supplemental note trust deed) in any way.

In connection with any such modifications in accordance with this Condition 7.2(c)(iv) (*Benchmark Amendments*), the Issuer and the Independent Adviser shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(v) Survival of Original Reference Rate Provisions

Without prejudice to the obligations of the Issuer or the Independent Adviser under this Condition 7.2(c) (*Benchmark Replacement*), the Original Reference Rate and the fallback provisions provided for in Condition 7.2(c)(ii) (*Successor Rate or Alternative Rate*) and the Agency Agreement will continue to apply unless and until:

- (A) a Benchmark Event has occurred and the Independent Adviser, following consultation with the Issuer, has determined the Successor Rate or the Alternative Rate (as the case may be), the Adjustment Spread and Benchmark Amendments, in accordance with the relevant provisions of this Condition 7.2(c) (*Benchmark Replacement*); and
- (B) the Issuer notifies the Note Trustee of such determination.
- (vi) Notices

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 7.2(c) (*Benchmark Replacement*) will be notified promptly by the Issuer to the Note Trustee, the Paying Agents, the Agent Bank (if applicable), the Borrowers and, in accordance with Condition 16 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Note Trustee of the same, the Issuer shall deliver to the Note Trustee a certificate signed by one Authorised Signatory of the Issuer:

- (A) confirming:
 - 1) that a Benchmark Event has occurred;
 - the Successor Rate or, as the case may be, the Alternative Rate;
 - 3) any Adjustment Spread; and
 - 4) the specific terms of any Benchmark Amendments,

in each case as determined in accordance with the provisions of this Condition 7.2(c) (*Benchmark Replacement*); and

(B) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread.

The Note Trustee shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) and without prejudice to the ability of the Note Trustee to rely on such certificate as aforesaid) be binding on the Issuer, the Note Trustee, the Principal Paying Agent, the Agent Bank and the Noteholders.

(vii) Definitions

In this Condition 7.2(c) (Benchmark Replacement):

Adjustment Spread means either a spread (which may be positive, negative or zero), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the spread, formula or methodology which:

- in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate) the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been

replaced by the Successor Rate or the Alternative Rate (as the case may be); or

(C) (if the Independent Adviser, in consultation with the Issuer, determines that no such industry standard is recognised or acknowledged) the Independent Adviser, in its discretion, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines to be appropriate;

Alternative Rate means an alternative benchmark or screen rate which the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines in accordance with Condition 7.2(c)(ii) (*Successor Rate or Alternative Rate*) has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining floating rates of interest (or the relevant component thereof) in the same Specified Currency as the Notes;

Benchmark Event means:

- the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or
- (B) the later of (i) the making of a public statement by the administrator of the Original Reference Rate that it will, on or before a specified date, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate) and (ii) the date falling six months prior to such date specified in (i); or
- (C) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that (i) the Original Reference Rate has been permanently or indefinitely discontinued or (ii) the Original Reference Rate is no longer representative of an underlying market; or
- (D) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate will, on or before a specified date, be permanently or indefinitely discontinued and (ii) the date falling six months prior to the date specified in (i); or
- (E) the later of (i) the making of a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will, on or before a specified date, be prohibited from being used either generally, or in respect of the Notes and (ii) the date falling six months prior to the date specified in (i); or
- (F) it has or will prior to the next Interest Determination Date become unlawful for the Agent Bank or the Issuer to determine any Rate of Interest and/or calculate any Interest Amount using the Original Reference Rate;

Independent Adviser means an independent financial institution of international repute or an independent financial adviser with experience in the international capital markets appointed by the Issuer at its own expense under Condition 7.2(c)(i) (*Independent Adviser*) and notified in writing to the Note Trustee;

Original Reference Rate means the benchmark or screen rate (as applicable) specified in the applicable Pricing Supplement for the purposes of determining the relevant Rate of Interest (or any component part(s) thereof) in respect of the Notes or (if applicable) any other Successor Rate or Alternative Rate (or any component part(s) thereof) determined and applicable to the Notes pursuant to the earlier operation of this Condition 7.2(c) (*Benchmark Replacement*); and

Relevant Nominating Body means, in respect of a benchmark or screen rate (as applicable):

- (A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (i) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (ii) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (iii) a group of the aforementioned central banks or other supervisory authorities, or (iv) the Financial Stability Board or any part thereof; and
- (C) Successor Rate means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body.

(d) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 7.2(b) (*Rate of Interest*) is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of Condition 7.2(b) (*Rate of Interest*) is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(e) Determination of Rate of Interest and calculation of Interest Amounts

The Agent Bank will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent Bank will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Notes represented by such Global Note; or
- (ii) in the case of Floating Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 7.2:

- (i) if "Actual/Actual (ISDA)" or "Actual/Actual" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if "Actual/365 (Fixed)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;
- (iii) if "Actual/365 (Sterling)" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if "Actual/360" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;
- (v) if "30/360", "360/360" or "Bond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = $[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)$ 360 where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

(vi) if "30E/360" or "Eurobond Basis" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = $[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)$ 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D2 will be 30;

(vii) if "30E/360 (ISDA)" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

Day Count Fraction = $[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)$ 360

where:

Y1 is the year, expressed as a number, in which the first day of the Interest Period falls;

Y2 is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

M1 is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

M2 is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

D1 is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

D2 is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D2 will be 30.

(f) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Agent Bank by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Pricing Supplement) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Pricing Supplement), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent Bank shall determine such rate at such time and by reference to such sources as the Issuer shall determine appropriate for such purposes.

Designated Maturity means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(g) Notification of Rate of Interest and Interest Amounts

The Agent Bank will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Note Trustee and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with Condition 16 (*Notices*) as soon as possible after their determination but in no event later than

(other than where Screen Rate Determination is specified in the applicable Pricing Supplement) the fourth London Business Day thereafter or (where Screen Rate Determination is specified in the applicable Pricing Supplement) the second London Banking Day thereafter (as defined in Condition 7.2(b)(ii)(A)). Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will promptly be notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with Condition 16 (*Notices*). For the purposes of this paragraph, the expression London Business Day means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(h) Inability or failure of Agent Bank to make determinations or calculations

The Agent Bank shall not be obliged to make any determination or calculation required by the Conditions if it is not legally permitted to do so. If for any reason at any relevant time the Agent Bank is unable, or fails, to determine the Rate of Interest or to calculate any Interest Amount in accordance with Condition 7.2(b)(i) (ISDA Determination for Floating Rate Notes) or Condition 7.2(b)(ii) (Screen Rate Determination for Floating Rate Notes), as the case may be, the Issuer shall be obliged to appoint an alternative agent approved by the Note Trustee to make such determination or calculation or a successor Agent Bank in accordance with Condition 7.2(j) (*Agent Bank*).

(i) Certificates to be final

All certificates, communications, opinions, determinations, calculations and decisions given, expressed or made for the purposes of the provisions of this Condition 7 (*Interest*) by the Agent Bank shall (in the absence of wilful default, gross negligence, fraud or manifest error) be binding on the Issuer, the Paying Agents, the Agent Bank and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default, gross negligence or fraud) no liability shall attach to the Agent Bank or the Note Trustee in connection with the exercise or non exercise by it of its powers, duties and discretions pursuant to such provisions.

(j) Agent Bank

The Issuer shall procure that, so long as any of the Notes remains outstanding, there is at all times an Agent Bank for the purposes of the Notes and the Issuer may, subject to the prior written approval of the Note Trustee, terminate the appointment of the Agent Bank. In the event of the appointed office of any bank being unable or unwilling to continue to act as the Agent Bank or failing duly to determine the Rate of Interest and the Interest Amount for any Interest Period, the Issuer shall, subject to the prior written approval of the Note Trustee, appoint the London office of another major bank engaged in the London interbank market to act in its place. The Agent Bank may not resign its duties or be removed without a successor having been appointed.

(k) Accrual of interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment

of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (i) the date on which all amounts due in respect of such Note have been paid; and
- (ii) as provided in the Note Trust Deed.

8 Payments

8.1 Method of payment

- (a) Subject as provided below:
 - payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency; and
 - (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.
- (b) Payments will be subject in all cases to:
 - (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 10 (*Taxation*); and
 - (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 10 (*Taxation*)) any law implementing an intergovernmental approach thereto.

8.2 **Presentation of definitive Notes, Receipts and Coupons**

- (a) Subject as follows in respect of Instalment Redemption, payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 8.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes.
- (b) Where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, payment of instalments of principal on an Instalment Date (other than the Instalment Date falling on the Maturity Date) in respect of definitive Notes will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)). Each Receipt must be presented for payment together with the Note to which it appertains. Any Receipt presented without the Note to which it appertains does not constitute valid obligations of the Issuer.

- (c) Payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).
- (d) Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 11 (*Prescription*) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.
- (e) Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.
- (f) Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A Long Maturity Note is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose principal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the principal amount of such Note.
- (g) If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

8.3 **Payments in respect of Global Notes**

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

8.4 General provisions applicable to payments

- (a) The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the obligations of the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.
- (b) Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:
 - the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
 - (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
 - (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

8.5 Payment Day

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, **Payment Day** means any day which (subject to Condition 11 (*Prescription*)) is:

- (a) or falls after the relevant due date;
- (b) or falls at least one day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency after the corresponding Loan Payment Day;
- (c) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits):
 - (i) in the case of Notes in definitive form only, in the relevant place of presentation; and

- (ii) in each Additional Financial Centre (other than T2) specified in the applicable Pricing Supplement;
- (d) if T2 is specified as an Additional Financial Centre in the applicable Pricing Supplement, a day on which T2 is open; and
- (e) either:
 - (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency; or
 - (ii) in relation to any sum payable in euro, a day on which T2 is open.

8.6 Interpretation of principal and interest

- (a) Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:
 - (i) any additional amounts which may be payable with respect to principal under Condition 10 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Note Trust Deed;
 - (ii) the Final Redemption Amount of the Notes (or, in the case of Notes redeemable in instalments, the Instalment Amounts); and
 - (iii) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.
- (b) Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 10 (*Taxation*) or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Note Trust Deed.

9 Redemption and Purchase

9.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer:

- (a) where Final Redemption is specified in the applicable Pricing Supplement, at its Final Redemption Amount specified in the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date specified in the applicable Pricing Supplement; or
- (b) where Instalment Redemption is specified in the applicable Pricing Supplement, in part on each Instalment Date in the Instalment Amount in the relevant Specified Currency, all as specified in the applicable Pricing Supplement.

9.2 **Redemption for tax reasons**

If as a result of any actual or proposed change in tax law, the Issuer determines (in its reasonable commercial judgement), and certifies to the Note Trustee, that it would, on the next following Interest Payment Date, be required to make a withholding or deduction in respect of payments to be made on such Interest Payment Date (other than in respect of a Noteholder Specific Withholding) and the Issuer does not opt to pay additional amounts pursuant to Condition 10(b) (*Taxation*) or, having so opted, notifies the Note Trustee and the Noteholders, in accordance with Condition 16 (Notices), of its intention to cease paying such additional amounts, the Issuer shall redeem the Notes in whole, but not in part, at their principal amount, plus accrued interest to (but excluding) the date of redemption, as soon as reasonably practicable prior to the next following Interest Payment Date or, if it is not reasonably practicable for the Issuer to redeem the Notes prior to the next following Interest Payment Date, within three Business Days thereafter. For the avoidance of doubt, any amounts in respect of accrued interest which fall due on any such redemption of the Notes (and, where the redemption follows the next following Interest Payment Date, such Interest Payment Date) shall be paid subject to the required withholding or deduction and the Issuer shall not be obliged to pay any additional amounts in respect thereof.

9.3 Redemption at the option of the Group Borrower (Group Borrower Call)

- (a) If Group Borrower Call is specified as being applicable in the applicable Pricing Supplement, the Group Borrower may elect to prepay at any time (or, where the Loan was advanced in connection with a Floating Rate Note, on any Loan Payment Date) after the relevant Final Retained Note Disposal Date (if applicable) the Loan advanced in connection with the relevant Series of Notes in whole or in part.
- (b) Upon such election, the Issuer shall, on giving not less than 30 nor more than 60 days' notice, redeem the Notes of such Series in whole or, in respect of a prepayment in part, in an aggregate principal amount equal to the principal amount of the Loan to be repaid on the date which is two Business Days after that on which payment is made by the Group Borrower under the Loan Agreement (the Loan Prepayment Date).
- (c) Redemption of Notes pursuant to this Condition 9.3 (*Redemption at the option of the Group Borrower (Group Borrower Call)*) shall be made at the Optional Redemption Amount(s) specified in the applicable Pricing Supplement, together with any interest accrued up to (but excluding) the Loan Prepayment Date.
- (d) The Optional Redemption Amount will be:
 - (i) if Par Amount is specified in the applicable Pricing Supplement, the principal amount of the Notes;
 - (ii) if Modified Spens Amount is specified in the applicable Pricing Supplement, the amount determined as set out below: or
 - (iii) if Make Whole Amount or Other Amount is specified in the applicable Pricing Supplement, the amount determined as set out in the applicable Pricing Supplement.
- (e) If Modified Spens Amount is specified in the applicable Pricing Supplement, the Optional Redemption Amount shall be the amount equal to the higher of the following:

- (i) par; and
- (ii) the price (expressed as a percentage) (as reported in writing to the Issuer and the Note Trustee by a financial adviser nominated by the Issuer and approved by the Note Trustee (the **Nominated Financial Adviser**)) (and rounded to three decimal places (0.0005 being rounded upwards)) at which the Gross Redemption Yield on the Notes (if the Notes were to remain outstanding until their original maturity) on the Determination Date would be equal to the sum of (i) the Gross Redemption Yield at 3:00 pm (London time) on the Determination Date of the Benchmark Gilt and (ii) the Spens Margin.
- (f) For the purposes of this Condition:

Benchmark Gilt means the UK Government Gilt specified as such in the applicable Pricing Supplement or such other conventional (i.e. not index-linked) UK Government Gilt as the Issuer (with the advice of the Nominated Financial Adviser) may determine to be the most appropriate conventional UK Government Gilt;

Determination Date means three Business Days prior to the Loan Prepayment Date;

Gross Redemption Yield means a yield calculated by the Nominated Financial Adviser on the basis set out by the United Kingdom Debt Management Office in the paper "*Formulae for Calculating Gilt Prices from Yields*" page 5, Section One: Price/Yield Formulae (Conventional Gilts; Double-dated and Undated Gilts with Assumed (or Actual) Redemption on a Quasi-Coupon Date) (published on 8 June 1998 and updated on 15 January 2002 and 16 March 2005) (as amended or supplemented from time to time); and

Spens Margin means the margin specified as such in the applicable Pricing Supplement.

9.4 Maturity Call Par Option

- (a) If Maturity Par Call Option is specified as being applicable in the applicable Pricing Supplement, the Group Borrower may from (and including) the Call Option Date specified in the applicable Pricing Supplement (which shall be no earlier than 90 days before the Maturity Date) elect to prepay at any time (or, where such Loan was advanced in connection with a Floating Rate Note, on any subsequent Loan Payment Date prior to the Maturity Date (if any)) after the relevant Final Retained Note Disposal Date (if applicable) the Loan advanced in connection with the relevant Series of Notes in whole or in part.
- (b) Upon such election, the Issuer shall, on giving not less than 15 nor more than 30 days' notice, redeem the Notes of such Series in whole or, in respect of a prepayment in part, in an aggregate principal amount equal to the principal amount of the Loan to be repaid on the date which is two Business Days after that on which payment is made by such Borrower under its Loan Agreement (the Loan Prepayment Date).

(c) Redemption of Notes pursuant to this Condition 9.4 (*Maturity Call Par Option*) shall be made at their principal amount, together with any interest accrued up to (but excluding) the Loan Prepayment Date.

9.5 **Residual Call Option**

- (a) If Residual Call Option is specified as being applicable in the applicable Pricing Supplement, the Group Borrower may elect to prepay the Loan advanced in connection with the relevant Series of Notes in whole (but not in part) at any time (or, where such Loan was advanced in connection with a Floating Rate Note, on any Loan Payment Date) after the relevant Final Retained Note Disposal Date (if applicable) in the event that the aggregate outstanding principal amount of the Notes of such Series (being, where Instalment Redemption is specified as applicable in the applicable Pricing Supplement, the original principal amount ignoring any previous redemption of principal in accordance with Condition 9.1(b) (*Redemption at maturity*)) is equal to or less than the Residual Call Option Percentage specified in the applicable Pricing Supplement of the aggregate principal amount of the Notes of such Series (being Supplement of the aggregate principal amount of the Notes of such Series Supplement of the aggregate principal amount of the Notes of such Series (being Supplement of the aggregate principal amount of the Notes of such Series issued.
- (b) Upon such election, the Issuer shall, on giving not less than 15 nor more than 30 days' notice, redeem the Notes of such Series in whole on the date which is two Business Days after that on which payment is made by the Group Borrower under the Loan Agreement (the Loan Prepayment Date).
- (c) Redemption of Notes pursuant to this Condition 9.5 (*Residual Call Option*) shall be made at the Residual Call Amount, together with any interest accrued up to (but excluding) the Loan Prepayment Date.
- (d) Notwithstanding the foregoing, if the Group Borrower has elected to repay the Loan Agreement entered into in connection with such Series of Notes in circumstances which has resulted in the exercise by the Issuer of the Borrower Call option in accordance with Condition 9.3 (*Redemption at the option of the Group Borrower (Group Borrower Call)*) in respect of part only of a relevant Series of Notes, the provisions of this Condition 9.5 (*Residual Call Option*) shall not apply to the same Series of Notes for a period of 12 months from the applicable date of the partial redemption of the Notes of such Series.

9.6 Mandatory Early Redemption

If the Loan in respect of a Series of Notes becomes repayable:

- (a) as a result of a Group Borrower Default; and/or
- (b) following a Borrower ceasing to be a Registered Provider of Social Housing or a Registered Social Landlord (other than following, or as part of, a Permitted Reorganisation or if such Borrower regains its status as a Registered Provider of Social Housing or a Registered Social Landlord or ceases to be a Borrower within 180 days),

then the Issuer shall redeem the Notes of the relevant Series in full at their principal amount together (if appropriate) with accrued interest to (but excluding) the date on which the Loan is repaid (the **Loan Repayment Date**), on date which is two Business Days after the Loan Repayment Date.

9.7 Notices

- (a) Notice of any early redemption in accordance with Conditions 9.2 (*Redemption for tax reasons*), 9.3 (*Redemption at the option of the Borrowers (Borrower Call*)), 9.4 (*Maturity Call Par Option*), 9.5 (*Residual Call Option*) or 9.6 (*Mandatory Early Redemption*) above shall be given by the Issuer to the Note Trustee, the Paying Agents and the Noteholders, in accordance with Condition 16 (*Notices*), as promptly as practicable (but, in the case of Conditions 9.3 (*Redemption at the option of the Group Borrower (Group Borrower Call*)), 9.4 (*Maturity Call Par Option*) and 9.5 (*Residual Call Option*), shall be no later than three Business Days after the receipt by the Issuer of notice from the Group Borrower of its intention to prepay a corresponding amount pursuant to the Loan Agreement).
- (b) In respect of any redemption pursuant to 9.5 (*Residual Call Option*)) such notice to the Note Trustee shall be delivered together with a certificate signed by one Authorised Signatory of the Issuer confirming that the Group Borrower is entitled to repay the relevant Loan(s) and the Issuer is therefore entitled to redeem the relevant Notes. The Note Trustee shall be entitled to rely on such certificate without further enquiry.

Use of Proceeds and Sustainable Finance Framework

The net proceeds from the issue of Notes of each Series (or, in the case of any Series of Notes where Retained Notes are specified as being applicable in the applicable Pricing Supplement, the net proceeds of the sale of such Retained Notes to a third party) will be advanced by the Issuer to the Group Borrower pursuant to the Loan Agreement in respect of such Series of Notes, and the Group Borrower will on-lend the same to the Borrowers pursuant to the Intra-group Facility Agreements, to be applied in the achievement of the Borrowers' objects, as permitted by their respective constitutional documents (including, for the avoidance of doubt, the repayment of any existing indebtedness and any other amounts due and payable in connection therewith).

If, in respect of an issue, there is a particular identified use of proceeds, this will be stated in the applicable Pricing Supplement.

If the Notes are specified as "Social Bonds", "Green Bonds" or "Sustainability Bonds" in the applicable Pricing Supplement, an amount equivalent to the net proceeds from the issue of the Notes (or, in the case of any Retained Notes, the net proceeds of the sale of such Retained Notes to a third party) (each after deduction of expenses payable by the Issuer) will be used for social, green or sustainable purposes, as applicable, and, unless otherwise specified in the applicable Pricing Supplement, will be applied in accordance with the Sustainable Finance Framework as described below.

Sustainable Finance Framework

The Sanctuary Group is preparing a Sustainable Finance Framework (the **Sustainable Finance Framework**) which will be aligned with industry practice and the ICMA Green Bond Principles (**GBP**) – (2021, with June 2022 Appendix I), ICMA Social Bond Principles (**SBP**) – (2023) and ICMA Sustainability Bond Guidelines (**SBG**) – (2021). The Sanctuary Group has appointed Sustainalytics to review the alignment of the Sustainable Finance Framework with the GBP, the SBP and the SBG and to issue an independent opinion (the **Second Party Opinion**) confirming such alignment.

When issued, the Sustainable Finance Framework and the Second Party Opinion will be available on the Sanctuary Group's website at www.sanctuary.co.uk/investors. The Issuer will also prepare a supplement to these Programme Admission Particulars describing the Sustainable Finance Framework.

No assurance or representation is given by any Obligor, the Dealers or any of their respective affiliates, the Note Trustee, the Security Trustee or any other person as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by any Obligor) which may be made available in connection with the issue of any Notes issued as Social Bonds, Green Bonds or Sustainability Bonds and, in particular, with respect to whether any eligible projects fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall it be deemed to be, incorporated in and/or form part of these Programme Admission Particulars. Any such opinion or certification is not, nor should be deemed to be, a recommendation by any Obligor, the Dealers or any of their respective affiliates, the Note Trustee or the Security Trustee or any other person to buy, sell or hold any such Notes issued as Social Bonds, Green Bonds or Sustainability Bonds. The Noteholders have no recourse against any Obligor, the Arranger, any Dealer or any of their respective affiliates or the provider of any such opinion or certification for the contents of any such opinion or certification. Any such opinion or certification is only current as of the date that opinion was initially issued and the considerations and/or criteria which are the basis of such an opinion or certification can change at any time. The providers of such opinions or certifications are currently under no obligation to update them following their issue and are not subject to any specific regulatory or other regime or oversight. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in any Notes.

No assurance is given by any Obligor, the Arranger, the Dealers or any of their respective affiliates or any other person that the use of the proceeds of issue of any Notes will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates. None of the Note Trustee, the Arranger, the Dealers or any of their respective affiliates will have any responsibility for monitoring the application of any such proceeds.

The Sanctuary Group may amend or update its Sustainable Finance Framework in the future.

For the avoidance of doubt, the Sustainable Finance Framework and any second party opinion(s) or certification(s) (including, when issued, the Second Party Opinion) referred to in the applicable Pricing Supplement will not be, nor shall they be deemed to be, incorporated in and/or form part of these Programme Admission Particulars.

Description of the Unsecured Loan Agreements

The following description of the Unsecured Loan Agreements consists of a summary of certain provisions of the Unsecured Loan Agreements and is qualified by reference to the detailed provisions thereof. The Unsecured Loan Agreements are not, however, incorporated by reference into, and therefore do not form part of, these Programme Admission Particulars.

Definitions used in this section but not otherwise defined in these Programme Admission Particulars have the meanings given to them in the Unsecured Loan Agreements.

Unsecured Loan Agreements

Each Unsecured Loan Agreement will be comprised of:

- (a) the Unsecured Loan Agreement Standard Terms dated 4 April 2025 and signed for identification by the Issuer, the Group Borrower and the Note Trustee; and
- (b) an Unsecured Loan Transaction Terms to be dated on or around the relevant Issue Date of the related Series of Partly Secured Notes between the Issuer, the Group Borrower and the Note Trustee.

Facility

The Issuer shall enter into an Unsecured Loan Agreement in respect of each Series of Partly Secured Notes with a Commitment equal to the aggregate principal amount of the relevant Series of Partly Secured Notes.

Drawings

The Commitment under an Unsecured Loan Agreement may be drawn in one or more drawings.

Each drawing under an Unsecured Loan Agreement shall be advanced in an amount equal to the Actual Advance Amount. For this purpose, **Actual Advance Amount** means the principal amount of such drawing multiplied by:

- (a) in the case of a drawing which is to be funded by the sale of Original Notes or Further Notes (other than Retained Notes), the issue price of such Original Notes or Further Notes, as applicable; and
- (b) in the case of a drawing which is to be funded by the sale of Retained Notes, the sale price of such Retained Notes.

For the avoidance of doubt:

- (a) any difference between the principal amount of a drawing and the relevant Actual Advance Amount shall be ignored in determining the amount of the relevant Loan and, *inter alia*, the calculation of interest, principal and premium payments payable in respect thereon; and
- (b) the Group Borrower shall not be required to monitor or verify the market value of the Retained Notes.

The Group Borrower shall agree that, immediately prior to the end of each accounting period, to the extent that the Issuer would otherwise be required to recognise a profit for tax purposes in respect of its

Retained Notes as a result of the movement in the fair value recognised in its accounts of such Retained Notes for that accounting period, the Group Borrower shall (on behalf of the Issuer) discharge any corporation tax liability in respect of the Accounting Profit.

The Group Borrower shall agree, to the extent that any Retained Notes are issued in respect of the relevant Series, that, where the Issuer is required to sell any Retained Notes in order to fund a drawdown request, the Issuer's obligations to fund such drawdown will be subject to the ability of the Issuer to sell such Retained Notes to a third party.

For so long as any Retained Notes in respect of a Series are held by or on behalf of the Issuer, the Group Borrower may request that an amount of the Commitment under the Loan Agreement entered into in connection with that Series be cancelled (provided that such amount does not exceed the principal amount of Retained Notes held by or on behalf of the Issuer at that time). As soon as practicable following any such request, the Issuer shall cancel Retained Notes in a corresponding amount. Such cancellation of the relevant Commitment shall take effect upon the cancellation of such Retained Notes.

Subject to the conditions precedent set out in Clause 4.1 (*Request for Further Commitments*) of the Unsecured Loan Agreement Standard Terms, the Issuer may make further commitments to the Group Borrower under an Unsecured Loan Agreement, each in an amount to be agreed between the Issuer, the Group Borrower and the Note Trustee, following the issuance of further notes of the Series in respect of which the Unsecured Loan Agreement was entered into in connection with pursuant to Condition 20 (*Further Issues*).

Purpose

The proceeds of each Loan may only be used by the Group Borrower for on-lending by the Group Borrower to the Borrowers to be used by the Borrowers only in accordance with their respective Constitutional Documents or as otherwise set out in the applicable Unsecured Loan Transaction Terms. No member of the Sanctuary Group may be a Borrower unless it is an Original Borrower or has complied with the requirements set out in "*Addition of Borrowers and Guarantors*" below (the Original Borrowers and such additional members of the Sanctuary Group being in such capacity, together, the **Guarantors** and, together with the Group Borrower, the **Loan Obligors**).

If the Notes of the relevant Series in connection with which an Unsecured Loan Agreement was entered into are specified as "Social Bonds", "Green Bonds" or "Sustainability Bonds" in the applicable Pricing Supplement, the applicable Unsecured Loan Transaction Terms may specify further provisions in respect of the permitted use of proceeds of the relevant Loan.

Interest

Rate of Interest

Following its advance, each Loan will carry interest from (and including) the date of its initial advance at the fixed rate or floating rate specified in the applicable Unsecured Loan Transaction Terms which will correspond with the rate of interest payable in respect of the related Series of Notes. Interest will be payable in arrear on each Loan Payment Date (being four Business Days prior to each Interest Payment Date in respect of the related Series of Notes).

Interest Periods

Notwithstanding the fact that interest is payable on each Loan Payment Date, interest will accrue on each Loan from (and including) an Interest Payment Date (or, in the case of the first interest period of a

Loan, the date of its initial advance) to (but excluding) the immediately following Interest Payment Date (each, a **Loan Interest Period**).

Commitment Fee

The Group Borrower shall pay to the Issuer a commitment fee in respect of the Undrawn Commitment on each Loan Payment Date in an amount equal to the interest payable by the Issuer under the Notes of the relevant Series on the following Interest Payment Date in respect of such Series less (a) the interest received from the Group Borrower under the relevant Unsecured Loan Agreement on such Loan Payment Date and (b) the interest otherwise received by the Issuer in respect of the Retained Proceeds in respect of such Series in the relevant Loan Interest Period (including, but not limited to, any income received by the Issuer in respect of any Permitted Investments in which any Retained Proceeds are, for the time being, invested). The commitment fee shall accrue on a daily basis.

Repayment, Purchase and Prepayment

Repayment

The Group Borrower must repay the Loan:

- (a) in full on the Final Maturity Date specified in the applicable Unsecured Loan Transaction Terms (being four Business Days prior to the Maturity Date in respect of the related Series of Notes); or
- (b) where Instalment Prepayment is specified as applicable in the applicable Unsecured Loan Transaction Terms, in an amount equal to each Instalment Amount payable by the Issuer in respect of the related Series of Notes on the date falling four Business Days prior to the corresponding Instalment Date in respect of the related Series of Notes.

Note Purchase Option

The Group Borrower, any Borrower and any other member of the Sanctuary Group (other than the Issuer) may at any time purchase Notes of any Series on the London Stock Exchange, by tender (available to all Noteholders alike) or by private treaty at any price.

Following any such purchase, the Group Borrower, such Borrower or such other member of the Sanctuary Group, as the case may be, may (but is not obliged to) surrender such Notes to the Issuer to be cancelled. An amount of the outstanding balance of the relevant Loan (provided that such Loan was funded by the issue proceeds of the relevant Series of Notes) equal to the principal amount of the Notes surrendered shall be deemed to be prepaid (or, to the extent that no Loan is then outstanding, then an amount of the relevant Undrawn Commitment equal to the principal amount of the Notes surrendered shall be deemed to be cancelled for the purposes of the relevant Unsecured Loan Agreement and a corresponding portion of the Retained Proceeds shall be paid by the Issuer to the Group Borrower, the relevant Borrower or such other member of the Sanctuary Group, as the case may be).

The Group Borrower shall acknowledge that the terms of the Note Trust Deed provide that any Notes which are for the time being held by or on behalf of, *inter alios*, the Group Borrower, a Borrower or any other member of the Sanctuary Group as beneficial owner shall be deemed not to remain outstanding for the purpose of, *inter alia*, the right to attend and vote at any meeting of the Noteholders.

Optional Prepayment – Group Borrower Call

If Group Borrower Call is specified as applicable in the applicable Unsecured Loan Transaction Terms, the Group Borrower may, at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the Final Retained Note Disposal Date (if applicable); and
- (b) before the Final Maturity Date specified in the applicable Unsecured Loan Transaction Terms,

by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Note Trustee, prepay the whole or (as the case may be) any part of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment and the relevant Prepayment Premium (being, for so long as any Notes of the relevant Series are outstanding, an amount equal to the excess (if any) of the amount notified to the Group Borrower by the Issuer as being the price determined under the Note Trust Deed for the redemption of a corresponding principal amount of the Notes of such Series over par).

Optional Prepayment – Maturity Call Par Option

If Maturity Call Par Option is specified as applicable in the applicable Unsecured Loan Transaction Terms, the Group Borrower may, at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the later of (i) Final Retained Note Disposal Date (if applicable) and (ii) the Call Option Date specified in the applicable Unsecured Loan Transaction Terms (provided, in the case of the Call Option Date, that such date shall be no earlier than 90 days before the Maturity Date); and
- (b) before the Final Maturity Date specified in the applicable Unsecured Loan Transaction Terms,

by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Note Trustee, prepay the whole or (as the case may be) any part of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment.

Optional Prepayment – Residual Call Option

If Residual Call Option is specified as applicable in the applicable Unsecured Loan Transaction Terms, the Group Borrower may, at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the later of Final Retained Note Disposal Date (if applicable); and
- (b) before the Final Maturity Date specified in the applicable Unsecured Loan Transaction Terms,

in the event that the aggregate outstanding principal amount of the related Series of Partly Secured Notes (being, where Instalment Redemption is specified as applicable in the applicable Pricing Supplement for such Partly Secured Notes, the original principal amount ignoring any previous redemption of principal in accordance with Condition 9.1(b) (*Redemption at maturity*)) is less than or equal to the Residual Call Option Percentage of the aggregate principal amount of the Partly Secured Notes of such Series issued, by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Note Trustee, prepay the whole of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment and the relevant Prepayment Premium.

Mandatory Prepayment – Redemption of Notes

If the Partly Secured Notes of the related Series become redeemable prior to their Maturity Date, other than as a result of a prepayment or termination of the Unsecured Loan Agreement, the Group Borrower shall prepay, at least one Business Day prior to the relevant date of redemption of such Partly Secured Notes, the outstanding balance of the Loan funded by the issue proceeds of such Series of Partly Secured Notes, together with accrued interest and accrued commitment fee thereon up to and including the date of redemption.

Mandatory Prepayment – Cancellation of Status

The Group Borrower shall promptly notify the Issuer and the Note Trustee if any Borrower ceases to be a Registered Provider of Social Housing or a Registered Social Landlord, as applicable. Within 180 days of such notification, the Group Borrower shall (subject as follows) prepay the whole of the outstanding balance of the Loan, together with any interest and commitment fee accrued up to and including the date of prepayment, provided, however, that if such Borrower regains its status as a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, or ceases to be a Borrower as described in "*Resignation of Borrowers and Guarantors*" below, within such period of 180 days, it shall no longer be required to prepay the Loan.

For the avoidance of doubt, the Group Borrower shall not be required to prepay the Loan as required above in the event that a Borrower ceases to be a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, following, or as part of, a Permitted Reorganisation or resulting from a transfer of all of its assets and liabilities (including its obligations as a Borrower) to another Borrower which is itself a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, and as a result of such Permitted Reorganisation or transfer has itself ceased to be a Borrower.

Redemption of Notes – Further Payment in Respect of Retained Proceeds Par Amount

In the event that the Group Borrower elects to, or is otherwise required to, prepay the whole of the outstanding balance of the Loan and the Issuer is required to notify the Group Borrower of the price determined under the Conditions for the redemption of a corresponding principal amount of the related Series of Notes, then the Issuer shall be entitled to also take account of the redemption of such principal amount of the Notes of such Series that shall correspond to the Retained Proceeds Par Amount (being an amount equal to the Retained Proceeds including, where any Retained Proceeds are invested in Permitted Investments, the purchase price of the relevant Permitted Investments and ignoring, for these purposes, any increase or decrease in such Retained Proceeds as a result of gains or losses in respect of such Permitted Investments and/or any discount on a sale of Retained Notes by the Issuer), and the price notified to the Group Borrower shall be increased accordingly.

Warranties and Covenants in respect of Secured Loan Agreements

The Group Borrower will make various warranties and covenants in accordance with the Unsecured Loan Agreement Standard Terms. These warranties and covenants include (or will include, as the case may be), *inter alia*, the following:

Information Covenants

The Group Borrower must supply to the Issuer and the Note Trustee not later than 180 days after the end of each relevant financial year:

(a) copies of the audited financial statements of the Group Borrower, the Group Parent and each Borrower (consolidated if available) for such financial year; and

(b) a certificate setting out, among other things, calculations in respect of the unencumbered assets test substantially in the form set out in Schedule 2 to the Unsecured Loan Agreement Standard Terms (the **Compliance Certificate**) signed by two Authorised Signatories of the Group Borrower.

Intra-group Facility Agreements

The Group Borrower shall undertake to ensure that:

- (a) a sufficient rate of interest is charged under the Intra-group Facility Agreements (taken as a whole) to ensure that it is able to meet its obligation to pay interest under, *inter alia*, the Loan Agreement;
- (b) the terms of any on-lending by the Group Borrower pursuant to the Intra-group Facility Agreements (including, for the avoidance of doubt, in respect of the on-lending of any actual advance amount which is less than the principal amount of the relevant drawing under, *inter alia*, the Loan Agreement) shall be such that the Group Borrower is able to meet its obligation to repay principal under, *inter alia*, the Loan Agreement; and
- (c) all amounts received by it pursuant to an Intra-group Facility Agreement shall be paid into a Receipts Account.

Negative Pledge

The Group Borrower shall not create or allow to exist any Security Interest on any assets which are Group Borrower Security Assets, except as set out in the Unsecured Loan Agreement Standard Terms which includes the Security Interests created pursuant to the Group Borrower Security Agreement and any Security Interests created with the prior written consent of the Issuer or by operation of law.

Unencumbered Assets Test

The Group Borrower shall procure that, for so long as any of the Partly Secured Notes remain outstanding, in respect of each Financial Year, the Aggregate Net Unencumbered Value shall exceed 125 per cent. of Total Unsecured Debt.

Interpretation

For these purposes:

Aggregate Net Unencumbered Value means, in respect of each Financial Year, the sum of:

- (a) the Value of Housing Properties; plus
- (b) the properties held for sales and inventory (including units held and under construction) of the Borrowers; plus
- (c) the value of investment properties (as reflected in the financial statements) of the Borrowers; plus
- (d) the amount of cash and cash equivalents (as reflected in the financial statements) of the Borrowers;

(in each case without double counting) less

- (e) the aggregate amount of any unamortised Housing Properties grant liability (as reflected in the financial statements) of the Borrowers; and
- (f) the Total Secured Debt,

in each case, converted (where necessary) into Sterling at such rate or rates, in accordance with such method and as at such date for determination as the Group Borrower may agree with the Note Trustee.

Total Secured Debt means, in respect of each Financial Year, the sum of the aggregate amount of all drawn secured borrowings of the Borrowers plus the aggregate amount of all secured mark to market exposures under hedging agreements of the Borrowers plus the aggregate amount of any similar indebtedness that is secured, in each case as determined by reference to the accounts for that Financial Year and shown as separate clearly identifiable items or confirmed by way of an Authorised Signatories' certificate and, in each case, converted (where necessary) into Sterling at such rate or rates, in accordance with such method and as at such date for determination as the Borrowers may agree with the Note Trustee.

Total Unsecured Debt means, in respect of each Financial Year, the sum of the aggregate amount of all drawn unsecured borrowings of the Borrowers plus the aggregate amount of all unsecured mark to market exposures under hedging agreements of the Borrowers plus the aggregate amount of any similar indebtedness that is not secured, in each case as determined by reference to the accounts for that Financial Year as separate clearly identifiable items or confirmed by way of an Authorised Signatories' certificate and, in each case, converted (where necessary) into Sterling at such rate or rates, in accordance with such method and as at such date for determination as the Borrowers may agree with the Note Trustee.

Value of Housing Properties means, at any time:

- (a) for the Original Borrowers and any Additional Borrowers which prepare financial statements in accordance with UK-adopted international accounting standards (IFRS), the aggregate of the following (from the relevant Property, Plant and Equipment Note to the financial statements): Land and Buildings at Cost, Land and Buildings Shared Ownership at Cost, Under construction at Cost, and Shared Ownership Under Construction at Cost as shown in the accounts for that Financial Year; or
- (b) for Swan and any Additional Borrowers which prepare financial statements accordance with FRS 102 the aggregate of the following (from the relevant Tangible Fixed Assets – Housing Properties Note to the financial statements): General / Special Needs at Cost, Completed Shared Ownership Properties at Cost, Completed NHS Keyworker at Cost, and Under construction at Cost as shown in the accounts for that Financial Year,

in each case, as shown in the accounts for that Financial Year, or confirmed by way of an Authorised Signatories' certificate addressed to the Lender if and to the extent that the relevant accounts do not already include or provide such details as a separate clearly identifiable item.

Loan Events of Default and Enforcement

Borrower Default

Each of the following (set out in more detail in the Unsecured Loan Agreement Standard Terms) is a **Borrower Default**:

- (a) Non-payment: A Loan Obligor does not pay on the due date any amount payable by it under the Finance Documents in the manner required under the Finance Documents, unless the nonpayment continues for a period of not more than seven days in the case of principal and not more than 14 days in the case of interest.
- (b) Breach of other obligations: A Loan Obligor fails to perform or observe any of its obligations under the Finance Documents (other than as referred to in (a) above and (k) below) and (except in any case where, in the opinion of the Note Trustee, the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by the Note Trustee on such Loan Obligor of notice requiring the same to be remedied.

(c) Other non-payment:

- Any other present or future indebtedness of a Loan Obligor for or in respect of moneys borrowed or raised becomes due and payable prior to its stated maturity by reason of any actual default, event of default or the like (howsoever described);
- (ii) any such indebtedness is not paid when due or, as the case may be, within any originally applicable grace period; or
- (iii) a Loan Obligor fails to pay when due any amount payable by it under any present or future guarantee for, or indemnity in respect of, any moneys borrowed or raised,

provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events mentioned in (i), (ii) or (iii) above in this paragraph (c) have occurred equals or exceeds £15,000,000 or its equivalent in other currencies (as reasonably determined by the Note Trustee) (and provided further, for the avoidance of doubt, that the amounts mentioned in (i), (ii) or (iii) above in this paragraph (c) shall exclude the amount of any Public Sector Subsidy except for any Public Sector Subsidy which is or becomes due and payable to the relevant grant making body or organisation).

- (d) *Winding-up*: Any order is made by any competent court or resolution passed for the winding up or dissolution of a Loan Obligor save for the purposes of a Permitted Reorganisation or a reorganisation on terms previously approved in writing by the Note Trustee.
- (e) Cessation of Business: A Loan Obligor ceases or threatens to cease to carry on the whole or, as determined by the Note Trustee, substantially the whole of its business, save for the purposes of a Permitted Reorganisation or a reorganisation on terms previously approved in writing by the Note Trustee.
- (f) Failure or inability to pay debts: A Loan Obligor stops or threatens to stop payment of, or is unable to, or admits inability to, pay, its debts (or any class of its debts) as they fall due, or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is adjudicated or found bankrupt or insolvent.

- (g) **Insolvency**: Any of the insolvency related events occurs or proceedings are taken as referred to the Unsecured Loan Agreement Standard Terms (which exclude any Permitted Reorganisation or reorganisation on terms previously approved in writing by the Note Trustee).
- (h) Insolvency Proceedings: A Loan Obligor initiates or consents to the proceedings referred to in the Unsecured Loan Agreement Standard Terms (which exclude, or will exclude, any Permitted Reorganisation or reorganisation on terms previously approved in writing by the Note Trustee).
- (i) Arrangement with creditors: A Loan Obligor makes a conveyance or assignment for the benefit of, or enters into any composition or other arrangement with, its creditors generally (or any class of its creditors) or any meeting is convened to consider a proposal for an arrangement or composition with its creditors generally (or any class of its creditors) (which exclude any Permitted Reorganisation or reorganisation on terms previously approved in writing by the Note Trustee).
- (j) **Unlawfulness**: It is or becomes unlawful for a Loan Obligor to perform any of its material obligations under the Finance Documents to which they are, respectively, a party.
- (k) Breach of the Unencumbered Assets Test: The Group Borrower fails to perform its obligations under Clause 9 (Unencumbered Assets Test) of the Unsecured Loan Agreement Standard Terms.

For these purposes, **Permitted Reorganisation** means any amalgamation, merger, consolidation or transfer of engagements (whether entering into or acceptance thereof) of the whole of a Loan Obligor's property (including, for the avoidance of doubt, any statutory procedure as provided for under the Cooperative and Community Benefit Societies Act 2014 (if applicable)) made between such Loan Obligor (**Party A**) and any other entity (**Party B**) provided that (i) Party B is a Registered Provider of Social Housing or a Registered Social Landlord and any new amalgamated entity to be created as a result thereof will be a Registered Provider of Social Housing or a Registered Social Landlord; (ii) following any such amalgamation, merger, consolidation or transfer of engagements in respect of which the property of Party A (including, for the avoidance of doubt, any liabilities) shall become vested in Party B or a new amalgamated entity, Party B or such new amalgamated entity will thereafter be responsible for all the liabilities of Party A pursuant to the Co-operative and Community Benefit Societies Act 2014 or otherwise; and (iii) a certificate executed by two authorised signatories of Party A or Party B confirming the above is provided to the Note Trustee.

Obligation to Notify the Issuer and the Note Trustee

The Group Borrower shall (and shall procure that each Borrower shall) notify the Issuer and the Note Trustee of any Group Borrower Default (and the steps, if any, being taken to remedy it) or Potential Group Borrower Default in respect of an Unsecured Loan Agreement promptly upon becoming aware of the same. The Issuer shall also notify the Note Trustee of any Group Borrower Default or Potential Group Borrower Default promptly upon becoming aware of the same (unless the Issuer is aware that a notification has already been provided by Group Borrower or a Borrower) including, but not limited to, the non-payment by the Loan Obligors of any amounts owing to the Issuer under its Unsecured Loan Agreement on the due date for payment thereof.

Group Borrower Default Notice

Following the occurrence of a Group Borrower Default (but in the case of the happening of any of the events described in paragraphs (b) (*Breach of other obligations*), (c) (*Other non-payment*) and (j)

(*Unlawfulness*) above, only if the Note Trustee shall have certified in writing to the Group Borrower that such event is, in its opinion, materially prejudicial to the interests of the Issuer), the Issuer may declare by notice to the Group Borrower either:

- (a) that the security under the Group Borrower Security Agreement has become, whereupon such security shall become, immediately enforceable (and the Issuer shall notify the Security Trustee of the same in accordance with Clause 7 (*Default procedure*) of the Security Trust Deed); and/or
- (b) (irrespective of whether a notice to the effect set out in (a) shall have already been given) that the Loan has become due and repayable, whereupon the Loan shall become immediately due and repayable at the outstanding balance thereof together with accrued interest, premium (if any) and any other amounts and the security therefor shall become immediately enforceable.

Enforcement

If the security constituted under the Group Borrower Security Agreement becomes enforceable as a result of the service of a notice pursuant to Clause 11.4 of the Unsecured Loan Agreement Standard Terms, then the Note Trustee shall hold the moneys arising from the enforcement thereof following distribution in accordance with the Security Trust deed upon trust to apply the same:

- (a) first, in or towards payment to the Issuer of all interest then due and remaining unpaid on the Loan and all commitment fees then due and remaining unpaid;
- (b) second, in or towards payment to the Issuer of all principal and premium (if any) then due and remaining unpaid in respect of Loan; and
- (c) third, in or towards payment to the Issuer of all other amounts then due and remaining unpaid under the relevant Unsecured Loan Agreement.

Addition and Resignation of Borrowers and Guarantors

Addition of Borrowers and Guarantors

The Group Borrower may procure that any member of the Sanctuary Group becomes a Borrower if such member of the Sanctuary Group:

- (a) has charitable (or exempt charitable) status;
- (b) is a Registered Provider of Social Housing or a Registered Social Landlord; and
- (c) has acceded to the Deed of Guarantee as a guarantor,

and all other Borrower consent to such member becoming a Borrower.

Resignation of Borrowers and Guarantors

A Borrower may cease to be a Borrower and a Guarantor, upon request by the Group Borrower, provided that:

- (a) the Borrower has no outstanding payment obligations under any Intra-group Facility Agreement;
- (b) the Group Borrower confirms that the Unencumbered Assets Test will not be breached by reason of the resignation of such Borrower;

- (c) such resignation will not adversely affect the then current credit rating of the related Series of Notes; and
- (d) no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing.

Taxes

The Group Borrower must make all payments to be made by it to the Issuer under, *inter alia*, the Unsecured Loan Agreements without any deduction or withholding for or on account of tax, unless a deduction or withholding is required by law.

If a deduction or withholding from any such payment is required by law to be made by the Group Borrower, the amount of the payment due shall be increased to an amount which (after making such deduction or withholding) leaves an amount equal to the payment which would have been due if no deduction or withholding had been required.

If, as a result of any actual or proposed change in tax law, the Issuer determines (in its reasonable commercial judgement) that it would on the next following Interest Payment Date be required to make a withholding or deduction in respect of payments to be made by the Issuer to the Noteholders of the relevant Series of Partly Secured Notes pursuant to the Conditions (other than in respect of a Noteholder Specific Withholding), it shall notify the Group Borrower of the same. The Group Borrower may (but, for the avoidance of doubt, shall not be obliged to), in its sole discretion, pay to the Issuer such additional amounts as will enable the Issuer (after such withholding or deduction) to pay to the Noteholders the amounts of principal and interest which they would have received in respect of the Notes in the absence of such withholding or deduction. The Group Borrower shall continue to pay such additional amounts to the Issuer unless and until the Group Borrower delivers to the Issuer a notice stating that it shall cease to make such additional payments with effect from the next following Interest Payment Date.

Governing Law

Each Unsecured Loan Agreement, and any non-contractual obligations or matters arising from or connected with it, are governed by and shall be construed in accordance with English law.

Description of the Secured Loan Agreements

The following description of the Secured Loan Agreements consists of a summary of certain provisions of the Secured Loan Agreements and is qualified by reference to the detailed provisions thereof. The Secured Loan Agreements are not, however, incorporated by reference into, and therefore do not form part of, these Programme Admission Particulars.

Definitions used in this section but not otherwise defined in these Programme Admission Particulars have the meanings given to them in the Secured Loan Agreements.

Secured Loan Agreements

Each Secured Loan Agreement will be comprised of:

- (a) the Secured Loan Agreement Standard Terms dated 4 April 2025 and signed for identification by the Issuer, the Group Borrower and the Security Trustee; and
- (b) a Secured Loan Transaction Terms to be dated on or around the relevant Issue Date of the related Series of Notes between the Issuer, the Group Borrower and the Security Trustee.

Facility

The Issuer shall enter into a Secured Loan Agreement in respect of each Series of Fully Secured Notes with a Commitment equal to the aggregate principal amount of the relevant Series of Fully Secured Notes.

Drawings

The Commitment under an Secured Loan Agreement may be drawn in one or more drawings and the maximum principal amount of each drawing shall be an amount which corresponds to the Minimum Value of the Apportioned Properties multiplied by the Series Security Percentage (in each case as at the date of such drawing and relating to such Secured Loan Agreement), less the amount of the Commitment in respect of such Secured Loan Agreement which has previously been drawn.

The initial drawing of any Initial Commitment shall be advanced at par, a discount or a premium in an amount equal to the nominal amount of such drawing multiplied by the Issue Price of the Notes of the related Series (and, for the avoidance of doubt, the difference between the nominal amount of such drawing and the actual advance amount thereof shall be ignored in determining the amount of the Loan under the Secured Loan Agreement and, *inter alia*, the calculation of interest, principal and premium payments payable in respect thereon).

No Commitment may be drawn by the Group Borrower until it has satisfied the conditions set out in Clause 2.3 (*Facility*) of the Secured Loan Agreement Standard Terms in respect of the first drawing in respect of a Secured Loan Agreement and the conditions set out in Clause 10.1 (*Addition, Substitution and Release of Apportioned Properties*) of the Secured Loan Agreement Standard Terms in respect of any subsequent drawings of amounts of the relevant Commitment which exceed the Minimum Value of the Apportioned Properties multiplied by the Series Security Percentage.

In addition, the Issuer and the Group Borrower will be required to acknowledge that any drawing of the Commitment shall be subject to the Security Trustee being satisfied (based solely on the relevant confirmation from the Group Borrower of the Minimum Value of the Apportioned Properties multiplied by the Series Security Percentage (which itself shall be evidenced by the relevant Valuation), which the

Security Trustee is entitled to rely upon without further enquiry or investigation in respect thereof) that the relevant Asset Cover Test is satisfied immediately following such drawing.

The Group Borrower will be required to acknowledge that the Issuer may invest all or any part of the Retained Proceeds in Permitted Investments in accordance with the Custody Agreement and that, as a result of:

- (a) any losses made by the Issuer in respect of such Permitted Investments; and/or
- (b) any issue or sale of Notes by the Issuer made at a discount to the principal amount of such Notes,

the amount of Retained Proceeds held by the Issuer, at the time of any drawdown request, may be less than the Undrawn Commitment which is to be funded from such Retained Proceeds. In such circumstances, each drawing to be funded from the Retained Proceeds shall be advanced in an amount equal to the Actual Advance Amount (which may be at a discount to the principal amount requested).

For this purpose, **Actual Advance Amount** means, in respect of each drawing of the Commitment, the lesser of:

- (a) the principal amount of such drawing multiplied by:
 - (i) in the case of a drawing which is to be funded by the sale of Original Notes or Further Notes (other than Retained Notes), the issue price of such Original Notes or Further Notes, as applicable; and
 - (ii) in the case of a drawing which is to be funded by the sale of Retained Notes, the sale price of such Retained Notes; and
- (b) the principal amount of such drawing multiplied by the result of dividing:
 - the amount of Retained Proceeds held by the Issuer at the time of the drawdown request (for the avoidance of doubt, after taking into account any losses suffered by the Issuer as a result of investing in Permitted Investments but, for this purpose, excluding any Permitted Investment Profit), by
 - (ii) the Undrawn Commitment which is to be funded from such Retained Proceeds.

For the avoidance of doubt:

- (a) the Group Borrower shall not be required to monitor or verify the market value of any Permitted Investments or the Retained Notes;
- (b) any difference between the principal amount of a drawing and the relevant Actual Advance Amount shall be ignored in determining the amount of the Loan and, *inter alia*, the calculation of interest, principal and premium payments payable in respect thereon; and
- (c) any income received by the Issuer in respect of Permitted Investments shall not be credited to the Series Initial Cash Security Account in respect of the relevant Series but shall instead be credited to the Series Transaction Account in respect of the relevant Series in accordance with the Account Agreement.

The Group Borrower shall agree that:

- (a) where the Issuer is required to sell any Permitted Investments to fund a drawing under the Secured Loan Agreement and such sale results in a Permitted Investment Profit, the Issuer may (at its discretion and at such time as it thinks fit) make a Gift Aid Payment to a Charitable Group Member in an amount equal to the Permitted Investment Profit and, for the avoidance of doubt, such drawing shall be advanced at the Actual Advance Amount (provided that such right exists only to the extent that there are distributable reserves available for such purpose in the Issuer and, prior to taking into account the Gift Aid Payment, the Issuer has taxable profits for corporation tax purposes in the accounting period in which the Gift Aid Payment is or would but for this paragraph (a) otherwise be made or treated as made by section 199 of the Corporation Tax Act 2010); and
- (b) immediately prior to the end of each accounting period, to the extent that the Issuer would otherwise be required to recognise a profit for tax purposes in respect of its Permitted Investments and/or Retained Notes as a result of the movement in the fair value recognised in its accounts of such Permitted Investments and/or Retained Notes for that accounting period, the Issuer shall sell Permitted Investments in an aggregate amount equal to the amount required to offset or discharge any corporation tax liability (either by the payment of such corporation tax liability or by making a Gift Aid Payment to a Charitable Group Member) in respect of the Accounting Profit and may (at its discretion), in the same accounting period or such later period permitted under section 199 of the Corporation Tax Act 2010, make a Gift Aid Payment to a Charitable Group Member in an amount equal to the Accounting Profit (provided that such right only exists to the extent that there are distributable reserves available for such purpose in the Issuer and, prior to taking into account of the Gift Aid Payment, the Issuer has taxable profits for corporation tax purposes in the accounting period in which the Gift Aid Payment is or would but for this paragraph (b) otherwise be made or treated as made by section 199 of the Corporation Tax Act 2010).

The Group Borrower shall agree, to the extent that any Retained Notes are issued in respect of the relevant Series, that, where the Issuer is required to sell any Retained Notes in order to fund a drawdown request, the Issuer's obligations to fund such drawdown will be subject to the ability of the Issuer to sell such Retained Notes to a third party.

For so long as any Retained Notes in respect of a Series are held by or on behalf of the Issuer, the Group Borrower may request that an amount of the Commitment under the Secured Loan Agreement entered into in connection with that Series be cancelled (provided that such amount does not exceed the principal amount of Retained Notes held by or on behalf of the Issuer at that time). As soon as practicable following any such request, the Issuer shall cancel Retained Notes in a corresponding amount. Such cancellation of the relevant Commitment shall take effect upon the cancellation of such Retained Notes.

Subject to the conditions precedent set out in Clause 4.1 (*Request for Further Commitments*) of the Secured Loan Agreement Standard Terms, the Issuer may make further commitments to the Group Borrower under a Secured Loan Agreement, each in an amount to be agreed between the Issuer, the Group Borrower and the Security Trustee, following the issuance of further notes of the Series in respect of which the Secured Loan Agreement was entered into in connection with pursuant to Condition 20 (*Further Issues*).

Purpose

The proceeds of each Loan may only be used by the Group Borrower for on-lending by the Group Borrower to the Borrowers to be used by such Borrower only in accordance with their Constitutional Documents or as otherwise set out in the applicable Secured Loan Transaction Terms. No member of the Sanctuary Group may be a Borrower unless it is an Original Borrower or has complied with the requirements set out in "*Addition of Borrowers and Guarantors*" below (the Original Borrowers and such additional members of the Sanctuary Group being in such capacity, together, the **Guarantors** and, together with the Original Borrower, the **Loan Obligors**).

If the Notes of the relevant Series in connection with which a Secured Loan Agreement was entered into are specified as "Social Bonds", "Green Bonds" or "Sustainability Bonds" in the applicable Pricing Supplement, the applicable Secured Loan Transaction Terms may specify further provisions in respect of the permitted use of proceeds of the relevant Loan.

Interest

Rate of Interest

Following its advance, each Loan will carry interest from (and including) the date of its initial advance at the fixed rate or floating rate specified in the applicable Secured Loan Transaction Terms which will correspond with the rate of interest payable in respect of the related Series of Notes. Interest will be payable in arrear on each Loan Payment Date (being four Business Days prior to each Interest Payment Date in respect of the related Series of Notes).

Interest Periods

Notwithstanding the fact that interest is payable on each Loan Payment Date, interest will accrue on each Loan from (and including) an Interest Payment Date (or, in the case of the first interest period of a Loan, the date of its initial advance) to (but excluding) the immediately following Interest Payment Date (each, a **Loan Interest Period**).

Commitment Fee

The Group Borrower shall pay to the Issuer a commitment fee in respect of the Undrawn Commitment on each Loan Payment Date in an amount equal to the interest payable by the Issuer under the Notes of the relevant Series on the following Interest Payment Date in respect of such Series less (a) the interest received from the Group Borrower under the relevant Secured Loan Agreement and (b) the interest otherwise received by the Issuer in respect of the Retained Proceeds in respect of such Series in the relevant Loan Interest Period (including, but not limited to, any income received by the Issuer in respect of any Permitted Investments in which any Retained Proceeds are, for the time being, invested). The commitment fee shall accrue on a daily basis.

Repayment, Purchase and Prepayment

Repayment

The Group Borrower must repay the Loan:

 (a) in full on the Final Maturity Date specified in the applicable Secured Loan Transaction Terms (being four Business Days prior to the Maturity Date in respect of the related Series of Notes); or (b) where Instalment Prepayment is specified as applicable in the applicable Secured Loan Transaction Terms, in an amount equal to each Instalment Amount payable by the Issuer in respect of the related Series of Fully Secured Notes on the date falling four Business Days prior to the corresponding Instalment Date in respect of the related Series of Notes).

Note Purchase Option

The Group Borrower, any Borrower and any other member of the Sanctuary Group (other than the Issuer) may at any time purchase Fully Secured Notes of any Series on the London Stock Exchange, by tender (available to all Noteholders alike) or by private treaty at any price.

Following any such purchase, the Group Borrower, such Borrower or such other member of the Sanctuary Group, as the case may be, may (but is not obliged to) surrender such Fully Secured Notes to the Issuer to be cancelled. An amount of the outstanding balance of the relevant Loan (provided that such Loan was funded by the issue proceeds of the relevant Series of Fully Secured Notes) equal to the principal amount of the Fully Secured Notes surrendered shall be deemed to be prepaid (or, to the extent that no Loan is then outstanding, then an amount of the relevant Undrawn Commitment equal to the principal amount of the Fully Secured Notes surrendered shall be deemed to be cancelled for the purposes of the relevant Secured Loan Agreement and a corresponding portion of the Retained Proceeds shall be paid by the Issuer to the Group Borrower, such Borrower or such other member of the Sanctuary Group, as the case may be).

The Group Borrower shall acknowledge that the terms of the Note Trust Deed provide that any Fully Secured Notes which are for the time being held by or on behalf of, *inter alios*, the Group Borrower, a Borrower or any other member of the Sanctuary Group as beneficial owner shall be deemed not to remain outstanding for the purpose of, *inter alia*, the right to attend and vote at any meeting of the Noteholders.

Optional Prepayment – Group Borrower Call

If Group Borrower Call is specified as applicable in the applicable Secured Loan Transaction Terms, the Group Borrower may, at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the Final Retained Note Disposal Date (if applicable); and
- (b) before the Final Maturity Date specified in the applicable Secured Loan Transaction Terms,

by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Security Trustee, prepay the whole or (as the case may be) any part of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment and the relevant Prepayment Premium (being, for so long as any Fully Secured Notes of the relevant Series are outstanding, an amount equal to the excess (if any) of the amount notified to the Group Borrower by the Issuer as being the price determined under the Note Trust Deed for the redemption of a corresponding principal amount of the Fully Secured Notes of such Series over par).

Optional Prepayment – Maturity Call Par Option

If Maturity Call Par Option is specified as applicable in the applicable Secured Loan Transaction Terms, the Group Borrower may, at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the later of (i) Final Retained Note Disposal Date (if applicable) and (ii) the Call Option Date specified in the applicable Secured Loan Transaction Terms (provided, in the case of the Call Option Date, that such date shall be no earlier than 90 days before the Maturity Date); and
- (b) before the Final Maturity Date specified in the applicable Secured Loan Transaction Terms,

by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Security Trustee, prepay the whole or (as the case may be) any part of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment.

Optional Prepayment – Residual Call Option

If Residual Call Option is specified as applicable in the applicable Secured Loan Transaction Terms, the Group Borrower may at any time (or, where interest on the Loan is payable on a floating rate, any Loan Payment Date):

- (a) on or after the later of Final Retained Note Disposal Date (if applicable); and
- (b) before the Final Maturity Date specified in the applicable Secured Loan Transaction Terms,

in the event that the aggregate outstanding principal amount of the related Series of Fully Secured Notes (being, where Instalment Redemption is specified as applicable in the applicable Pricing Supplement for such Fully Secured Notes, the original principal amount ignoring any previous redemption of principal in accordance with Condition 9.1(b) (*Redemption at maturity*)) is less than or equal to the Residual Call Option Percentage of the aggregate principal amount of the Notes of such Series issued, by giving not less than 30 nor more than 60 days' notice in writing to the Issuer and the Security Trustee, prepay the whole of the outstanding balance of the Loan, together with any interest accrued up to and including the date of prepayment and the relevant Prepayment Premium.

Mandatory Prepayment – Redemption of Notes

If the Fully Secured Notes of the related Series become redeemable prior to their Maturity Date, other than as a result of a prepayment or termination of the Secured Loan Agreement, the Group Borrower shall prepay, at least one Business Day prior to the relevant date of redemption of such Notes, the outstanding balance of the Loan funded by the issue proceeds of such Series of Notes, together with accrued interest and accrued commitment fee thereon up to and including the date of redemption.

Mandatory Prepayment – Cancellation of Status

The Group Borrower shall promptly notify the Issuer and the Security Trustee if a Borrower ceases to be a Registered Provider of Social Housing or a Registered Social Landlord, as applicable. Within 180 days of such notification, the Group Borrower shall (subject as follows) prepay the whole of the outstanding balance of the Loan, together with any interest and commitment fee accrued up to and including the date of prepayment, provided, however, that if such Borrower regains its status as a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, or ceases to be a Borrower as described in "*Resignation of Borrowers and Guarantors*" below, within such period of 180 days, it shall no longer be required to prepay the Loan.

For the avoidance of doubt, the Group Borrower shall not be required to prepay the Loan as required above in the event that a Borrower ceases to be a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, following, or as part of, a Permitted Reorganisation or resulting from a transfer of all of its assets and liabilities (including its obligations as a Borrower) to another Borrower

which is itself a Registered Provider of Social Housing or a Registered Social Landlord, as applicable, and as a result of such Permitted Reorganisation or transfer has itself ceased to be a Borrower.

Redemption of Notes – Further Payment in Respect of Retained Proceeds Par Amount

In the event that the Group Borrower elects to, or is otherwise required to, prepay the whole of the outstanding balance of the Loan and the Issuer is required to notify the Group Borrower of the price determined under the Conditions for the redemption of a corresponding principal amount of the related Series of Fully Secured Notes, then the Issuer shall be entitled to also take account of the redemption of such principal amount of the Fully Secured Notes of such Series that shall correspond to the Retained Proceeds Par Amount (being an amount equal to the Retained Proceeds including, where any Retained Proceeds are invested in Permitted Investments, the purchase price of the relevant Permitted Investments and ignoring, for these purposes, any increase or decrease in such Retained Proceeds as a result of gains or losses in respect of such Permitted Investments and/or any discount on a sale of Retained Notes by the Issuer), and the price notified to the Group Borrower shall be increased accordingly.

Warranties and Covenants

The Group Borrower will make various warranties and covenants in accordance with the Secured Loan Agreement Standard Terms. These warranties and covenants include (or will include, as the case may be), *inter alia*, the following:

Information Covenants

The Group Borrower must supply to the Issuer and the Security Trustee not later than 180 days after the end of each relevant financial year:

- (a) copies of the audited financial statements of the Group Borrower, the Group Parent and each Borrower (consolidated if available) for such financial year; and
- (b) a certificate setting out, among other things, calculations in respect of the asset cover ratio substantially in the form set out in Schedule 2 to the Secured Loan Agreement Standard Terms (the **Compliance Certificate**) signed by two Authorised Signatories of the Group Borrower.

Intra-group Facility Agreements

The Group Borrower undertakes to ensure that:

- (a) a sufficient rate of interest is charged under the Intra-group Facility Agreements (taken as a whole) to ensure that the Group Borrower is able to meet its obligation to pay interest under, *inter alia*, the Loan Agreement;
- (b) the terms of any on-lending by the Group Borrower pursuant to the Intra-group Facility Agreements (including, for the avoidance of doubt, in respect of the on-lending of any actual

advance amount which is less than the principal amount of the relevant drawing under, *inter alia*, the Loan Agreement) shall be such that the Group Borrower is able to meet its obligation to repay principal under, *inter alia*, the Loan Agreement; and

(c) all amounts received by it pursuant to an Intra-group Facility Agreement shall be paid into a Receipts Account.

Negative Pledge

The Group Borrower shall procure that no Loan Obligor shall create or allow to exist any Security Interest on any assets which are Security Assets, except as set out in the Secured Loan Agreement Standard Terms which includes the Security Interests created pursuant to, *inter alia*, the Security Trust Deed, the Group Borrower Security Agreement and Security Agreements and any Security Interests created with the prior written consent of the Issuer or by operation of law.

Charged Properties

The Group Borrower shall procure that each Borrower obtains any authorisation or licence required in order to enable the Security Trustee pursuant to the powers of enforcement conferred on it by the Security Documents to sell vacant Apportioned Properties and maintain insurances on and in relation to its Apportioned Properties.

Covenants

The Group Borrower shall (unless the Security Trustee otherwise agrees in writing) procure that each Borrower complies in all material respects with any covenants or restrictive covenants relating to an Apportioned Property which are binding on it.

Asset Cover Ratio

The Group Borrower shall procure that at all times the sum of:

- (a) the Minimum Value of Apportioned Properties multiplied by the Series Security Percentage;
- (b) the Retained Proceeds Par Amount; and
- (c) the Charged Cash,

in each case, in respect of the related Series of Fully Secured Notes, will not be less than the Funded Commitment, provided however, that from and including the Final Charging Date, the Retained Proceeds Par Amount shall be deemed to be zero for the purpose of determining the Group Borrower's compliance with the Asset Cover Test.

Interpretation

For these purposes:

Apportioned Properties means:

(a) where Numerical Apportionment Basis is specified in the applicable Loan Transaction Terms, unless and until the Charged Properties securing the obligations of the Group Borrower under the Secured Loan Agreement entered into in connection with the same Series of Fully Secured Notes (or the obligations of the Guarantors under the Deed of Guarantee in respect of such Secured Loan Agreement) are apportioned, at such time, on the Specific Apportionment Basis following a request of the Issuer in the limited circumstances permitted in the Security Trust Deed, the Units comprising the Residual Properties (as defined in the Security Trust Deed); and

(b) where Specific Apportionment Basis is specified in the applicable Secured Loan Transaction Terms or in the event that the Charged Properties securing the obligations of the Group Borrower under the Secured Loan Agreement entered into in connection with the same Series of Fully Secured Notes (or the obligations of the Guarantors under the Deed of Guarantee in respect of such Secured Loan Agreement) are apportioned, at such time, on the Specific Apportionment Basis following a request of the Issuer in the limited circumstances permitted in the Security Trust Deed, such of the Units comprising the Charged Properties as have been allocated in respect of the Secured Loan Agreements entered into in connection with the same Series of Fully Secured Notes pursuant to the Security Trust Deed from time to time;

EUV-SH means a valuation made on the basis of existing use value for social housing ("EUV-SH") as defined by the RICS at UK VPGA 7 of the RICS Valuation – Global Standards 2017 UK National Supplement (or, if a subsequent edition of the RICS Valuation Standards has been published at the relevant time, the relevant valuation standard of the then most recently published edition of the RICS Valuation Standards) or, if the RICS Valuation Standards are no longer published at such time, on a basis agreed between the Group Borrower, the Issuer, the Security Trustee and a Valuer, and **EUV-SH Apportioned Properties** shall be construed accordingly;

Final Charging Date means:

- (a) in relation to the Initial Commitment in respect of a Secured Loan Agreement, the date specified as such in the applicable Secured Loan Transaction Terms (which is expected to be the date falling six months after the Issue Date in respect of the related Series of Fully Secured Notes); and
- (b) in relation to any further Commitments, the date (if any) as agreed between the Issuer, the Group Borrower and the Security Trustee;

Funded Commitment means, in respect of each Series of Fully Secured Notes, the amount of the Commitment under the Secured Loan Agreement entered into in connection with such Series, less the aggregate principal amount of Retained Notes of such Series held by or on behalf of the Issuer;

Minimum Value means, in relation to the Apportioned Properties in respect of the Secured Loan Agreements entered into in connection with any Series of Fully Secured Notes:

$$\left(\frac{A}{105} + \frac{B}{115}\right) x \ 100$$

A = the Value of the residential EUV-SH Apportioned Properties in respect of the Secured Loan Agreements entered into in connection with such Series of Fully Secured Notes determined on the basis of EUV-SH; and

B = the Value of the residential MV-ST Apportioned Properties in respect of the Secured Loan Agreements entered into in connection with such Series of Fully Secured Notes determined on the basis of MV-ST.

All Apportioned Properties shall each be treated as EUV-SH Apportioned Properties for the purpose of determining the Minimum Value unless and until a Value, determined on the basis of MV-ST, is given by a Valuer in respect of any such Apportioned Property and the Valuer has confirmed that it has

reviewed a Certificate of Title in respect of such Apportioned Property certifying that it may be disposed of by the relevant Borrower on an unfettered basis (meaning subject only to any existing tenancies disclosed in the Certificate of Title but not subject to any security interest, option or other encumbrance or to any restriction preventing or restricting its sale to, or use by, any person for residential use);

MV-ST means a valuation made on the basis of the current Market Value as defined by the RICS at VPS4 of the RICS Valuation - Global Standards 2017 UK National Supplement (or, if a subsequent edition of the RICS Valuation Standards has been published at the relevant time, the relevant valuation standard of the then most recently published edition of the RICS Valuation Standards) (effectively, in these circumstances, based on the fact that the properties are subject to existing tenancies but are not restricted to use as social housing let at sub-market rents, and that any Units that become vacant may be sold with vacant possession) or, if the RICS Valuation Standards are no longer published at such time, on a basis agreed between the Group Borrower, the Issuer, the Security Trustee and a Valuer;

MV-ST Apportioned Properties means the Apportioned Properties accepted as such in accordance with the Secured Loan Agreement Standard Terms;

Retained Proceeds Par Amount means, in respect of each Series of Fully Secured Notes, an amount equal to the Retained Proceeds in respect of such Series of Fully Secured Notes at the time of calculation and, for this purpose:

- (a) where any Retained Proceeds are at that time invested in Permitted Investments, the amount of such Retained Proceeds shall be taken as the purchase price of the relevant Permitted Investments ignoring any gains or losses in respect of those Permitted Investments since the date of purchase; and
- (b) where the source of any Retained Proceeds is the net sale proceeds of any Retained Notes which were sold at a discount, the amount of such Retained Proceeds shall be taken as the principal amount of such Retained Notes;

Right to Buy means the right of a tenant of any property to buy or acquire part or all of such property (including, without limitation, by means of a shared ownership lease) from a Borrower under section 180 of the Housing and Regeneration Act 2008 (as amended by the Localism Act 2011 and the Housing and Planning Act 2016) (the **Housing and Regeneration Act**), Part V of the Housing Act 1985 (or any similar right or scheme replacing or supplementing that right) or where a grant is provided to the relevant Borrower in respect of such a sale under section 35(1) of the Housing and Regeneration Act or any other statute conferring similar rights to buy or acquire to tenants of Registered Providers of Social Housing with which the relevant Borrower is obliged to comply or under any contract or other voluntary arrangement conferring such a right (and including, without limitation, such rights preserved notwithstanding any previous transfer of such property from any local authority);

Series Security Percentage means, in respect of each Secured Loan Agreement:

(a) where the Charged Properties securing the obligations of the Group Borrower under such Secured Loan Agreement (or the obligations of the Guarantors under the Deed of Guarantee in respect of such Secured Loan Agreement) are apportioned on the Numerical Apportionment Basis, the number of Units allocated to the Issuer in relation to such Secured Loan Agreement under the Numerical Apportionment Basis from time to time divided by the total number of Units comprising the Residual Properties from time to time, multiplied by 100 (and expressed as a percentage); and (b) where the Charged Properties securing the obligations of the Group Borrower under such Secured Loan Agreement (or the obligations of the Guarantors under the Deed of Guarantee in respect of such Secured Loan Agreement) are apportioned on the Specific Apportionment Basis, 100 per cent.; and

Value means, at any time and in relation to the Apportioned Properties, the value of those properties as shown in the then latest Valuation Report on the basis of EUV-SH or, as the case may be, MV-ST (provided that if any Apportioned Property or part thereof is sold pursuant to a Right to Buy, the Value of the relevant Apportioned Property shall, for the purposes of this definition and with effect from the date of the relevant sale or release, be zero (if the entire relevant Apportioned Property has been sold) or (if only part of the relevant Apportioned Property has been sold) shall be the proportion of the value of the Apportioned Property which has not been sold pursuant to the relevant Right to Buy).

Apportionment Basis

The Apportioned Properties securing the obligations of the Group Borrower under each Secured Loan Agreement shall be apportioned on the Numerical Apportionment Basis (subject to the rights of the Issuer to require the Specific Apportionment Basis to apply in limited circumstances after the occurrence of an Enforcement Event in accordance with the terms of the Security Trust Deed) or the Specific Apportionment Basis, as specified in the applicable Secured Loan Transaction Terms.

Addition, Substitution and Release of Apportioned Properties and Charged Cash

Addition of Apportioned Properties

Subject as set out below, the Group Borrower may procure that any Borrower charges additional Properties as Apportioned Properties provided that such Borrower:

- (a) provides to the Issuer and the Security Trustee the condition precedent documents specified in Schedule 2 to the Security Trust Deed in respect of the charging of such Properties;
- (b) delivers to the Issuer and the Security Trustee a completed Additional Property Certificate certifying that, *inter alia*, such Properties are residential properties of a type and nature that are usually owned by Registered Providers of Social Housing or Registered Social Landlords; and
- (c) provides such other documents as the Security Trustee or the Issuer may require as set out in Part 2 (*Property Conditions Precedent Documents*) of Schedule 1 to the Secured Loan Agreement Standard Terms.

Notwithstanding the foregoing, for so long as the Group Borrower's obligations under a Secured Loan Agreement are secured on the Numerical Apportionment Basis, the above requirements shall not apply in the event that Properties are added to the Residual Properties solely as a result of them ceasing to be allocated to any Specific Beneficiary on a Specific Apportionment Basis.

Substitution of Apportioned Properties

Subject as set out below, at the request and expense of a Borrower shall release from the relevant Security Documents (and/or reallocate, if applicable) such Apportioned Properties (the **Released Properties**) and substitute for the Released Properties other Properties (each, a **Substitute Property**) as may be selected by such Borrower, provided that such Borrower:

 (a) provides to the Issuer and the Security Trustee the condition precedent documents specified in Schedule 2 to the Security Trust Deed in respect of the charging of the Substitute Properties;

- (b) delivers to the Issuer and the Security Trustee a completed Substitute Property Certificate certifying, *inter alia*, that the relevant Substitute Property is a residential property of a type and nature that is usually owned by Registered Providers of Social Housing or Registered Social Landlords, as applicable, that, immediately following such release (and/or reallocation, if applicable) and substitution, the relevant Asset Cover Test will not be breached as a result of the substitution of the relevant Apportioned Properties and that no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing; and
- (c) provides such other documents as the Security Trustee or Issuer may require as set out in Part
 2 (*Property Conditions Precedent Documents*) of Schedule 1 to the Secured Loan Agreement
 Standard Terms.

Notwithstanding the foregoing, for so long as the Group Borrower's obligations under a Secured Loan Agreement are secured on the Numerical Apportionment Basis, the above requirements shall only apply in respect of substitutions out of and into the Residual Properties as a whole, and shall not apply in respect of adjustments to the Allocated Parts of NAB Beneficiaries without resulting in change to the Properties comprised within the Residual Properties or to the extent that the provisions described above and below relating to additions and substitutions would not apply to the Substitute Property and the Released Property, respectively.

Release of Apportioned Properties

Subject as set out below, at the request and expense of the Group Borrower, the Security Trustee shall release from the relevant Security Documents (and/or reallocate, if applicable) such Properties (or Units) forming part of the Series Apportioned Part as may be selected by the Group Borrower provided that the Group Borrower delivers to the Issuer and the Security Trustee a completed Property Release Certificate certifying that, immediately following such release (and/or reallocation, if applicable), the relevant Asset Cover Test will not be breached as a result of the release (and/or reallocation, if applicable) of such part of the Series Apportioned Part and that no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing.

Notwithstanding the foregoing, for so long as the Group Borrower's obligations under a Secured Loan Agreement are secured on the Numerical Apportionment Basis the above requirements shall only apply:

- (a) where the Properties to be released from the Residual Properties do not constitute Unallocated Properties; and/or
- (b) if an adjustment is required in respect of the Series Apportioned Part irrespective of whether any Properties are to be removed from the Residual Properties as a whole.

Statutory Disposals

Each Borrower shall have the right to withdraw Property from the Series Apportioned Part pursuant to any Statutory Disposal. The Group Borrower shall deliver to the Issuer and the Security Trustee, as soon as reasonably practicable after it has received notice of such Statutory Disposal, a completed Statutory Disposal Certificate, certifying that the relevant withdrawal relates to a Statutory Disposal, and, if the Statutory Disposal would result in a breach of the relevant Asset Cover Test, confirming that the Group Borrower shall procure that Additional Properties are charged pursuant to the Security Trust Deed so as to become part of the Series Apportioned Part and/or moneys are deposited into the relevant Series Ongoing Cash Security Account, in accordance with the relevant Secured Loan Agreement, such that any breach of the relevant Asset Cover Test will be cured.

Without prejudice to the aforementioned right to withdraw Property from the Series Apportioned Part pursuant to any Statutory Disposal, the Group Borrower will be required to covenant that, if following such withdrawal the Group Borrower will no longer be in compliance with the relevant Asset Cover Test, it shall, as soon as practicable thereafter (and, in any event, prior to the expiry of the applicable grace period), procure the charging of additional Properties and/or deposit (or procure the deposit of) money into the relevant Series Ongoing Cash Security Account in an aggregate amount sufficient to ensure that the Group Borrower will be in compliance with the relevant Asset Cover Test.

Charged Cash

Pending the acquisition of any proposed Substitute Property by a Borrower, such Borrower may deposit the proceeds of disposal of the relevant Apportioned Properties which are released from charge under the relevant Security Documents into the Series Ongoing Cash Security Account in respect of the relevant Series for the purpose of maintaining the relevant Asset Cover Test (for the avoidance of doubt, the Group Borrower shall not be required to monitor the market value of any Permitted Investments). Charged Cash may be withdrawn from a Series Ongoing Cash Security Account:

- to be applied by such Borrower (provided, for the avoidance of doubt, that such Borrower continues, at such time, to be a Registered Provider of Social Housing or Registered Social Landlord) in the acquisition of a Substitute Property; or
- (b) to the extent that the relevant Asset Cover Test would not be breached immediately after such withdrawal,

and, in any event, if no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing.

Notwithstanding the above, any Borrower or the Group Borrower may, at any time, deposit, or arrange for the deposit of, any other money into a Series Ongoing Cash Security Account for the purposes of satisfying an Asset Cover Test.

The Group Borrower will be required to acknowledge (and procure that each Borrower acknowledges) that the money standing to the credit of any Series Ongoing Cash Security Account shall be charged in favour of the Note Trustee pursuant to the terms of the Note Trust Deed. The Group Borrower will be required to acknowledge (and procure that each Borrower acknowledges) that:

- (a) the Issuer may invest all or any part of the Charged Cash in Permitted Investments in accordance with the Custody Agreement;
- (b) as a result of any gains or losses made by the Issuer in respect of such Permitted Investments and any income received thereon (which shall, for the avoidance of doubt, be credited to a Series Ongoing Cash Security Account), the amount of such Charged Cash may be greater or less than the amount deposited in the relevant Series Ongoing Cash Security Account by such Borrower or the Group Borrower; and
- (c) it shall not have any recourse to the Issuer in respect of any losses realised by the Issuer in respect of the Charged Cash as a result of investment in any Permitted Investments.

Valuations

Rolling Valuations

The Group Borrower shall deliver (or procure the delivery of) a Rolling Valuation Report to the Issuer and the Security Trustee in the period between 31 March and the date falling 60 days thereafter in each year (commencing on 31 March 2026) whereby the Valuer values:

- (a) not less than 20 per cent. of the Apportioned Properties on a Full Valuation Basis; and
- (b) the remaining Apportioned Properties on a Desk Top Valuation Basis.

For these purposes:

- the Apportioned Properties to be valued on a Full Valuation Basis in any year must not include any Apportioned Properties which have been valued on a Full Valuation Basis in the preceding two years; and
- (ii) in any five year period, 100 per cent. of Apportioned Properties must be valued on a Full Valuation Basis, taking into account any additions and withdrawals of Apportioned Properties in accordance with the Secured Loan Agreements.

Full and Desktop Valuations

Notwithstanding the above, the Group Borrower may elect, by notice to the Issuer and the Security Trustee, to provide Valuations as follows:

- (a) the Group Borrower shall deliver (or procure the delivery of) a Full Valuation to the Issuer and the Security Trustee at least once in every period of five calendar years. The first Full Valuation must be delivered in the period between 31 March next following an election made in accordance with the Secured Loan Agreements and the date falling 60 days thereafter, and subsequent Full Valuations must be delivered in the period between 31 March and the date falling 60 days after 31 March in each fifth year after the previous Full Valuation delivered in accordance with this paragraph (or within the same period in any prior calendar year); and
- (b) the Group Borrower shall deliver (or procure the delivery of) a Desk Top Valuation to the Issuer and the Security Trustee in the period between 31 March and the date falling 60 days thereafter in each year (beginning in the year following the year in which a Full Valuation is first produced in accordance with (a) above) other than a year in respect of which a Full Valuation is required to be delivered under (a) above.

(b) Breach of other obligations: A Loan Obligor fails to perform or observe any of its obligations under the Finance Documents (other than as referred to in (a) above and (l) below) and (except in any case where, in the opinion of the Security Trustee, the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by the Security Trustee on such Loan Obligor of notice requiring the same to be remedied.

provided that the aggregate amount of the relevant indebtedness, guarantees and indemnities in respect of which one or more of the events mentioned in (i), (ii) or (iii) above in this paragraph (c) have occurred equals or exceeds £15,000,000 or its equivalent in other currencies (as reasonably determined by the Security Trustee) (and provided further, for the avoidance of doubt, that the amounts mentioned in (i), (ii) or (iii) above in this paragraph (c) shall exclude the amount of any Public Sector Subsidy except for any Public Sector Subsidy which is or becomes due and payable to the relevant grant making body or organisation).

- (d) *Winding-up*: Any order is made by any competent court or resolution passed for the winding up or dissolution of a Loan Obligor save for the purposes of a Permitted Reorganisation or a reorganisation on terms previously approved in writing by the Security Trustee.

any class of its creditors) or any meeting is convened to consider a proposal for an arrangement or composition with its creditors generally (or any class of its creditors) (which exclude any Permitted Reorganisation or reorganisation on terms previously approved in writing by the Security Trustee).

- (j) **Unlawfulness**: It is or becomes unlawful for a Loan Obligor to perform any of its material obligations under the Finance Documents to which they are, respectively, a party.
- (k) Breach of the Asset Cover Test: The Group Borrower fails to perform its obligations under Clause 9 (Asset Cover Ratio) of the Secured Loan Agreement Standard Terms and (except in any case where, in the opinion of the Security Trustee, the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 60 days next following the service by the Security Trustee on the Group Borrower of notice requiring the same to be remedied.

For these purposes, **Permitted Reorganisation** means any amalgamation, merger, consolidation or transfer of engagements (whether entering into or acceptance thereof) of the whole of a Loan Obligor's property (including, for the avoidance of doubt, any statutory procedure as provided for under the Cooperative and Community Benefit Societies Act 2014 (if applicable)) made between such Loan Obligor (**Party A**) and any other entity (**Party B**) provided that (i) Party B is a Registered Provider of Social Housing or a Registered Social Landlord and any new amalgamated entity to be created as a result thereof will be a Registered Provider of Social Housing or Registered Social Landlord; (ii) following any such amalgamation, merger, consolidation or transfer of engagements in respect of which the property of Party A (including, for the avoidance of doubt, any liabilities) shall become vested in Party B or a new amalgamated entity, Party B or such new amalgamated entity will thereafter be responsible for all the liabilities of Party A pursuant to the Co-operative and Community Benefit Societies Act 2014 or otherwise; and (iii) a certificate executed by two Authorised Signatories of Party A or Party B confirming the above is provided to the Note Trustee.

Obligation to Notify the Issuer and the Security Trustee

The Group Borrower shall (and shall procure that each Borrower shall) notify the Issuer and the Security Trustee of any Group Borrower Default (and the steps, if any, being taken to remedy it) or Potential Borrower Default in respect of a Secured Loan Agreement promptly upon becoming aware of the same. The Issuer shall also notify the Security Trustee of any Group Borrower Default or Potential Group Borrower Default promptly upon becoming aware of the same (unless the Issuer is aware that a notification has already been provided by the Group Borrower or a Borrower) including, but not limited to, the non-payment by the Group Borrower of any amounts owing to the Issuer under its Secured Loan Agreement on the due date for payment thereof.

Group Borrower Default Notice

Following the occurrence of a Group Borrower Default (but in the case of the happening of any of the events described in paragraphs (b) (*Breach of other obligations*), (c) (*Other non-payment*) and (k) (*Unlawfulness*) above, only if the Security Trustee shall have certified in writing to the Group Borrower that such event is, in its opinion, materially prejudicial to the interests of the Issuer), the Issuer may declare by notice to the Group Borrower either:

(b) that the security for the relevant Loan has become, whereupon the security for the relevant Loan shall become, immediately enforceable (and the Issuer shall notify the Security Trustee of the same in accordance with Clause 7 (*Default procedure*) of the Security Trust Deed); and/or

(c) (irrespective of whether a notice to the effect set out in (a) shall have already been given) that the Loan has become due and repayable, whereupon the Loan shall become immediately due and repayable at the outstanding balance thereof together with accrued interest, premium (if any) and any other amounts and the security therefor shall become immediately enforceable.

Enforcement

If the security constituted under any Security Document for the benefit of the Issuer becomes enforceable as a result of the service of a notice pursuant to Clause 13.4 of the Secured Loan Agreement Standard Terms, then the Security Trustee or any receiver (where appropriate) shall hold the monies arising from any sale, calling in, collection or conversion under, or otherwise arising from the exercise of, the powers of conversion contained in the Security Documents after the security has become enforceable upon trust to apply the same:

- (a) first, in payment or retention of all costs, charges, expenses and liabilities incurred in or about the exercise of such powers or otherwise in accordance with the Security Documents and payments made by the Security Trustee, any Appointee or any Receiver in accordance with the Security Documents and of all remuneration payable to the Security Trustee, any Appointee or any Receiver in accordance with the Security Documents with interest thereon as provided in the Security Documents;
- (b) second, in or towards payment to the Issuer of all interest then due and remaining unpaid on the relevant Loan and all commitment fees then due and remaining unpaid;
- (c) third, in or towards payment to the Issuer of all principal and premium (if any) then due and remaining unpaid in respect of the relevant Loan; and
- (d) fourth, in or towards payment to the Issuer of all other amounts then due and remaining unpaid under the relevant Secured Loan Agreement.

Addition and Resignation of Borrowers and Guarantors

Addition of Borrowers and Guarantors

The Group Borrower may procure that any member of the Sanctuary Group becomes a Borrower if such member of the Sanctuary Group:

- (a) has charitable (or exempt charitable) status;
- (b) is a Registered Provider of Social Housing or a Registered Social Landlord; and
- (c) has acceded to the Deed of Guarantee as a guarantor,

and all other Borrower consent to such member becoming a Borrower.

Resignation of Borrowers and Guarantors

A Borrower may cease to be a Borrower and a Guarantor, upon request by the Group Borrower, provided that:

(a) the Borrower has no outstanding payment obligations under any Intra-group Facility Agreement;

- (b) the Group Borrower confirms that the Asset Cover Test will not be breached by reason of the resignation of such Borrower;
- (c) such resignation will not adversely affect the then current credit rating of the related Series of Notes; and
- (d) no Group Borrower Default or Potential Group Borrower Default has occurred and is continuing.

Taxes

The Group Borrower must make all payments to be made by it to the Issuer under, *inter alia*, the Secured Loan Agreement, the Security Agreements and the Security Trust Deed, without any deduction or withholding for or on account of tax, unless a deduction or withholding is required by law.

If a deduction or withholding from any such payment is required by law to be made by the Group Borrower, the amount of the payment due shall be increased to an amount which (after making such deduction or withholding) leaves an amount equal to the payment which would have been due if no deduction or withholding had been required.

If, as a result of any actual or proposed change in tax law, the Issuer determines (in its reasonable commercial judgement) that it would on the next following Interest Payment Date be required to make a withholding or deduction in respect of payments to be made by the Issuer to the Noteholders of the relevant Series of Fully Secured Notes pursuant to the Conditions (other than in respect of a Noteholder Specific Withholding), it shall notify the Group Borrower of the same. The Group Borrower may (but, for the avoidance of doubt, shall not be obliged to), in its sole discretion, pay to the Issuer such additional amounts as will enable the Issuer (after such withholding or deduction) to pay to the Noteholders the amounts of principal and interest which they would have received in respect of the Notes in the absence of such withholding or deduction. The Group Borrower shall continue to pay such additional amounts to the Issuer unless and until delivers to the Issuer a notice stating that it shall cease to make such additional payments with effect from the next following Interest Payment Date.

Governing Law

Each Secured Loan Agreement, and any non-contractual obligations or matters arising from or connected with it, are governed by and shall be construed in accordance with English law.

Interest

The rate of interest applicable to an advance during each relevant period shall be the rate per annum determined by the Group Borrower to cover the Group Borrower's average cost of funding (including, for the avoidance of doubt, margin and/or any mandatory cost) under the related Loan Agreement, and any other loan agreements entered into by the Group Borrower, and adjusted by reference to the weighted average debt outstanding as between the Group Borrower and the relevant Borrower. Such amount shall be determined and notified to each Borrower on drawdown of each advance and thereafter on a quarterly basis by the Group Borrower.

Repayment

Each advance shall be repaid by each Borrower in full on the earlier of:

- (a) the Repayment Date relating thereto, as specified in the applicable Confirmation Notice; and

Governing Law

Each Intra-group Facility Agreement, and any non-contractual obligations or matters arising from or connected with it, shall be governed by and construed in accordance with English law.

Description of the Deed of Guarantee

The Issuer's obligations in respect of the Notes of each Series will be secured pursuant to the Note Trust Deed in favour of the Note Trustee for the benefit of itself, the Noteholders and the other Series Secured Parties by the Series Security, which includes an assignment by way of security of the Issuer's rights, title and interest arising under the Deed of Guarantee.

Pursuant to the Deed of Guarantee, each Guarantor has (or, upon its accession, will have) irrevocably and unconditionally:

- (a) guaranteed to the Security Trustee (for the benefit of each Beneficiary) the punctual performance by the Group Borrower of all its obligations under, *inter alia*, the Loan Agreements, the Group Borrower Security Agreement and the Security Trust Deed;
- (b) undertaken with the Security Trustee (for the benefit of each Beneficiary) that, whenever the Group Borrower does not pay any amount when due under, *inter alia*, any Loan Agreement, the Group Borrower Security Agreement or the Security Trust Deed, it must, immediately on demand by the Security Trustee, pay that amount as if it were the principal obligor; and
- (c) agreed to indemnify the Security Trustee (for the benefit of each Beneficiary) immediately on demand against any loss or liability suffered by the Security Trustee or any Beneficiary if any obligation guaranteed by it is or becomes unenforceable, invalid or illegal.

Description of the Group Borrower Security Agreement, the Security Agreements and the Security Trust Deed

The Issuer's obligations in respect of the Notes of each Series of Fully Secured Notes will be secured pursuant to the Note Trust Deed in favour of the Note Trustee for the benefit of itself, the Noteholders and the other Series Secured Parties by the Series Security, which includes an assignment by way of security of the Issuer's rights, title and interest arising under the Group Borrower Security Agreement, the Security Agreements and the Security Trust Deed.

The Issuer's obligations in respect of the Notes of each Series of Partly Secured Notes will be secured pursuant to the Note Trust Deed in favour of the Note Trustee for the benefit of itself, the Noteholders and the other Series Secured Parties by the Series Security, which includes an assignment by way of security of the Issuer's rights, title and interest arising under the Group Borrower Security Agreement and the Security Trust Deed. For the avoidance of doubt, the Series Security in respect of each Series of Partly Secured Notes shall not include an assignment of any rights in respect of legal mortgages or standard securities in respect of properties of the Borrowers.

The following description of the Group Borrower Security Agreement, the Security Agreements and the Security Trust Deed consists of a summary of certain provisions of the Group Borrower Security Agreement, the Security Agreements and the Security Trust Deed and is qualified by reference to the detailed provisions thereof. The Group Borrower Security Agreement, the Security Agreements and the Security Trust Deed are not, however, incorporated by reference into, and therefore do not form part of, these Programme Admission Particulars.

Definitions used in this section but not otherwise defined in these Programme Admission Particulars have the meanings given to them in the Group Borrower Security Agreement, the Security Agreements and/or the Security Trust Deed.

GROUP BORROWER SECURITY AGREEMENT

The Group Borrower has entered into the Group Borrower Security Agreement with the Security Trustee, pursuant to which the Group Borrower has created the following security:

- (a) a first floating charge all of its rights in respect of any amount standing to the credit of the Receipts Accounts; and
- (b) an assignment of all of its present and future rights in respect of the Intra-group Facility Agreements,

provided that, in each case, it shall be entitled to exercise all its rights and claims under or in connection therewith until an Enforcement Event has occurred and is outstanding.

(the property referred to above being, the Group Borrower Security Assets).

Enforcement of Security

The security created under the Group Borrower Security Agreement will become immediately enforceable if an Enforcement Event is outstanding and the Security Trustee gives notice to the Group Borrower that such security is enforceable.

After the security created by the Group Borrower Security Agreement has become enforceable, the Security Trustee may in its absolute discretion enforce all or any part of such security in accordance with the provisions of the Security Trust Deed.

Any moneys received by the Security Trustee or any Receiver pursuant to the enforcement of the Group Borrower Security Agreement shall be applied by the Security Trustee in accordance with the Security Trust Deed.

Governing Law

The Group Borrower Security Agreement, and any non-contractual obligations or matters arising from or connected with it, are governed by and shall be construed in accordance with English law.

SECURITY AGREEMENTS

The Borrowers shall enter into Security Agreements substantially in the form set out in the Security Trust Deed (each, a **Security Agreement**).

First Fixed Charge

Pursuant to each Security Agreement, each Borrower will charge with full title guarantee (or in the case of any Security Agreement which is governed by Scots law with absolute warrandice), as security for the payment of all Secured Obligations in favour of the Security Trustee for the benefit of itself and the Property Beneficiaries and, *inter alios*, the Issuer:

(a)

- (i) in the case of an English Borrower, by way of a first legal mortgage all the property referred therein together with all buildings and Fixtures thereon, the proceeds of sale of all or any part thereof and (so far as the same are capable of being mortgaged) the benefit of any covenants for title given or entered into by any predecessor in title of such Borrower and any moneys paid or payable in respect of such covenants; or
- (ii) in the case of a Scottish Borrower, by way of standard security all heritable property located in Scotland referred to therein; and
- (b) by way of first fixed charge:
 - all fixed plant and machinery now or in the future owned by such Borrower and its interest in any fixed plant or machinery in its possession, in each case which form part of the Mortgaged Property;
 - (ii) all benefits in respect of the Insurances and all claims and returns of premiums in respect thereof;
 - (iii) the benefit of all present and future licences, consents and authorisations (statutory or otherwise) held in connection with its business so far as it relates to the Security Assets or the use of any of the Security Assets specified in paragraph (a) and subparagraph (i) above and the right to recover and receive all compensation which may at any time become payable to it in respect thereof; and
 - (iv) if and in so far as the legal mortgages set forth in paragraph (a) above or the assignments set forth in the section entitled "Assignment" below shall for any reason be ineffective as legal mortgages or assignments, the assets referred to in those clauses,

(excluding any assets located in Scotland).

Assignment

Pursuant to each Security Agreement, each Borrower will, on the written request of the Security Trustee, following the occurrence of an Enforcement Event which is continuing, assign with full title guarantee, as security for the payment of all Secured Obligations in favour of the Security Trustee for the benefit of itself and, *inter alios*, the Issuer all of its rights, title and interest in and to:

- (a) the personal agreements and covenants by the tenants, lessees, licensees or other parties under the Letting Documents and by all guarantors in respect thereof and all security held by such Borrower in respect of the obligations of the tenants, lessees, licensees or other parties under the Letting Documents (including, without limiting the generality of the foregoing, all moneys due and owing to such Borrower or which may become due and owing to such Borrower at any time in the future in connection therewith); and
- (b) all agreements, now or from time to time entered into or to be entered into for the sale, letting or other disposal or realisation of, or in connection with the management, ownership, refurbishment, development, repair, improvement or servicing of, the whole or any part of the Security Assets (including, without limiting the generality of the foregoing, all moneys due and owing to such Borrower or which may become due and owing to such Borrower at any time in the future in connection therewith),

(excluding any assets located in Scotland).

Under Scots law, it is not usual practice to perfect assignations in security of the Letting Documents. Therefore, with regard to the relevant leases and tenancies of a Scottish Borrower, the Security Trustee shall instead take an unintimated assignation in security of the rental income derived from the Scottish Properties. The Security Trustee shall also take unintimated assignations in security of various contracts relating to the Scottish Properties. Such assignations will need to be properly intimated before any fixed security can be created over them or any related rental income.

Representations, Warranties and Undertakings

Each Borrower shall make various representations in respect of the properties specified in the relevant Security Agreement including as to ownership, planning permission, covenants and security interests. In addition, each Borrower shall undertake to, *inter alia*, repair, insure, pay taxes in respect of and comply with all leases in respect of, such properties.

Enforcement of Security

Each Security Agreement will provide that at any time after (i) an event of default has occurred under any loan agreement which is secured pursuant to the Security Trust Deed (including the Secured Loan Agreements, but for the avoidance of doubt excluding any Unsecured Loan Agreement) which is outstanding and (ii) the service of a demand for payment on a Borrower by the Security Trustee under the Deed of Guarantee, the security created by or pursuant to such Security Agreement will be immediately enforceable and the Security Trustee may, without notice to such Borrower or any prior authorisation from any court, in its absolute discretion:

- (a) enforce all or any part of that security (at the times, in the manner and on the terms it thinks fit) and take possession of and hold or dispose of all or any part of the Security Assets; and
- (b) in respect of security granted by an English Borrower, whether or not it has appointed a Receiver, exercise all or any of the powers, authorities and discretions conferred by the Law of Property Act 1925 (as varied or extended by the Security Agreement) on mortgagees and by

the Security Agreement on any Receiver or otherwise conferred by law on mortgagees or Receivers.

Fixed charge receiverships are not competent under Scots law and the Law of Property Act 1925 does not extend to Scotland. Therefore, it is not possible for the Security Trustee to appoint a Receiver of Scottish assets in the above-described manner. Any Scottish Security Agreement granted in favour of the Security Trustee will however give to the Security Trustee as many of the powers given to an English law Receiver as possible.

After the security constituted by, or pursuant to, the Security Agreement has become enforceable, the Security Trustee may in its absolute discretion enforce all or any part of such security in such manner as it sees fit in accordance with the provisions of the Security Trust Deed.

Each Security Agreement further entitles the Security Trustee and, *inter alios*, the Issuer to be indemnified and/or secured and/or prefunded out of the Security Assets in respect of all liabilities and expenses properly incurred by them in the execution of the powers, authorities or discretions vested in them pursuant to, inter alia, the Security Trust Deed or the Security Agreements.

Any moneys received by the Security Trustee pursuant to the enforcement of the Security Agreements shall be applied by the Security Trustee in accordance with the Security Trust Deed.

Governing Law

Each Security Agreement, and any non-contractual obligations or matters arising from or connected with it, shall be governed by and construed in accordance with English law (or, in the case of a Security Agreement entered into by a Scottish Borrower, Scots law).

SECURITY TRUST DEED

The benefit of the security created by the Group Borrower and the Borrowers pursuant to the Group Borrower Security Agreement and the Security Agreements, respectively, shall be held by the Security Trustee on trust for the benefit of itself and, *inter alios*, the Issuer on the terms of the Security Trust Deed.

The Security

Division of Properties and Related Security Assets

Each Loan Transaction Terms in respect of a Secured Loan Agreement will specify whether the Borrower's obligations under its Secured Loan Agreement will be apportioned on a "Numerical Apportionment Basis" or a "Specific Apportionment Basis".

The Security Trust Deed provides that, where Numerical Apportionment Basis is specified as the basis for apportionment, a specific number of units within the portfolio of Residual Properties will be designated to the relevant Beneficiary (each, a **NAB Beneficiary**) as agreed between the Group Borrower and such Beneficiary (being, in the case of the Loan Agreements, the Issuer).

Where Numerical Apportionment Basis is specified as the apportionment basis, a Beneficiary in respect thereof is entitled to change its basis of apportionment to "Specific Apportionment Basis" only in the limited circumstances and in accordance with the procedures specified in the Security Trust Deed.

The Security Trust Deed provides that, where Specific Apportionment Basis is specified as the basis for apportionment or in the event that the apportionment basis is changed to Specific Apportionment Basis,

the apportioned part of the Charged Properties shall be as selected and notified to the Issuer in accordance with the terms of the Security Trust Deed.

Additions and releases of Apportioned Properties

On or prior to a Borrower creating a Security Agreement in respect of any Property, the Group Borrower is required to procure the delivery to the Security Trustee (or such person as shall be nominated by the Security Trustee, to be held by such person to the order of the Security Trustee) the documents listed in Schedule 2 to the Security Trust Deed, such documents to be in form and substance satisfactory to the Issuer (and, where the Apportioned Properties are the Residual Properties, the other NAB Beneficiaries).

The Security Trustee shall release the benefit of any Security Interest, rights or obligations held by it over the Apportioned Property as security for all or any of the Secured Obligations:

- (a) subject to the instruction the Issuer and, where the Apportioned Properties are the Residual Properties, the other NAB Beneficiaries (or, where the Properties to be released constitute Unallocated Properties, the relevant Borrower); and
- (b) provided, in each case, that the relevant Borrower shall have paid to the Security Trustee, or provided for to the satisfaction of the Security Trustee, all Trustee Costs which relate to the Residual Properties or such Apportioned Properties (as applicable).

The Issuer's instructions shall be subject to satisfaction with the requirements of the Secured Loan Agreements as regards such additions and releases (see "*Description of the Secured Loan Agreements*" above).

Application of Proceeds

The Security Trustee shall, upon the enforcement of the Rights, and after satisfying claims which at law rank in priority to sums owing under or in respect of any of the Relevant Documents, apply all Proceeds and all money derived therefrom:

- (a) in respect of the Deed of Guarantee or the Group Borrower Security Agreement:
 - (i) first, in or towards payment of all Trustee Costs;
 - (ii) second, by allocating the balance among all Beneficiaries *pro rata* to their unpaid liabilities so that the amount allocated to each Beneficiary shall be applied in satisfaction when due of the Relevant Liabilities owed to such Beneficiary arising in connection with the relevant Relevant Document in the order of priority set out therein (and so that, in each case, any surplus remaining after payment of all such Relevant Liabilities when due shall be re-allocated among the remaining Beneficiaries *mutatis mutandis* in accordance with the foregoing provisions); and
 - (iii) third, the balance, if any, to the relevant Borrower or the Group Borrower, as applicable;
- (b) in respect of the Security Assets comprised in the Residual Properties:
 - (i) first, in or towards payment of all NAB Trustee Costs;
 - second, by allocating the balance among the NAB Beneficiaries by reference to their NAB Security Percentages so that the amount allocated to each NAB Beneficiary shall

be applied in satisfaction when due of the Relevant Liabilities owed to such NAB Beneficiary arising under or in connection with each Relevant Document to which such NAB Beneficiary is a party in the order of priority set out therein (deducting for its own account, where appropriate, any Valuer's Expenses from the relevant NAB Beneficiary's allocation) (and so that, in each case, any surplus remaining after payment of all such Relevant Liabilities shall be reallocated among the remaining NAB Beneficiaries *mutatis mutandis* in accordance with the foregoing provisions). For the avoidance of doubt, no surplus amounts shall be reallocated by the Security Trustee until all Relevant Liabilities have been fully discharged in connection with the relevant Relevant Document;

- (iii) third, by allocating the balance among the Property Beneficiaries whose Relevant Liabilities have not been fully discharged under (a)(ii) above or (b)(ii) below pro rata to their unpaid liabilities so that the amount allocated to each Property Beneficiary shall be applied in satisfaction when due of the Relevant Liabilities owed to such Beneficiary arising in connection with the relevant Relevant Document in the order of priority set out therein (and so that, in each case, any surplus remaining after payment of all such Relevant Liabilities when due shall be re-allocated among the remaining Property Beneficiaries mutatis mutandis in accordance with the foregoing provisions);
- (iv) fourth, to the extent not recovered under (a)(i) above or (b)(i) below, in or towards payment of all Trustee Costs; and
- (v) fifth, the balance, if any, to the relevant Borrower; and
- (c) in respect of the Security Assets comprised in a Specific Apportioned Part:
 - (i) first, in or towards payment of all Relevant Trustee Costs;
 - second, in or towards satisfaction of all Relevant Liabilities of the Specific Beneficiary (other than Relevant Trustee Costs) in accordance with the Relevant Documents in respect of the Relevant Liabilities (deducting for its own account, where appropriate, any Valuer's Expenses from the relevant Specific Beneficiary's allocation);
 - (iii) third, by allocating the balance among the Property Beneficiaries whose Relevant Liabilities have not been fully discharged under (a)(ii) or (b)(ii) above pro rata to their unpaid liabilities so that the amount allocated to each Property Beneficiary shall be applied in satisfaction when due of the Relevant Liabilities owed to such Property Beneficiary arising in connection with the relevant Relevant Document in the order of priority set out therein (deducting for its own account, where appropriate, any Valuer's Expenses from the relevant Specific Beneficiary's allocation) (and so that, in each case, any surplus remaining after payment of all such Relevant Liabilities when due shall be re-allocated among the remaining Beneficiaries *mutatis mutandis* in accordance with the foregoing provisions);
 - (iv) fourth, to the extent not recovered under (a)(i) or (b)(i) above, in or towards payment of all Trustee Costs; and
 - (v) fifth, the balance, if any, to the relevant Borrower.

Enforcement of Security

Pursuant to Clause 7 (*Default procedure*) of the Security Trust Deed, the Security Trustee shall only be required to take action to enforce or protect the security created by, or rights arising under, the Security

Agreements if instructed to do so by the Issuer (and/or the other NAB Beneficiaries where the Series Underlying Security is apportioned to it on the Numerical Apportionment Basis) (and then only if it has been indemnified and/or secured and/or pre-funded to its satisfaction).

In respect of instructions given by the Issuer, the Issuer will assign its rights under, *inter alia*, the Security Trust Deed, the Group Borrower Security Agreement and the Security Agreements to the Note Trustee and, pursuant to Condition 6.3 (*Loan Agreements, Deed of Guarantee, Group Borrower Security Agreement, Security Agreements and Security Trust Deed Consents Covenant*), has covenanted not to take any action or direct the Security Trustee to take any action pursuant thereto except with the prior consent of the Note Trustee. The Note Trustee may, but is not obliged to, seek the consent of the Note Note Note Note Trust Deed prior to giving any such consent.

In enforcing the Series Underlying Security in respect of any Series (including the Issuer's rights, title and interests in the Security Trust Deed, the Group Borrower Security Agreement and the Security Agreements insofar as they relate to the Notes of such Series) the Note Trustee may act in its discretion. It is, however, required to take action, pursuant to Condition 12.2 (*Enforcement*), where so directed by the requisite majority of the Noteholders of such Series provided, however, that it is secured and/or indemnified and/or pre-funded to its satisfaction.

Governing Law

The Security Trust Deed and any non-contractual obligations arising out of or in connection with it will be governed by and construed in accordance with English law.

Description of the Sanctuary Group

THE SANCTUARY GROUP

Sanctuary is the parent and principal operating entity of the Sanctuary Group which is one of the largest groups of Registered Providers of Social Housing and Registered Social Landlords in the United Kingdom, managing approximately 125,094 units of accommodation throughout England and Scotland, providing different types of accommodation such as affordable housing for rent, shared ownership properties, sheltered housing, housing for those with special needs, care homes and student and key worker accommodation.

Sanctuary is a registered society with charitable objects and its purpose is to provide good quality, affordable housing for people in need. Although the organisation is run as a business, it does not trade for profit and any surplus is reinvested back into the organisation to maintain existing homes and to help finance new properties. Registered Providers of Social Housing form a key part of the provision of social housing in the United Kingdom. As a Registered Provider of Social Housing, Sanctuary is regulated by the RSH, which monitors the quality of service provided and has powers to intervene where it feels the organisation is being inappropriately managed or is in financial difficulty. Homes England provides UK Government funding in the form of grants and subsidised land to Registered Providers of Social Housing.

Background and History

Sanctuary was established on 5 May 1969 and has grown over the years through a series of strategic mergers and national development programmes. Sanctuary operates in the UK's social housing environment, which receives direct and indirect UK Government support.

Sanctuary's corporate strategy begins with its mission. It sets out what Sanctuary is trying to achieve and its values define how Sanctuary will behave in delivering that mission.

Sanctuary has identified different factors as its "ingredients for change", being: culture and people, innovation and infrastructure, and good governance and financial resilience to achieve significant progress in its three strategic objectives of growing services, investing in assets and customers first. It measures these through a balanced suite of key performance indicators, which it reports to the Group Board and the Executive Committee and in its Annual Financial Report and Financial Statements which are on its website.

Corporate Rating

Sanctuary has a credit rating of "A2" from Moody's and "A" from S&P.

Intra group Agreements

Sanctuary is part of a group structure arrangement that meets the regulatory requirements of the RSH. All subsidiaries of the Sanctuary Group, including the Original Borrowers, are wholly owned and controlled by Sanctuary. Sanctuary's authority is exercised through its shareholder membership and, pursuant to the rules or (as the case may be) articles of association of each subsidiary. Furthermore, this legal relationship between Sanctuary and its subsidiaries is enshrined in a series of intra group agreements (the **IGAs**). Performance of each IGA is reviewed annually, by both Sanctuary and the relevant subsidiary, with an annual update presented to the Sanctuary Group Board. These arrangements include, inter alia, requirements that Sanctuary must approve all subsidiary Board appointments, including the ability to remove all or individual Board members, and, for each subsidiary, all business, operational and other financial plans.

The IGAs also provide for dispute resolution between the parties; however, none of the Borrowers (with the exception of Sanctuary Scotland, which falls within the remit of the Scottish Housing Regulator (the **SHR**)) can leave the Sanctuary Group without notifying the RSH.

Additionally, for all subsidiaries, from the point an organisation joins the Sanctuary Group, are required to adopt group standing orders and financial regulations. These cover subsidiary governance, internal audit, and committee oversight.

Corporate Governance

The RSH's governance and financial viability standard requires Registered Providers of Social Housing:

 to have governance arrangements that ensure that they have structures, systems and processes to deliver their aims, objectives and intended outcomes for tenants and potential tenants in an effective, transparent and accountable manner; and, specifically, to adopt and comply with an appropriate code of governance; and to manage their resources effectively to ensure their viability is maintained and, specifically, to
have effective controls and procedures to ensure security of assets and the proper use of public
funds; to have effective systems to monitor and report delivery of their plans; to identify and
effectively manage the risks to delivery of financial plans; and to have a robust and prudent
business planning and control framework.

In addition to the governance and viability standards, from 1 April 2024 consumer standards for social housing landlords came into effect. The consumer standards are designed to protect tenants and improve the services they received from their social landlords.

The board of Sanctuary has adopted the National Housing Federation's Code of Governance - promoting board excellence for housing associations and seeks to comply with the RSH's good practice guide for treasury management for housing associations.

The Sanctuary Group is currently rated "G1" for governance, "V2" for viability and "C2" for consumer by the RSH. This is a routine process of regulation which assesses an organisation's performance as outlined in the RSH's Governance, Financial Viability and Consumer standards. The "G1" rating means that the Sanctuary Group meets the highest requirements on governance set out in the Governance and Financial Viability standard. The "V2" rating means that the Sanctuary Group meets the financial capacity to deal with a reasonable range of adverse scenarios but needs to manage material risks to ensure continued compliance. The "C2" rating (Sanctuary's first assessment of this measure by the RSH) means that the Sanctuary Group is generally meeting the delivery of outcomes of the consumer standards but there are some weaknesses in Sanctuary's delivery of the outcomes of the consumer standards and improvement is needed, specifically in relation to outcomes in the Safety and Quality Standard.

The Sanctuary Group operates in England, across 237 local authority regions, and Scotland; and as at 31 March 2024 had the following homes in management:

Total homes in management	125,094
Non-social housing accommodation	19,402

Description of the Regulation and Funding Environment applicable to the Borrowers

Description of the Social Housing Sector in England

The Social Housing Sector

Social housing is housing to rent at below market level rents or to buy through schemes such as shared ownership, in each case that is made available to those whose needs are not served by the commercial housing market.

Regulation

The Housing and Regeneration Act 2008 (as amended, the **HRA 2008**) makes provision for the regulation of social housing provision in England. The RSH is an independent regulator and statutory non-departmental public body, established under the HRA 2008. It is sponsored by the Ministry of Housing, Communities and Local Government (**MHCLG**) with responsibility for the regulation of Registered Providers of Social Housing. The RSH's statutory objectives and powers of enforcement are set out in the HRA 2008.

The RSH sets statutory economic and consumer standards that apply to Registered Providers of Social Housing (the **Standards**) as a means of defining the outcomes that social landlords must deliver for tenants. Registered Providers of Social Housing are expected to comply with the Standards and to establish arrangements to ensure that they are accountable to their tenants, the Regulator and relevant stakeholders.

Following changes introduced by the Social Housing (Regulation) Act 2023 (the **SHRA 2023**), the Consumer Standards were significantly revised and strengthened with effect from 1 April 2024. Prior to the SHRA 2023, the RSH took a reactive approach to regulating the Consumer Standards. Its intervention and enforcement powers were restricted to cases in which there were reasonable grounds to suspect actual or a significant risk of serious detriment to tenants. The "serious detriment" test has been removed by the SHRA 2023 and, from 1 April 2024, the RSH applies the same scrutiny and focus across all the Standards.

In relation to the RSH's economic regulation objective, there are three Standards that are classified as economic. These are:

- the Governance and Financial Viability Standard;
- the Value for Money Standard; and
- the Rent Standard.

In relation to the RSH's consumer regulation objective, there are four Standards that are classified as Consumer Standards:

- the Safety and Quality Standard requires landlords to provide safe and good quality homes and landlord services to residents;
- the Transparency, Influence and Accountability (including Tenant Satisfaction Measures) Standard – requires landlords to be open with residents, treating them with fairness and respect so they can access services, raise complaints when necessary, influence decision making and hold their landlord to account;

- the Neighbourhood and Community Standard requires landlords to engage with other relevant parties so residents can live in safe and well-maintained neighbourhoods and feel safe in their homes; and
- the Tenancy Standard sets requirements for the fair allocation and letting of homes and how landlords manage and end tenancies.

A further Standard, the Competence and Conduct Standard, relating to the competence and conduct of social housing staff, was consulted upon from 6 February to 5 April 2024. It is currently not certain when it will be introduced.

The RSH forms judgements to reflect its view of how well each Registered Provider of Social Housing is delivering the outcomes of the Standards. For large landlords (those who own 1,000 or more social homes), it carries out programmed inspections on a four yearly cycle and issue gradings for governance (G1 to G4) and viability (V1 to V4). Following all regulatory inspections undertaken after 1 April 2024, it also issues a consumer grade (C1 to C4) alongside the governance and viability grade. The RSH is also able to carry out inspections that are not programmed, including of small landlords, if they judge it to be appropriate.

The RSH has issued three codes of practice to support and amplify the requirements of the Governance and Financial Viability Standard, the Value for Money Standard and the Consumer Standards. It has published a suite of information explaining its operational approach to regulation, programmed and unprogrammed inspections, assessments of Registered Providers of Social Housing compliance with the Standards, dealing with regulatory issues and taking action on serious failures.

Community Benefit Society Status

Many Registered Providers of Social Housing are Community Benefit Societies (**CBSs**), registered with the Financial Conduct Authority (the **FCA**) under the Co-operative and Community Benefit Societies Act 2014 (the **CCBSA 2014**). This is an alternative business structure to, for example, companies and partnerships. Those that are charities are exempt from registration with the Charity Commission, but are otherwise subject to charity law. In 2024 the Law Commission was asked by HM Treasury to review the CBBS Act to ensure that it is fitting to the nature and needs of co-operatives and community benefit societies, and to ensure that regulation is proportionate and effective. The Law Commission published a consultation paper and a summary in September 2024, seeking views on their proposals. The consultation closed on 10 December 2024. Principal proposals for reform include:

- new statutory definitions for co-operatives and for community benefit societies, and the regulation of charitable community benefit societies;
- an overhaul of the law relating to society shares, with definitions of withdrawable and transferable shares, prescribed conditions for withdrawal and transfer, protections for class rights and when writing down shares, limits to interest payable on shares, as well as confirmation that shares can be issued with varying rights and to non-user investors; and
- society officers to be listed on the Mutuals Public Register, with statute to prescribe duties owed by officers.

The consultation paper discusses a long list of further reforms; the length of the list reflects the fact that parts of society law have not been systematically reviewed for over a century.

Some of the proposals would impact on Registered Providers of Social Housing which are Community Benefit Societies as follows:

New Regulatory Regime: The removal of exempt status for charitable community benefit societies will lead to significant changes in how these organisations operate. They will be required to meet both charity law obligations and those under the CCBSA 2014 (i.e. FCA governance). This dual regulatory framework aims to enhance accountability but may impose additional reporting obligations and governance requirements. For instance, while registered charities are less likely to pay their trustees, exempt charities currently have a wider discretion to remunerate their trustees. Under the proposed regulation, Charity Commission oversight will impose charity law that requires a special business case for trustees to be remunerated.

Membership and Voting Rights: One of the central proposals is the introduction of a statutory definition of co-operatives and community benefit societies that emphasizes democratic governance. The consultation suggests a "one member, one vote" rule as a fundamental principle for both types of societies. There are concerns regarding current practices where not all societies adhere to this principle – for instance where memberships are restricted and weighted voting exists. This rule aims to ensure that each member has equal voting power in decision-making processes but could disrupt current governance practices and require RPs to restructure the membership frameworks. The consultation has prompted calls for stakeholder feedback on the viability of 'one member, one vote' as a mandatory requirement for continued CBS status.

Property Disposals: The consultation also addresses asset locks, which are mechanisms intended to protect the assets of CBS from being distributed for private benefit. The proposed reforms seek to clarify the application of asset locks to ensure that assets remain dedicated to community purposes. This could significantly affect how housing associations manage their properties, particularly in terms of disposals and ensuring that any benefits derived from asset sales are reinvested into community services rather than distributed among members. In practice, this means that CBS's will be subject to more stringent oversight by the Charity Commission when attempting to dispose of property – any disposal must have a clear benefit to the community.

Charities Act 2011 Implications: Currently, charitable community benefit societies are classified as exempt charities, meaning they do not register with the Charity Commission and are subject to different regulatory standards. The consultation proposes that these societies should cease being exempt charities and instead register with the Charity Commission like other charities. This change would enhance regulatory oversight, ensuring that funds raised for charitable purposes are used appropriately. It would also mean that these societies would face dual regulation by both the Charity Commission and the FCA, potentially complicating compliance requirements.

Registration Requirements and Timescale: The proposed reforms include new registration requirements aimed at streamlining the process for both co-operatives and CBS. Existing societies may need to comply with new definitions retroactively to retain their registrations. To do so, organisations will be required to demonstrate compliance by outlining how they fulfil the criteria of a CBS or co-operative. The consultation has suggested an 18-month transition period allowing CBS to change their rules to adhere to the new statutory definitions.

The Law Commission's final recommendations for reform are expected to be published in a report in 2025. It will then be for the UK Government to decide on whether to progress any recommendations.

Housing Quality Standards

The Decent Homes Standard defines minimum standards which apply to all social housing in England. The UK social housing sector has been subject to intense scrutiny following the death of a child in 2020, where the Coroner's report cited cause of death as extensive and untreated damp and mould in a local authority owned home. The SHRA 2023 also contains new requirements with a view to maintaining housing quality standards and holding Registered Providers of Social Housing to account for failures to deal adequately with disrepair or poor quality housing, which have been incorporated into the new Consumer Standards. The SHRA 2023 also gives the RSH stronger enforcement powers to tackle failure and deficient performance by Registered Providers of Social Housing.

From 1 April 2023 Registered Providers of Social Housing have been required to collect and (annually) report prescribed and meaningful tenant satisfaction data against prescribed Tenant Satisfaction Measures (**TSM**), with the stated aim of enabling both tenants and the RSH to better hold Registered Providers of Social Housing to account for their performance. The first set of TSM data was published in November 2024.

While the RSH may investigate individual complaints if they consider that the issue may be material to a landlord's delivery of the outcomes required by a Standard, the Housing Ombudsman has statutory powers to deal with individual complaints. The SHRA 2023 strengthened the role of the Housing Ombudsman in order to provide tenants with a means of complaint and redress for inadequate housing provision by Registered Providers. A revised Complaints Handling Code (the **Code**), setting out good practice for Registered Providers in responding to complaints fairly and effectively, has been given a statutory footing with effect from 1 April 2024. Registered Providers of Social Housing are required carry out an annual assessment against the Code to ensure their complaint handling remains in line with its requirements and to publish the results. The Housing Ombudsman, who from 1 April 2024 has a statutory duty to monitor compliance (regardless of whether complaints are received), is actively enforcing the Code.

Moratorium and Housing Administration

In order to protect the interests of tenants and to preserve the housing stock of a Registered Provider of Social Housing within the social housing sector and within the regulatory regime, a 28 day moratorium is automatically triggered when certain steps are taken in relation to a Registered Provider of Social Housing such as presenting a winding up petition, application being made for its winding up or an administration order, the appointment of an administrator or the intention to enforce security over its property. During such moratorium period any disposal of land (including the enforcement of any security) by the Registered Provider of Social Housing without the RSH's prior consent will be void. Exceptions are made for specific types of lettings, and disposals pursuant to a right to buy or right to acquire. The RSH may then appoint an interim manager of the Registered Provider of Social Housing and/or seek to agree proposals about the future ownership and management of the provider's land with its secured creditors.

The Original Borrowers are each registered societies within the meaning of the CCBSA 2014, and are therefore not subject to administration under the Insolvency Act 1986. However, the HPA 2016, the Insolvency of Registered Providers of Social Housing Regulations 2018 and the Housing Administration (England and Wales) Rules 2018 introduced a special administration regime called housing administration which was brought into force on 5 July 2018 and is available in addition to the moratorium regime. This provides for a court to appoint a qualified insolvency practitioner known as a "housing administrator" to manage the affairs, business and property of a Registered Provider of Social Housing, following an application from the Secretary of State or (with the permission of the Secretary of State) the RSH.

An interim moratorium will run from the date of issue of an application for a housing administration order until the application is either dismissed or a housing administration order takes effect. Upon the making of a housing administration order, a Registered Provider of Social Housing shall become subject to a moratorium, for so long as such Registered Provider of Social Housing is subject to a housing administration order, during which secured creditors may not enforce their security without the consent of the housing administrator or the permission of a court.

Each housing administration order will last for 12 months (subject to certain exceptions) but may be extended. In certain circumstances a court may make an order enabling a housing administrator to dispose of property belonging to a Registered Provider of Social Housing which is subject to a fixed charge, albeit only on terms that the fixed charge holder receives the proceeds up to the value of the security and those proceeds are topped up to "market value" if the property is sold for less than this.

Housing Grant

Grant funding in the form of social housing assistance (the **Grant**) is allocated by the UK Government periodically under the Affordable Homes Programme to support the capital costs of developing affordable housing for rent or sale on shared ownership terms. Allocation of funding outside London under these programmes is administered by Homes England, an executive non-departmental public body sponsored by the MHCLG. Grant for affordable housing development within London is administered by the Greater London Authority.

Historically, Grant funding has been a critical part of funding for Registered Providers of Social Housing, sustaining their ability to provide housing for rent at below market level rents or on subsidised home ownership terms. Under the most recent Affordable Homes Programme 2021-2026 (**AHP 2021-26**), £7.39 billion has been made available for the supply of new build affordable housing outside London, with a further £4 billion available under the Homes for Londoners: Affordable Homes Programme 2021-2026. In the October 2024 Budget the Chancellor confirmed a £500 million top-up for the AHP 2021-26. Grant under the current AHP 2021-2026 may support a variety of tenures including social rent, affordable rent and shared ownership. Not all of the available funding is allocated from the outset of a programme, and bidders may bid for the remaining funding for development opportunities as these arise during the programme, provided they can be delivered within the programme timescales. Alongside funding for individual development schemes, Homes England operates a strategic partnership framework for allocation of funding on a tailored, longer term basis.

In 2018, Homes England launched a new partnership approach to deliver additional affordable homes by March 2022 and boost the wider supply of housing through the inclusion of homes for market sale. In total, Homes England provided a funding package of just under £590 million through to start on site by March 2022 to support the first wave of 8 strategic partnerships funding more than 23,500 additional homes across all tenures, including for market sale. Following on from the first wave of strategic partnerships, a new 2021-26 Affordable Homes Programme was launched in 2021, making available £11.4 billion of new UK Government grant to help fund the delivery of up to 130,000 new affordable homes across England, and 82,000 over the period in London. Around half of the new funding is for 'route into home ownership' comprising shared ownership and rent-to-buy tenures, with the other half for rent (including 10 per cent. for supported housing). The Affordable Homes Programme was topped up by £500 million in the 2024 Autumn budget, and by a further £300 million in February 2025.

Those appointed as Home England's strategic partners under this framework are typically amongst the larger Registered Providers, although the bidding process is also open to local authorities and developers with a strong track record of delivering new affordable housing. Sanctuary became a strategic partner of Homes England in March 2022; Sanctuary has been awarded £109.4 million under

its grant arrangements for the AHP 2021-26 to deliver 1,000 affordable homes. This grant funding will be paid against qualifying expenditure as incurred.

Social Housing Rents

Rent levels and rental increases for social rent and affordable rent within the social housing sector are strictly controlled in line with UK Government policy. Registered Providers of Social Housing are required to set and increase social rents as prescribed in the Rent Standard and the Policy Statement on Rents for Social Housing published by the MHCLG. The current Rent Standard 2020 came into force on 1 April 2020 giving effect to the UK Government's Policy Statement of Rents for Social Housing. This provides that social rented housing and affordable rented housing rents may increase by up to CPI + 1 per cent. each year. The Policy Statement on Rents for Social Housing states the intention that this should apply for at least five years. However, in response to high levels of inflation during 2022, the UK Government acted to limit annual rent increases for affordable and social rent homes to a 7 per cent ceiling for rent periods that began between 1 April 2023 and 31 March 2024.

The English Borrowers, along with many other Registered Providers of Social Housing also committed to a voluntary equivalent cap to the rental increase on their shared ownership leases. Subsequently annual rent increases have returned to CPI plus 1 per cent, and in December 2024 the UK Government announced that the Policy Statement would be rolled over by a further year until April 2026. Based on September CPI, this means permitted rents growth for rent periods that begin in the year from April 2025 of 2.7 per cent. During October – December 2024 the UK Government consulted on social housing rent policy from 1 April 2026, with a proposal that rent policy should remain in place for at least 5 years from 1 April 2026 to 31 March 2031 with a proposed policy that rents should be permitted to increase by up to CPI +1 per cent. Service charges are outside the scope of the Rent Standard but increases are expected to be kept in line with rent increases.

Since 2011, where a Registered Provider of Social Housing has entered a housing supply delivery agreement with Homes England or the Greater London Authority, that agreement may allow the Registered Provider of Social Housing to charge 'affordable rent' if certain conditions apply. 'Affordable rent' means the rent (inclusive of service charge) for a new tenant under a new tenancy may be up to 80 per cent. of market rent (unless this is lower than the social rent for the property). The grant agreement in respect of funding given under the AHP 2021-26 is a housing supply delivery agreement to charge an affordable rent.

Shared ownership

Many Registered Providers of Social Housing own and manage shared ownership portfolios. 'Shared ownership' refers to a tenure where the terms allow tenant to pay a percentage (previously between 25 per cent. and 75 per cent., but the minimum has been reduced to 10 per cent. for shared ownership homes funded under the AHP 2021-26) of the value of their home. Under a lease agreement with the Registered Provider of Social Housing landlord, the tenant will pay rent on the remaining percentage share. The lease includes a right to purchase the remaining share of the property in incremental stages (staircasing). The right to shared ownership applies as a condition of grant funding to all social and affordable homes built through the AHP 2021-2026 (save where certain limited exemptions apply). Model leases are published by Homes England and may only be varied with consent. Rent increases apply annually in line with the prescribed terms. Any sales receipt, including the appropriate proportion of Homes England funding, must be reinvested in the further new supply of shared ownership homes.

Welfare Benefit Reform

Most social housing tenants rely on one or more welfare benefits for at least part of their income. As a result, changes to the welfare benefit system can materially impact the ability of social housing tenants to meet their housing costs. There have been a range of reforms of the welfare benefit system in the last decade that have had and still have the potential to impact housing affordability for social housing tenants, including capping the overall amount of benefits households can receive, consolidating multiple benefits into a single payment (**Universal Credit**) and reforms specific to housing such as the Occupation Size Criteria.

Household Benefit Cap

Under the Welfare Reform Act 2012 (as amended, the **WRA 2012**), the total household benefit cap (the combined income from a number of welfare benefits for those that are of working age) is £22,020 per year for couples or single parents with resident children (or £25,323 in Greater London) and £14,753 per year for single people without children (or £16,967 in Greater London). Exemptions to the total household benefit cap can apply to those tenants who qualify for working tax credit; are above the qualifying age for pensions credit; obtain certain benefits for sickness and disability; or claim a war pension. The benefit cap will not apply in circumstances where a tenant or a tenant's partner is in receipt of (or is responsible for a child or young person who is in receipt of) benefits such as disability living allowance, personal independence payment or carer's allowance. During the 2023- 2024 financial year, households on eligible means-tested benefits, disability-related benefits and pensioners will receive additional "cost of living payments" of up to £900 per year to supplement their usual benefits, which also do not count towards the cap. The benefit cap will remain frozen at these levels for 2025/26.

In September 2024 the UK Government announced the removal of the Winter Fuel Payment for households in England unless they receive Pension Credit or certain other means-tested benefits.

Occupation Size Criteria/Bedroom Entitlement

Under the WRA 2012, there is a size criterion for working age social housing tenants in receipt of housing benefit known as the "removal of the spare room subsidy" or "bedroom tax". The arrangements allow each of certain defined categories of people (such defined categories being: (a) a couple, (b) an adult (over 16), (c) two children of the same sex, (d) two children under the age of 10, (e) any other child, (f) those with a disability, and (g) a non-resident overnight carer) to be entitled to one bedroom. Exceptions will also be applied to properties adapted under a sanctuary scheme. Where a household has one extra bedroom, housing benefit is reduced by 14 per cent. of the rent charge. Where a household has two or more extra rooms, the reduction to housing benefit is 25 per cent.

Universal Credit

Universal Credit, introduced under the WRA 2012, replaced six existing means-tested benefits and tax credits for working-age families (income support, income-based jobseeker's allowance, income-related employment and support allowance, housing benefit, child tax credit and working tax credit) with a single means-tested monthly payment, transferred directly into a household bank account of choice. Deductions may be made at source for overpayments, arrears and advance loans. There are three types of alternative payment arrangements available for claimants:

- (a) direct payment of the housing cost element to landlords (known as managed payments) for those claimants who may need extra support in managing the payments;
- (b) splitting of payments between members of a couple (in exceptional circumstances); and

(c) more frequent payment of benefit where a claimant is two months or more behind in paying rent or where a claimant has continually underpaid their rent and has accrued arrears of an amount equal to or more than one month's rent.

If the Department of Work and Pensions (the **DWP**) does not set up a managed payment, Registered Providers of Social Housing can request a managed payment and inform the DWP of other reasons why a managed payment might be needed. Landlords can request deductions from a claimant's Universal Credit to repay existing rent arrears, known as third party deductions. Deductions will be a minimum of 10 per cent. and a maximum of 20 per cent. of a claimant's Universal Credit standard allowance.

Right to Buy

It was a manifesto commitment by the Conservative party for the 2015 and 2017 general elections to extend the right to buy (an entitlement afforded to secure local authority tenants) to tenants of Registered Providers of Social Housing but as part of the Autumn Budget in October 2024 the UK Government announced a number of changes to the Right to Buy scheme, and has since confirmed that the Right to Buy will not be extended to housing associations. Discounts for purchases through the Right to Buy scheme (which affect the English Borrower where some tenants of formerly local authority housing have the Preserved Right to Buy, will revert to the substantially lower pre-2012 levels and will no longer be automatically increased annually by CPI.

A statutory right to acquire (the **RTA**) applies to certain tenants of Registered Providers of Social Housing under the Housing Act 1996. The RTA operates in broadly the same way as the statutory right to buy, except for two key differences:

- (a) the Registered Provider of Social Housing may sell an alternative property; and
- (b) the discount is substantially smaller (maximum £16,000) and does not vary depending on the number of qualifying years as a tenant.

English Building Safety Reform

One area where building safety continues to evolve is in respect of the changes established by the Fire Safety Act 2021 (the **FSA 2021**) and the Building Safety Act 2022 (the **BSA 2022**).

Fire Safety Act

The FSA 2021 received Royal Assent in April 2021 and sets out various changes to the Regulatory Reform (Fire Safety) Order 2005 (the **RRFO**) so that a responsible person is now required to take account of the safety of a building's external wall system in its fire risk assessment for any building with two or more sets of domestic premises (a **Relevant Building**).

The FSA 2021 also introduced a requirement to take account of the safety of a building's structure and all doors between the domestic premises and common parts in the fire risk assessment.

The FSA 2021 presents significant changes in the way fire safety must be managed, placing greater emphasis on a responsible person to comply with requirement where there is a duty to manage Relevant Buildings. A responsible person must, when assessing the risk of Relevant Buildings consider the following: its structure, external walls and anything attached (including cladding, balconies, windows and doors) and the properties entrance doors to the Relevant Building's common areas.

These amendments to the RRFO have serious impact on all building owners, including Registered Providers of Social Housing as assessments are likely to lead to defects being identified and therefore

necessitating rectification. Failure to carry out a sufficient risk assessment or to comply with any recommendations made as a result of the assessments could constitute an offence or become the subject of enforcement action.

Building Safety Act

On 28 April 2022, the BSA 2022 received royal assent. The BSA 2022 represents a fundamental reform of building safety requirements with the aim of ensuring that residents are safe in their homes. The BSA 2022, together with significant secondary legislation and related guidance, imposes an enhanced regulatory regime, overseen by the building safety regulator (**BSR**) for the design, construction and occupation of buildings that are 18 metres or above or are seven storeys or above, whichever is reached first and that meet a multi-dwelling test (Higher-risk buildings).

The BSA 2022 includes:

- (a) amendments to the Building Act 1984 and Building Regulations 2010 to introduce a dutyholder and competence regime which applies not only to Higher-risk buildings but to all projects that require building regulations approval in England with only limited exceptions; dutyholders have clear responsibilities for safety throughout a building's design and construction.
- (b) the introduction of the roles of "Principal Accountable Person" and "Accountable Person" who hold the responsibility for safety during the occupation phase including obligations to:
 - (i) comply with the safety case and mandatory occurrence reporting requirements;
 - (ii) conduct an assessment of fire and structural safety risks for areas of responsibility;
 - (iii) prepare and keep under review a residents' engagement strategy;
 - (iv) provide residents with relevant safety information about the building;
 - (v) keep and update prescribed information about the building; and
 - (vi) take all reasonable steps to prevent a major incident occurring (a major incident being defined as one leading to a significant number of deaths or serious injury to a significant number of people) because of a building safety risk materialising and to reduce the severity of the incident;
- (c) a new building safety charge regime as well as an obligation on residents to ensure they do not undermine the fire and structural safety for the building in which they live;
- (d) various provisions to give residents a stronger voice in the system and ensuring their concerns are never ignored;
- (e) the establishment of the new BSR to provide oversight of the new building safety regulatory regime; and
- (f) strengthened enforcement and sanctions to deter non-compliance with the new regime.

Leaseholder Protections under BSA 2022

The BSA 2022 and its related secondary legislation contain numerous financial protections for leaseholders of "relevant buildings" (a self-contained building that contains at least 2 dwellings and is at

least 11m high or has at least 5 storeys excluding leaseholder owned buildings) with safety defects. Note that this is a different definition of relevant buildings to the one referred to earlier in the note (in respect of the FSA 2021).

Section 122 and Schedule 8 of the BSA 2022 provide that certain service charge amounts relating to relevant defects in a relevant building are not payable and that such sums are recoverable from landlords under qualifying leases. This prevents altogether, or otherwise limits, the costs that can be passed through the service charge to the leaseholder in respect of certain historical building safety defects.

Remediation Orders and Remediation Contribution Orders can also be granted in respect of residential buildings of at least 11 metres or five storeys in height. These are orders made by the First Tier Tribunal requiring a building to be remediated or an order requiring a party to pay the costs of remediating a building.

Fire Safety Regulations

Requirements for existing buildings have been introduced by the Fire Safety (England) Regulations 2022 which came into force in January 2023, requirements depend on the height of buildings and include:

- (a) for all residential buildings of any height the provision of additional information to residents on fire safety and fire door safety by the Responsible Person;
- (b) for all residential buildings over 11 metres in height the Responsible Person must check the condition of all common part fire doors every quarter, and make best endeavours to check flat front doors annually; and
- (c) for all residential buildings over 18 metres, the Responsible Person must provide the local fire rescue service with an electronic record of the design of the external walls of the building, including details of the materials from which they are constructed. This must include details of the level of risk to which the design and materials of the external walls gives rise, as identified in the fire risk assessment that the Responsible Person is required by the Fire Safety Order to carry out as well as any mitigating steps taken and must be updated if there are any significant changes to the external walls. In addition, such buildings must have secure information boxes, wayfinding signage installed, and floor plans available in the secure information boxes.

The regulations affect many aspects of the business of Registered Providers of Social Housing and in particular, the procurement, development, construction and management of existing and new build properties.

Higher-Risk Buildings

There is an additional 'layer' of duties and roles on any project involving work to Higher-risk buildings under The Building (Higher-Risk Building Procedures) (England) Regulations 2023. This means that where procuring building works the Borrowers need to review their project arrangements and procurement processes to ensure that they are suitable to enable compliance to take account of the additional scrutiny such projects are under and the requirements for those involved in the project to specifically be competent to carry out such work.

It is a criminal offence not to have registered an occupied Higher-risk building with the building safety regulator. Occupied Higher-risk buildings were to be registered with the building safety regulator by 1 October 2023.

The Grenfell Phase 2 Report

The Grenfell Phase 2 report was published on 4 September 2024. It runs to seven volumes, or nearly 1,700 pages and makes 58 recommendations, many of which are aimed at addressing the regulatory deficiencies which led to the Grenfell tragedy. The UK Government's response was published on 26 February 2025. In its response, the UK Government accepted 49 of the 58 recommendations in full, with the remaining 9 recommendations accepted in principle. The recommendations are to be delivered by 2028 over three phases.

One of the recommendations from the Grenfell Phase 2 report is that there should be a review of the Higher-risk building definition so that it is not defined by reference only to the height of a building but rather to take into account the use of the building and the nature and vulnerabilities of the occupants of the building.

UK Government's Remediation Acceleration Plan

The UK Government has also confirmed in its "Remediation Acceleration Plan", published in December 2024, that there will be further new legislation (expected in 2025) which will:

- (a) require mandatory registration of all residential buildings between 11-18m in height. Once complete this will mean that there is a "complete register" of all residential buildings above 11m; and
- (b) ensure the "strongest possible penalties" for those that do not comply.

"Net Zero" Targets and the Impact on the Social Housing Sector

The Climate Change Act 2008 (the **CCA 2008**) committed the UK (by law) to an 80 per cent. reduction of greenhouse gas emissions by 2050, compared to 1990 levels. In 2019, the UK Government revised (and upgraded) the UK's commitment to reducing greenhouse gas emissions to a 100 per cent. reduction through the Climate Change Act 2008 (2050 Target Amendment) Order 2019. The CCA 2008 also established the Committee on Climate Change (the **CCC**) to ensure that emissions targets are evidence based and independently assessed. The CCA 2008 requires the UK Government to set legally-binding "carbon budgets" to act as formal milestones towards the 2050 target. A carbon budget is essentially a cap on the amount of greenhouse gases emitted in the UK over a five-year period. Carbon budgets must be set at least 12 years in advance of when they will be in place, in order to allow policy-makers, businesses and individuals sufficient time to prepare. Once a carbon budget has been agreed/set, the CCA 2008 enshrines it in law and places a binding obligation on the UK Government to put policies in place to ensure the budgeted cap on greenhouse gas emissions is met (i.e. not exceeded). Thereby, the UK is committed to a:

- 51 per cent. reduction of greenhouse gas emissions (on 1990 levels) by 2025;
- 57 per cent. reduction of greenhouse gas emissions (on 1990 levels) by 2030;
- 78 per cent. reduction of greenhouse gas emissions (on 1990 levels) by 2035; and
- 100 per cent. (net zero) reduction of greenhouse gas emissions by 2050.

Among the UK Government's strategies to meet these targets, those that will impact the social housing sector include:

- (a) The Heat and Buildings Strategy (October 2021), which outlines the UK Government's overall strategy for transition to high-efficiency, low-carbon buildings.
- (b) The Clean Growth Strategy includes a stated aspiration for as many homes as possible to reach EPC Band C by 2035 where practical, cost effective and affordable. In September 2023 the UK Government cancelled targets aimed specifically at the private sector. In January 2024, the DLUHC announced that the ongoing review of the Decent Homes Standard will include minimum energy efficiency standards for social housing. In September 2024, the Government announced its intention to require all social homes in to achieve an Energy Performance Certificate (EPC) standard of Band C by 2030.
- (c) The Warm Homes Social Housing Fund (and other grant funding), providing financial support for upgrading social housing stock currently below EPC Band C to that standard and supporting the installation of energy performance tools in social homes in England. Registered Providers of Social Housing who bid successfully will be asked to contribute a minimum of 50 per cent. of eligible costs by way of co-funding.
- (d) Improvements to the EPC regime, with a view to driving deployment of necessary energy efficiency measures on a holistic basis to address overheating, ventilation and moisture-risk, and the development of a holistic Net Zero Carbon Building Standard.
- (e) Future policies to drive more resource-efficient construction and use of existing low carbon materials, possibly including phasing in mandatory whole-life reporting and, to follow, minimum standards for all buildings.

Description of the Social Housing Sector in Scotland

The Social Housing Sector

Social housing is housing to rent at below market level rents or to buy through schemes such as shared ownership, in each case that is made available to those whose needs are not served by the commercial housing market.

Social housing in Scotland is provided by housing associations and local authorities. The term "social housing" is not statutorily defined; it reflects the practice in many quarters of referring to local authority and Registered Social Landlord provided housing as "social housing". Non-local authority social housing providers in Scotland, which are registered with the SHR, are legally identified as Registered Social Landlords, rather than "Registered Providers of Social Housing". Registered Social Landlords are housing organisations which are independent of local authorities. In Scotland – unlike in England – the applicable legislation permits only non-profit distributing organisations to be registered as Registered Social Landlords. In 2023/24, Scottish social landlords provided 630,732 homes to rent, up 1 per cent. from the year before. The number of local authority homes increased by 2,398, while the number of Registered Social Landlord homes increased by 4,366. Sanctuary Scotland is a Registered Social Landlord.

Regulation

The Housing (Scotland) Act 2010 (the **HSA 2010**) brought into operation the SHR. The SHR is a nonministerial department of the Scottish Government and has a statutory set of aims and objectives. The SHR's objectives are to safeguard and promote the interest of homeless persons, tenants of social landlords or recipients of housing services provided by Registered Social Landlords. Its functions must be performed accordingly in line with those objectives. The SHR has flexible powers of inquiry in relation to the affairs of Registered Social Landlords. The legislation outlines a concise statutory remit for the SHR to follow to achieve its objectives and also includes provisions to encourage, support and assess the performance of Registered Social Landlords.

The Scottish Ministers' Scottish Social Housing charter came into force in April 2012, which sets out the standards with which Registered Social Landlords will have to comply. The remit of the SHR includes requiring that Registered Social Landlords comply with the principles of the Scottish Social Housing Charter or implement performance plans to meet performance targets. The SHR has flexibility on how to intervene and has the power to issue enforcement notices where a Registered Social Landlord has failed to implement any changes required of it, for example, where there is evidence of continuing mismanagement or where the financial viability of the Registered Social Landlord is at risk. The SHR describes its approach as "risk-based regulation". The risk in question is not the landlord's own operational risk; rather, the SHR is focused on the risk to the interests of tenants and other service users. Risk-based regulation is a way for the SHR to prioritise its use of resources and to plan how to engage with social landlords through further scrutiny, engagement and intervention.

The provisions of the Housing (Amendment) (Scotland) Act 2018, which came into force on 8 March 2019, removed the SHR's powers of consent for disposals of land or assets as well as for constitutional and organisational changes. Registered Social Landlords are still required to notify the SHR of relevant disposals and constitutional and organisational changes, and to notify it of the outcome of tenant consultation (where that is required). Indeed, while prior approval is no longer required, the process for notification laid out by the SHR continues to envisage significant regulatory involvement.

In its Regulatory Framework document, which was updated in February 2024, the SHR requires annual assurance statements to be submitted by social landlords to confirm compliance with the SHR regulatory requirements. The SHR publishes an engagement plan for every landlord as well as a regulatory status for each Registered Social Landlord, which sets out the SHR's judgement on compliance with regulatory requirements and the regulatory standards of governance and financial management. In addition, Registered Social Landlords must comply with, and submit information to, the SHR in accordance with its guidance on: notifiable events; group structures; consulting tenants where tenant consent is required; financial viability of Registered Social Landlords: information requirements; determination of accounting requirements; and preparation of financial statements.

Housing Quality Standards

In Scotland, the Scottish Housing Quality Standard (**SHQH**) was introduced in February 2004. Under this standard, social landlords must ensure that homes are:

- compliant with the "Tolerable Standard" which is a basic level of repair the property must be in to make it fit to live in;
- energy efficient, safe and secure;
- have modern facilities and services;
- not seriously damaged; and
- have kitchens and bathrooms that are in good condition.

The Scottish Government set local authority landlords and registered social landlords a target to bring their housing stock up to the SHQS standard by April 2015. This standard was incorporated into the Scottish Social Housing Charter. Technical guidance for the SHQS for social landlords was published

by the Scottish Government in March 2011 and replaced the original guidance from 2004 and can be found on the Scottish Government website.

The energy efficiency section of SHQS has been replaced by the Energy Efficiency Standard for Social Housing which landlords are required to meet by 2020. The guidance referred to above has been updated to reflect this. The monitoring of properties against the SHQS is carried out by the Scottish Housing Regulator who report on the statistics both nationally and for individual registered social landlords.

Moratorium in relation to Registered Social Landlords

In a similar vein to English law, Scots law applies a 56 day moratorium to prevent the disposal of land owned by an insolvent Registered Social Landlord. The moratorium begins when any of the following occurs: a person takes a step to enforce a security over a Registered Social Landlord's land, a petition is presented for the winding up of a Registered Social Landlord, notice is given to the SHR of a proposed resolution for the winding up of a Registered Social Landlord, a person applies for or makes an administration order in respect of a Registered Social Landlord which is a registered company, or an administrator is appointed in respect of a Registered Social Landlord which is a registered company. The SHR can extend the 56 day period from time to time with the consent of all the Registered Social Landlord's secured creditors (technically, the reference is to such of the Registered Social Landlord's secured creditors as the SHR can reasonably locate after making reasonable enquiries).

During the moratorium, the land may not be disposed of without the SHR's consent, with certain specified exceptions. The exceptions include the following: leases under a Scottish secure tenancy, a short Scottish secure tenancy, an assured tenancy or assured agricultural occupancy, what would be an assured tenancy but for certain exceptions pursuant to Schedule 4 of the Housing (Scotland) Act 1988, what would be a private residential tenancy but for certain exceptions under the Private Housing (Tenancies) (Scotland) Act 2016, other occupancy arrangements, disposals made by the SHR following inquiries into a Registered Social Landlord's misconduct/mismanagement/poor financial governance, disposals made on dissolution or winding up of a Registered Social Landlord which is society registered under the a CCBSA 2014 or a registered company, a disposal made by a manager of the Registered Social Landlord appointed by the SHR, disposals made in the course of the restructuring of a Registered Social Landlord, or disposal in a manner determined by the SHR.

No regime comparable to the housing administration regime under English law, currently exists in Scotland, meaning that any administration of the Scottish Borrower (and any associated administration moratorium) would be subject to the provisions of the Insolvency Act 1986.

Housing Grant

The Scottish Government's Affordable Housing Supply Programme (the **AHSP**) comprises a range of funding mechanisms (including grant, loan, and equity funding) to enable affordable housing providers to deliver homes for social rent, mid-market rent, and low-cost home ownership in communities across Scotland to support local authorities' Local Housing Strategies. The AHSP is administered by the Minister for Housing, operating as part of the Local Government and Housing Directorate of the Scottish Government. The AHSP budget for 2024/25 included the "More Homes Grant" budget of £454.417 million and "Total Capital Grant" budget of £546.662 million.

Subsidies continue to be given to local authorities and Registered Social Landlords to enable them to deliver social housing and fulfil the Scottish Government's targets for new homes for social rent. There does, however, remain an expectation that affordable housing providers – including Registered Social Landlords - negotiate funding from other sources, such as private and charitable investors.

Social Housing Rent

In Scotland, Registered Social Landlords are subject to the Scottish Government's Social Housing Charter, which includes the following outcomes/standards as regards rent: "Social landlords manage all aspects of their businesses so that: tenants, owners and other customers receive services that provide continually improving value for the rent and other charges they pay" and "Social landlords set rents and service charges in consultation with their tenants and other customers so that: ...a balance is struck between the level of services provided, the cost of the services, and how far current and prospective tenants and service users can afford them; and tenants get clear information on how rent and other money is spent, including details of any individual items of expenditure above thresholds agreed between landlords and tenants." The Standards of Governance and Financial Management for Registered Social Landlords include: "The Registered Social Landlord manages its resources to ensure its financial well-being, while maintaining rents at a level that tenants can afford to pay."

Under the Cost of Living (Tenant Protection) (Scotland) Act 2022, the Scottish Government introduced a moratorium on increases in rents for homes provided by Registered Social Landlords and private landlords running from September 2022 until at least the end of March 2023. This was a change from the previous position in the Scottish social housing sector, which was that the level of rent to charge was a decision for each Registered Social Landlord to make in consultation with its tenants. The Scottish Government expired the emergency provisions on rent caps for Registered Social Landlords on 26 February 2023 in response to Registered Social Landlord representative bodies announcing their plans for below inflation rent increases.

For non-Registered Social Landlord landlords, the moratorium was replaced by a cap on rent increases of 3 per cent. until 31 March 2024, upon which the Scottish Government introduced a new process to challenge a rent increase if the tenant believes it to be too high. The rent increase can now be up to a maximum of 12 per cent., but this could be lower depending on the gap between a private tenant's current rent and the market value of the rent for that property.

The Housing (Scotland) Bill recently passed Stage 1 at the Scottish Parliament and the Scottish Government has put forward proposals for private tenancy rents to be capped at the Consumer Price Index plus 1 per cent., up to a maximum of 6 per cent.. As proposed, this cap would only apply in rent control areas, and the power to designate all or parts of a local authority area as a rent control area falls to the Scottish Ministers. Under the Bill, rent increases would be capped both during and in between tenancies.

The Scottish Ministers are also given the power to exempt properties from the restrictions imposed on rent control areas. While the Scottish Government is yet to confirm which properties will be exempt, the Housing Minister, Paul McLennan MSP, indicated in his statement to the Scottish Parliament on 31 October 2024, that mid-market rental properties are likely to be exempt.

Shared ownership agreements in Scotland are defined at section 83(3) of the Housing (Scotland) Act 2001. The requirements are less specific than those imposed in England by the AHP 2021-2026 and Homes England funding requirements. Under a shared ownership agreement in Scotland, "a pro indiviso right in a house is sold, and the remaining pro indiviso rights therein are leased, to a person subject to the person being entitled, from time to time, to purchase those remaining rights until that person has purchased the entire house", but other agreements may be approved by the Scottish Ministers so long as "a person acquires a pro indiviso right in a house and thereby becomes entitled to exclusive occupancy of the house".

Different providers offer shared ownership housing schemes with different terms and conditions and eligibility rules. Typically, a tenant buys a share of 25 per cent., 50 per cent. or 75 per cent. of a home,

with the rest owned by the provider, and the tenant has the right to buy the remaining share of the home in incremental amounts.

Welfare Benefit Reform – Household Benefit Cap

Welfare benefits are largely reserved to the UK Parliament, but the Scotland Act 2016 devolved certain welfare powers to the Scottish Parliament, including: an expanded power to provide discretionary payments and assistance and powers to vary the housing cost element of Universal Credit for rented accommodation and to change payment arrangements for Universal Credit. Accordingly, powers are devolved to the Scottish Government to continue payment of housing benefit direct to Registered Social Landlords in Scotland, mitigating the risk of accruing rent arrears following the introduction of Universal Credit.

Discretionary Housing Payments (**DHPs**) are administered in Scotland by local authorities and may be awarded when a local authority considers that a claimant in receipt of housing benefit or Universal Credit (which includes a housing element towards rental liability) requires further financial assistance towards housing costs. DHPs may be used to mitigate the impact of the removal of the spare room subsidy in Scotland.

In September 2024, the UK Government also announced the removal of the Winter Fuel Payment for households in England unless they receive Pension Credit or certain other means-tested benefits. Winter Fuel Payments are not available in Scotland, although individuals may be eligible for a similar payment from the Scottish Government known as the Winter Heating Payment. This is available to people already receiving the following UK benefits during the "qualifying week": Universal Credit; Pension Credit; Income Support; Income based Jobseeker's Allowance; Income Related Employment Support Allowance; or Support for Mortgage Interest.

Right to Buy

In Scotland, the provision to end Right to Buy with a two-year notice period was included in the Housing (Scotland) Act 2014, and the scheme subsequently closed to all new applicants on 31 July 2016. This followed criticism of the substantial impact of Right to Buy on the profile of Scottish housing, with nearly half a million social housing properties being sold from 1979 to 2016.

Building Safety Reforms

Some legislation has been enacted in Scotland pursuant to the Phase 1 and Phase 2 Reports issued by the Grenfell Tower Public Inquiry in response to the 2017 Grenfell Tower fire disaster and the recommendations of Dame Judith Hackett in her independent review of fire safety and building regulations.

Building Safety Act

The application of the BSA 2022 differs within the UK, and only certain provisions apply in Scotland. The most significant are:

(a) the BSA 2022 introduces new legal rights of action against parties who fail to comply with cladding or construction product requirements, produce inherently defective products, or make misleading statements about products during provision or marketing. Anyone with a stake in a residential building can now initiate a claim, regardless of whether they have a direct contractual relationship with the party in breach. Furthermore, the scope of the claim extends beyond personal injury or property damage, to include economic losses such as expenses for alternative accommodation; and (b) there is an extended prescription period for liability related to construction products to 15 years, with the exception of buildings using cladding products completed before the BSA 2022's enactment, which now have a 30-year time limit. This significantly diverges from Scotland's existing prescription law period of five years.

Housing (Cladding Remediation) (Scotland) Act

The Housing (Cladding Remediation) (Scotland) Act 2024 (the **HCRSA 2024**) received Royal Assent in June 2024 and it is now fully in force. The HCRSA 2024 has been introduced to reduce the risk to life from unsafe cladding on people's homes and gives powers to Scottish Ministers to assess and remediate certain types of buildings with unsafe cladding. Effectively, the HCRSA 2024 puts a framework in place for Scottish Ministers to:

- (a) assess and remediate buildings with unsafe cladding through Single Building Assessments;
- (b) establish a register to record assessments and remediation works known as the Cladding Assurance Register; and
- (c) establish a scheme requiring the building industry to contribute to assessing and remediating dangerous cladding known as the Responsible Developers Scheme.

The HCRSA 2024 applies to multi-residential domestic buildings built or refurbished between 1 June 1992 and 1 June 2022 which stand 11 metres or more above the ground and incorporate some form of external wall cladding system. Secondary legislation is required to develop this framework further.

Fire Safety Order

The FSO does not apply in Scotland. Fire safety in Scotland is regulated by Part 3 of the Fire Safety (Scotland) Act 2005 (the **FSSA 2005**) and the Fire Safety (Scotland) Regulations 2006 (the **FSSR 2006**). The legislation applies to non-domestic premises which includes all workplaces, commercial premises, any premises to which the public have access and any housing which is in multiple occupation, including social housing. The FSSA 2005 requires anyone deemed to be "in control" of relevant premises to carry out a risk assessment to identify fire safety risks and put in place reasonable mitigation measures to ensure fire safety. Where the person in control is not the owner, the owner must also carry out the required risk assessment and put in place mitigation measures. The duties under the FSSA 2005 are more general than those set out in the FSO. The Scotlish Fire and Rescue Service is the body responsible for enforcement of fire safety in Scotland, and it has issued guidance in relation to what a fire risk assessment should cover. However, there are no specific requirements set out in the Scotlish legislation for a party to consider particular parts of a building or its structure when carrying out the risk assessment.

Stock and Zero Carbon

The Scottish Government, by way of its Climate Change (Emissions Reduction Targets) (Scotland) Act 2019 (amending The Climate Change (Scotland) Act 2009) has set out an increased ambition in terms of Scotland's own emissions reduction target of reaching net zero by 2045. The Climate Change (Emissions Reduction Targets) (Scotland) Bill recently passed by the Scottish Government removed the annual and interim emissions reduction targets in favour of setting five-year carbon budgets. This brings Scotland's approach in line with the remainder of the United Kingdom. Such targets are now driving policy change across the Scottish Government, including a stated intention that new-build homes will have 75-80 per cent. less carbon emissions than homes built to current standards. Interim targets have also been set by the UK Government for all fuel poor homes to achieve an EPC standard of Band C by 2030. The Scottish Government has a stated ambition for fuel poor households to have attained the

equivalent of an EPC B by 2040 and have recently consulted on proposals for a new Social Housing Net Zero Standard. Increasing regulatory expectations create a new set of requirements and accompanying risks that need to be managed.

Levelling Up and Regeneration Act

The infrastructure levy and the planning reform measures in the Levelling Up and Regeneration Act 2023 do not apply in Scotland. There are separate provisions in the Planning (Scotland) Act 2019 which would allow the Scottish Ministers to introduce an infrastructure levy in Scotland, but these provisions are not yet in force. The Minister for Public Finance announced on 12 November that the Scottish Government would stop work on introducing the infrastructure levy, and instead explore ways of improving existing mechanisms for securing contributions, namely via planning obligations. The provisions that allow the introduction of an infrastructure levy are subject to a "sunset clause", meaning that they will lapse if regulations establishing the levy are not made by July 2026.

Moveable Transactions (Scotland) Act 2023

Under Scots law, the legal position on creating fixed security over certain types of moveable assets and on assigning an interest in incorporeal property by way of security is due to change in the near future when the Moveable Transactions (Scotland) Act 2023 (the **MTSA 2023**) comes into force (which is expected to be 1 April 2025).

In relation to the grant of assignations, the effects of the MTSA 2023 will be (among other things) to introduce an alternative to intimation by allowing assignations to be perfected by way of registration in a new Register of Assignations and to allow future incorporeal assets to be assigned upon them falling within the assignor's patrimony. This means that, following the coming into force of the MTAA 2023: (a) it may no longer be necessary for assignations given to the Security Trustee by way of registration instead; and (b) provided such assignations are drafted widely enough, it may also be possible for those assignations to assign certain future incorporeal assets without having to execute new security documents each time such asset is acquired.

Valuation Report

Numerical Apportionment Basis

Where the applicable Pricing Supplement in respect of any Fully Secured Notes states that the Series Underlying Security is allocated on a Numerical Apportionment Basis, the Notes will be secured by, *inter alia*, an allocation of charged properties from a shared security pool (the **Apportioned Properties**). On an ongoing basis, the Security Trustee will apportion such number of units of the Charged Properties between all the NAB Beneficiaries (including the Issuer in respect of each Series of Fully Secured Notes that has specified Numerical Apportionment Basis as being applicable) as is appropriate.

The following valuation report (the **Valuation Report**) therefore relates to the Apportioned Properties, an appropriate part of which will be apportioned to secure the Fully Secured Notes of each Series, such part as is required to enable the Group Borrower to satisfy the Asset Cover Test in respect of such Series (as defined in the relevant Secured Loan Agreement) (see the section entitled "*Description of the Secured Loan Agreements*" above)).

The Valuation Report was prepared by Jones Lang LaSalle Limited, Registered Chartered Surveyors of 30 Warwick Street, London W1B 5NH. The Valuation Report is included in these Programme Admission Particulars, in the form and context in which it is included, with the consent of the Valuer and the Valuer has authorised the contents of this section.

The Valuer has no material interest in the Issuer, the Group Borrower or any Original Borrower.

Summary of valuations

A summary of the values of the Apportioned Properties set out in the Valuation Report is set out below:

EUV-SH or, where appropriate, MV-ST*			Total	
Units	EUV-SH is appropriate	Units	MV-ST is appropriate	
260	£19,620,000	2,921	£410,880,000	£430,500,000

* A further 321 Units have been attributed a nil value.

Initial Apportioned Properties

The applicable Pricing Supplement in respect of each Series of Fully Secured Notes in respect of which Numerical Apportionment Basis has been specified to be applicable in the applicable Pricing Supplement, shall specify the number of units in respect of the Apportioned Properties to be initially apportioned to the Issuer in respect of such Series of Fully Secured Notes as at the Issue Date of such Series.

Specific Apportionment Basis

Where the applicable Pricing Supplement states that the security in respect of a Series of Fully Secured Notes is allocated on a Specific Apportionment Basis, the relevant valuation report will be set out in a drawdown admission particulars, or (if permitted by the London Stock Exchange) a supplement to these Programme Admission Particulars, in respect of such Series of Fully Secured Notes.

Executive Summary

This summary should be read in conjunction with the main body of our report. Section numbers are supplied where relevant.

Introduction

The date of this report is 04 April 2025.

Jones Lang LaSalle Limited has been instructed to value a portfolio of 3,502 properties for loan security purposes.

Properties

The portfolio comprises 3,181 social housing units located in a nationwide portfolio across England. From our inspections, the properties are a mixture of ages and of traditional brick or concrete and steel construction.

The portfolio contains a mixture of different tenures as summarised in the table overleaf and set out in greater detail in section 3 of this report.

In addition, there are 321 units in the portfolio which either form ancillary accommodation, or have been sold on long leases or fully staircased. The Original Chargors' interest in these units is considered to be de minimis for the purpose of this exercise and so they have been included at nil value. Furthermore, please note that these properties have not been included in any unit counts or other statistics in this report.

We have inspected the exterior of all units in the portfolio and have seen a representative sample of % internally (section 3).

Valuations

The valuation date is 04 April 2025.

Our valuation of the 260 properties being valued on the basis of Existing Use Value for Social Housing ("EUV-SH"), in aggregate, at the valuation date is:

£19,620,000

(nineteen million, six hundred and twenty thousand pounds)

Our valuation of the 2,921 properties being valued on the basis of Market Value subject to Tenancies ("MV-T"), in aggregate, at the valuation date is:

£410,880,000

(four hundred and ten million, eight hundred and eighty thousand pounds)

The following table summarises our opinions of value (section 6):

Total	47		£5,125,000	£7,480,000

Portfolio Analysis

Strengths:

- given the divergence between property prices and local average earnings, demand for these properties should be sustainable in the medium to long term;
- the level of rental income for all areas is broadly in line with other Registered Providers of social housing ("RPs") in the respective areas;
- the level of rental income is, in aggregate, below the relevant levels of Local Housing Allowance (LHA) for each region;
- the EUV-SH and MV-T values per unit and percentage relationships to MV-VP, are at levels appropriate to the current climate, having regard to the portfolio's location and composition;
- we have made conservative assumptions with regard to the respective rent and sales contributions to the valuations of the shared ownership units and they are not overly dependent on proceeds from sales; and

• EUV-SH values are likely to maintain their current levels as stock transactions within the sector and access to debt markets continue to take place, albeit with more hesitancy due to market fluctuations.

There is excess demand for affordable housing properties across the localities within the portfolio as summarised by the following data.

Households on local authority waiting lists:

Region	Waiting list
South West	108,000
East of England	108,000
South East	150,000
North West	181,000
East Midlands	72,000
Greater London	244,000
West Midlands	99,000
Yorkshire and The Humber	145,000

Based on current levels of affordable housing supply (new build) across the localities within the portfolio, the following table summarises the number of households on the waiting list for every new property being built:

Region	No. of Households
South West	26
East of England	39
South East	28
North West	95
East Midlands	31
Greater London	45
West Midlands	36
Yorkshire and The Humber	111

Weaknesses:

- the age of the properties mean they require continued investment in order to be able to maintain the same level of rental income in the long term;
- downward pressure on house prices in the medium-term and falling transaction volumes could impact upon values going forward; and
- there are short-term risks for RPs' income not supported by housing benefit and a greater number of voids and arrears.

Opportunities:

- increased efficiencies are continuing to be driven by mergers between RPs;
- rationalisation of RPs' stock allowing for more efficient asset management;
- investment of REITs and other funds into the sector as whole; and
- reactive changes to working conditions and government policy could drive further efficiencies in the sector and wider economy in the longer-term.

Threats:

- The social housing sector's financial performance is weakening due to increased spending on existing homes and higher interest rates;
- The strongest financial pressures are seen in London and other urban areas with large numbers of flats still needing building safety works.
- RPs' spending on repairs and maintenance is at record levels and development plans are being scaled back due to financial constraints; and
- There is an increased focus both within the sector and the media on tenant safety and service delivery. Failure to deliver quality services or engage with tenants effectively can harm tenants and damage reputation.

Suitability of Security

Our instructions require us to comment on whether the properties we have valued provide adequate security for the issue.

It is difficult for any valuer, without being asked to consider a specific credit or risk assessment policy, to make an absolute, unqualified statement that those assets will provide suitable security because our instructions do not explain what criteria the investors are applying in making this assessment.

However, we confirm that, in our opinion, should the Security Trustee become a mortgagee in possession of this portfolio of properties, then it would be possible to achieve a sale to another RP that would be at a price at least equivalent to our valuation on the basis of EUV-SH or, in principle, to a private purchaser at a price equivalent to our valuation on the basis of MV-T as set out in our report. However, the valuation assumes implicitly that a purchaser could obtain debt finance on commercially viable terms to facilitate a purchase of the portfolio.

Based on the sample of inspections undertaken as a part of this valuation exercise, we are satisfied that the properties are being maintained to an acceptable social housing standard in line with the Regulator of Social Housing ("RSH") regulatory requirements and commensurate with the likely demands of the target tenant group.

Overall, we have assumed that each property has a useful economic life of at least 50 years provided that the properties continue to be properly maintained in the future.

Unless otherwise stated in our report none of the properties are of 6 storeys or more or are subject to any remedial works in the wake of the Grenfell Tower disaster of June 2017. We have therefore assumed that the properties conform to the Fire Precaution Regulations and any other statutory requirements.

With the above factors in mind, and with specific regard to the continuing need for well-maintained social housing accommodation, we believe it reasonable to conclude an acceptable demand for a portfolio of this nature from commensurate social housing landlords and private institutional investment firms.

Subject to the information presented within this report, and at the values formally reported, we are satisfied to recommend to the Security Trustee that this portfolio is suitable for security purposes.

1 Introduction

1.1 Background

Jones Lang LaSalle Limited (hereafter "JLL") has been instructed to prepare a valuation of 3,502 properties owned by Sanctuary Housing Association Limited and Sanctuary Affordable Housing Limited (together the "Original Chargors").

Under the Programme, the Issuer may issue notes and on-lend the net proceeds thereof to the Group Borrower pursuant to a series loan agreement (each a "Series Loan Agreement"). In respect of Series Loan Agreements which are to be funded by an issue for Fully Secured Notes (as defined in the Programme Admission Particulars), the Group Borrower will procure that, inter alios, the Original Chargors create security over certain housing properties used for social housing accommodation to secure its obligations under such Series Loan Agreement. Where such security is allocated on a "Numerical Apportioned Basis", the obligations of the Group Borrower will be secured by an allocation of charged properties from a share security pool. This report contains a valuation of such shared security pool.

1.2 Compliance

Our valuations have been prepared in accordance with the current RICS Valuation – Global Standards, incorporating the IVS, and the RICS Valuation – Global Standards – UK National Supplement published by the Royal Institution of Chartered Surveyors (commonly known as the "Red Book").

Our valuations may be subject to monitoring by the RICS and have been undertaken by currently Registered RICS Valuers.

This report has been prepared by James Massey MRICS (Valuer Number: #5036140) and countersigned by Marc Burns.

The report is also countersigned by Fiona Hollingworth MRICS (Valuer Number: #0099707) and Richard Petty FRICS (Valuer Number: #0089005).

In accordance with PS 2.3 of the Red Book, we confirm that we have sufficient knowledge and skills to undertake this valuation competently.

We can confirm that no conflict of interest has occurred as a result of our production of this report.

The valuation date is 04 April 2025.

For the avoidance of doubt, we confirm that it would not be appropriate or possible to compare this valuation with any values appearing in either Original Chargor's accounts. This report has been prepared in accordance with the Red Book. The valuations are prepared on this basis so that we can determine the value recoverable if the charges over the properties were enforced at the date of this report. We understand that values given in the Original Chargors' accounts are prepared on an historic cost basis which considers how much the properties have cost and will continue to cost the respective Original Chargor. This is an entirely different basis of valuation from that used for loan security purposes.

This valuation qualifies as a Regulated Purpose Valuation ("RPV") as defined by the Red Book. A RPV is a valuation which is intended for the information of third parties in addition to the Addressees. It is a requirement of UKVS 4.3 of the Red Book in relation to disclosures that we declare our prior involvement with the Original Chargors, or the properties being valued, to ensure that there is no conflict of interest.

We confirm that the total fee income earned from the Original Chargors is substantially less than 5% of the fee income earned by JLL in our last financial year (ending 31 December 2024) and that we do not anticipate this situation changing in the foreseeable future.

1.3 Instructions

Our report is prepared in accordance with the Original Chargors' formal instructions.

We have been instructed to prepare our valuations on the following bases:

- Existing Use Value for Social Housing ("EUV-SH"); and
- Market Value subject to existing Tenancies ("MV-T").

Please note that the properties that have been valued on the basis of MV-T have also been valued on the basis of EUV-SH, for information purposes only.

1.4 Status of Valuer

In preparing this report, we confirm that JLL is acting as an external valuer as defined in the Red Book. We can also confirm that we consider ourselves to be independent for the purposes of this instruction.

In accordance with RICS guidance, and our own rotation policy, we recommend that a rotation of overall responsibility within JLL is considered no later than the end of 2029.

1.5 The Stock Rationalisation Market – EUV-SH Transactions

As you will be aware, an active market exists for the sale of tenanted stock between RPs. This can be driven by strategic decisions about the type and location of accommodation that RPs wish to provide, and the viability of investing in properties to bring them up to the required standards.

Where competition is generated, a market has emerged in which RPs bid against one another on price. The resulting values, even though presented on an EUV-SH basis, tend to be in excess of base EUV-SH values that might be expected for balance sheet or loan security purposes.

Although this may appear hard to justify, the underlying rationale is as follows:

- the bidding price is still much less than the cost of development;
- the marginal cost of taking additional units into management, in an area where the acquiring RP already has stock, justifies a financial model based on relatively low costs for management, repairs and maintenance;
- the judgement of all-round risk formed by the acquiring RP, as reflected in the discount rate, is often lower (and the rate therefore keener) than would be acceptable to either a funder or an auditor in a balance sheet context;
- the price is worth paying to achieve strategic objectives around increasing a presence in a particular area or market; and/or

 the price may be supported by future void sales and/or changes of tenure (for example, from Social Rent to Affordable Rent).

1.6 Deregulatory Measures

A package of deregulatory measures for which the primary legislation was the Housing & Planning Act 2016 came into force on 6 April 2017. These are very significant for the UK social housing sector, as they give RPs greater freedom in terms of commercial decision making than they have ever previously enjoyed in terms of the reduced ability of the RSH to prevent asset management actions.

The deregulatory measures introduced give RPs the freedom to dispose of assets without the RSH's consent, either with or without tenants in place. Disposals include the grant of leases and the creation of charges when assets are pledged as security for loan security purposes.

There are signs that these measures are having an effect on RPs' thinking, and on their business plans, as they begin to adopt a more commercial approach to asset management as one of the tools at their disposal to respond to the greater financial pressures and expectations upon them. For example, through our day to day work, we are beginning to see more analytical requirements in terms of asset management decisions, around investment, remodelling and sale; and an element of sales being built into some stock rationalisation bids.

To be clear this does not mean that RPs are in any way sacrificing their fundamental social ethos. Rather, it is a recognition that, as for any charitable organisation, making best use of its assets to enable it to meet its charitable objectives is an obligation rather than an option; and that commercial behaviour is not at all incompatible with a strong social ethos, within a framework of strong governance.

As mentioned, some RPs are steadily starting to build in an element of void sales into some stock rationalisation bids, however in accordance with our instructions, we have not considered or built in any rate for sales of void properties within our EUV-SH valuations.

2 Methodology

2.1 Valuation Model

We have undertaken our valuation of the portfolio using fully explicit discounted cashflow models, over a 50-year period, with the net income in the final year capitalised into perpetuity.

For the purposes of our valuation, we have split this portfolio by tenure in order to reflect the different risks and opportunities associated with each business stream. We have further split the portfolio geographically by region to reflect the different markets in which the properties are located and the associated risks and opportunities.

In accordance with section 1.5, whilst we recognise that there is a growing active market for the sale of tenanted stock between RPs, we have not split the portfolio into 'lots' to reflect this and have, in accordance with our instructions, valued the properties as a single portfolio.

Against the income receivable for each property, we have made allowances for voids and bad debts; the costs of management and administration; major repairs; cyclical maintenance; day-to-day repairs; and for future staircasing. We have assumed an appropriate level of future growth in these costs (expenditure inflation).

We have then discounted the resulting net income stream at an appropriate rate which reflects our judgement of the overall level of risk associated with the long-term income. A more detailed explanation of the discount rate is included in section 4.

2.2 Information Provided

The principal source of background data for the portfolio has been the rent roll for each property provided by the Original Chargors. This detailed the number and type of units, the rent payable, tenancy type, and equity retained by the association (where applicable).

This information was supplemented with our market research and other data we have gathered from similar instructions undertaken recently and involving comparable stock. From these sources we have collated information on the following:

- rents;
- bad debts, voids and arrears;
- cost of maintenance and repairs; and
- management and administration expenses.

A location plan of the portfolio is provided at Appendix 2.

2.3 Inspections

We derived our inspections strategy by giving full regard to:

- the geographical spread of the stock;
- the concentration (and thereby its exposure to risk); and
- the property types.

We have satisfied ourselves as to the quality of location and the general condition of and level of fixtures and fittings provided to the properties, and we have derived our valuation assumptions accordingly.

In accordance with our instructions, we have inspected all schemes externally and a representative sample of 10.0% of the stock was inspected internally. Our inspections were carried out between 14 October 2024 and 08 November 2024.

A representative selection of photographs is provided at Appendix 3.

2.4 Market Research

In arriving at our valuation, we have undertaken a comprehensive programme of research to supplement our knowledge and understanding of the properties. This has included:

- researching local vacant possession values through conversations with local estate agents together with internet research and using RightmovePlus, a bespoke tool for comparable evidence;
- examining local benchmark affordable rents and comparing these with the Original Chargors' rents; and
- analysing data provided by the Original Chargors.

3 General Commentary

Schedules summarising the following data for each property within the portfolio form Appendix 1 of this report:

- address;
- unit type;
- title number; and
- tenure.

3.1 Locations

The properties within the portfolio are located in a nationwide portfolio across England as shown in the table below:

County	Units
Cambridgeshire	109
Cheshire	926
Essex	235
Greater London	188
Hereford & Worcs.	34
Hertfordshire	68
Humberside	15
Kent	51
Lancashire	12
Merseyside	55
Norfolk	21
North Yorkshire	19
Nottinghamshire	7
Oxfordshire	1,062
Somerset	32
South Yorkshire	120
Suffolk	26
Warwickshire	10
West Midlands	27
West Yorkshire	25
Wiltshire	139
Total	3,181

A location plan of the portfolio is provided at Appendix 2.

3.2 Property Types

The following table summarises the unit types within the portfolio.

Property Type	Units
Room	39
Studio flat	35
1 bed flat	679
2 bed flat	318
3 bed flat	18
1 bed house	1
2 bed house	452
3 bed house	1,081
4 bed house	78
5 bed house	3
6 bed house	2
1 bed bungalow	222
2 bed bungalow	248
3 bed bungalow	5
Total	3,181

3.3 Condition

We have not carried out a condition survey, this being outside the scope of our instructions.

The properties within the portfolio are a mixture of ages as shown in the table below:

Age	House	Flat	Bungalow	Room	Total
Pre-1919	5	50	-	8	63
1920-1949	639	30	7	-	676
1950-1979	477	543	314	31	1,365
1980s	31	136	97	-	264
1990s	214	113	33	-	360
2000s	90	44	24	-	158
2010s	35	20	-	-	55
Post 2020	126	114	-	-	240

Age	House	Flat	Bungalow	Room	Total
Total	1,617	1,050	475	39	3,181

The property ages and construction methodology have been factored into the assumptions we have made regarding voids, discount rates and repairs and maintenance.

Based on our inspections, we are satisfied that the properties we inspected internally, are being maintained to an acceptable social housing standard, in line with RSH regulatory requirements and commensurate with the likely demands of the target tenant group.

Overall, we have assumed that each property has a useful economic life of at least 50 years provided that the properties continue to be properly maintained in the future.

3.4 Fire Safety

Our valuations have been provided in accordance with the RICS' Guidance Note: "*Valuation of properties in multi-storey, multi-occupancy residential buildings with cladding, 1st Edition March 2021*" (the 'Guidance Note'), effective from 5 April 2021.

The purpose of the Guidance Note is to help valuers undertaking valuations of domestic residential blocks of flats in the UK for secure lending purposes. It sets out criteria for buildings of different heights that can be used to identify where possible remediation work to cladding for fire safety purposes is likely to be required and may materially affect the value of the property.

From our inspections there are no blocks of six storeys or above in the portfolio and no further blocks under six storeys where we have deemed it necessary to query the construction of the external wall system and whether potentially combustible cladding or timber balconies are present.

3.5 Energy Performance Certificates (EPCs)

We have not been provided with copies of any Energy Performance Certificates by the Original Chargors. The Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 make it unlawful for landlords in the private rented sector to let properties that have an EPC rating of F or G, from 1 April 2018. The Regulations do not apply to the majority of properties owned by RPs.

However, the Original Chargors have confirmed the EPC rating applicable for 2,946 properties in the portfolio which are summarised in the table below:

EPC Rating	Units
А	1
В	329
С	1,213
D	1,072
E	182
F	14

EPC Rating	Units
G	1
Unknown	369
Total	3,181

We note that some of the properties have an EPC rating of F or G which falls below the minimum EPC threshold required for lettings in the private rental market. However, we have valued these properties on the basis of EUV-SH or MV-T (where appropriate).

In respect to properties that have been valued on the basis of MV-T, we have made an allowance of £3,500 in each of the first 2 years of our cashflow to bring the properties up to the minimum regulatory EPC standard (E) that must be achieved before they can be let as Market Rent.

3.6 Climate Change Risk and Net Zero Carbon

Global warming targets set in the Paris Agreement are 1.5-2.0° Celsius above pre-industrial levels. Even the lower end of this range will produce significant changes to global climate systems, including extreme heat or cold events, higher frequency and severity of precipitation or drought, and sea level rise. Therefore, the level of physical climaterelated risk of the subject property is likely to fluctuate over its useful life. High levels of climate risk could affect occupier and investor demand, as well as ability to obtain building insurance.

There is an increased focus on Environmental, Social & Governance (ESG) criteria for investment across all asset classes, including real estate. There are also various new, ESG-focused funds entering the real estate market. As a result, the value of property assets of all types is likely to be increasingly affected over time by long term, sustainability challenges. We note that, under the Paris Agreement, the 2050 vision is for all buildings, both new and existing, to be net zero carbon across the whole life cycle. As an interim ambition, the agreement envisages that all new buildings should be able to achieve zero carbon in operations, and aim to reduce carbon emissions by 40%, by 2030.

To achieve the best sustainability credentials and, in particular, to achieve Net Zero Carbon specification, the cost of a refurbishment of a building is currently higher than it would be for a refurbishment which fell short of the standards. However, given the speed at which both the legislation and ESG requirements are advancing, there is a risk that, within the next ten years, further capital expenditure will be required. However, such costs may be mitigated in the future through the principles of the Circular Economy, with a greater focus on recycling materials, and the development of more flexible buildings which can be refurbished and adapted to alternative uses more economically.

Therefore, in terms of cashflow, we anticipate that the technological advances, combined with the increased supply of products and competition, will lower these costs over time and we have not, at this stage, included in our valuation any additional allowance for costs to support the move to net zero carbon over the period covered by our valuation models.

4 Valuation Commentary – Rented Stock

4.1 Introduction

There are 3,170 rented affordable housing properties in the portfolio. These are summarised in the table below.

Category	Units	% of the Portfolio
GN Affordable Rent	504	16.0%
GN Social Rent	1,864	59.0%
HOP self-contained	745	23.5%
Supported & shared amenities	39	1.0%
Supported Affordable Rent	2	0.0%
Supported self-contained	16	0.5%
Total	3,170	100%

4.2 Tenancies

The majority of the rented properties (circa 99.75%) are let on assured tenancies. We have assumed that these are 'standard' assured tenancies although we have not seen example tenancy agreements. The remaining 8 units are let on secure tenancies.

4.3 Rental Income

RPs must set rents in accordance with the Statement on Rents for Social Housing (the "Policy Statement") which is published on the MHCLG website. The Policy Statement sets out the government's policy on rents from 1 April 2024 to 31 March 2025.

The following table summarises the total income that the Original Chargors receive from the portfolio annually:

Category	Annual Income	Average Rent
GN Affordable Rent	£3,646,516	£139.14
GN Social Rent	£11,802,477	£121.77
HOP self-contained	£4,784,864	£123.51
Supported & shared amenities	£202,814	£100.01
Supported Affordable Rent	£14,650	£140.87
Supported self-contained	£88,947	£106.91
Total	£20,540,268	£124.61

The Statistical Data Return ("SDR") is an annual online survey completed by all private RPs of social housing in England. The latest return for 2023/24 provides the average social rents charged by all RPs for general needs and sheltered/supported properties. The following table compares the Original Chargors' average rents with the average sector rents in the same localities:

Region	Average Sector Rent - General Needs	Original Chargors General Needs	Average Sector Rent – Affordable Rent	Original Chargors Affordable Rent	Average Sector Rent - Supported	Original Chargors Sheltered & Supported
North West	£86.97	£112.39	£112.96	£124.17	£90.37	£107.22

South West	£94.93	£130.58	£134.87	£135.65	£92.28	£91.19

According to the Valuation Office Agency, LHA is set at the 30th centile point between what in the local Rent Officer's opinion are the highest and lowest non-exceptional rents in a given Broad Rental Market Area. This analysis looks at local properties and differentiates by bedroom number but not by property type (i.e. houses and flats). These statistics are used as a reference for housing benefit and are a good indication of rent levels which are affordable in a given area.

The following table sets out a comparison of the Original Chargors' average rents with the average LHA in the portfolio and also our opinion of Market Rents for comparable properties in the same areas (rents are shown on the basis of 52 weeks).

Category	Average Passing Rent	Average LHA	% of LHA	Average Market Rent	% of Market Rent
GN Affordable Rent	£139.14	£176.94	78.6%	£238.27	58.4%
GN Social Rent	£121.77	£209.97	58.0%	£259.62	46.9%
HOP self-contained	£123.51	£193.60	63.8%	£223.79	55.2%

Supported self-contained	£106.91	£138.09	77.4%	£167.81	63.7%

We are unable to verify the accuracy of the rent roll provided to us by the Original Chargors.

4.4 Affordability

In addition, we have looked at the passing rents as a proportion of local net weekly earnings as reported by the Office of National Statistics in its provisional 2023 Annual Survey of Hours and Earnings. The results for each of the regions in our valuations are shown in the table overleaf and, in our opinion, demonstrate that the rents being charged by the Original Chargors are affordable.

Region	Average Weekly Earnings	General Needs	General Needs as %age	Affordable Rent	Affordable Rent as %	Sheltered & Supported	Sheltered/Supp as %
North West	£506.96	£112.39	22.2%	£124.17	24.5%	£107.22	21.1%
Yorkshire and the Humber	£482.48	£102.99	21.3%	£113.90	23.6%	£94.69	19.6%
East Midlands	£479.06	-	-	£116.44	24.3%	-	-

South West	£490.41	£130.58	26.6%	£135.65	27.7%	£91.19	18.6%

4.5 EUV-SH Rental Growth

We have modelled rental growth of CPI plus 1% in all years of our EUV-SH valuations into perpetuity.

4.6 MV-T Rental Growth

Passing rents are currently below market levels, resulting in good prospects for future rental growth when considering the market value of the portfolio.

We have assumed that it will take between 3 and 8 years for assured rents to increase to market levels and thereafter for rents to rise at 1% (real) per annum. In making our assumptions regarding the number of years and annual increases, we have had regard to typical gross and net yields on private residential portfolios of a similar age profile and in comparable locations.

The average increases we have modelled per year for houses in each of our valuations range from 15.0% to 18.9% and from 14.6% to 19.4% for flats.

4.7 Relet Rates

Our EUV-SH model allows for a rate at which secure tenancies are relet as assured tenancies. The annual rates of tenancy turnover experienced by housing associations vary considerably between localities and between different property types. In regard to assured tenancies, national turnover rates are typically within the range of 5.0% to 11.0%, with higher rates of turnover in the North than in the South.

The rates that we have adopted are set out in the table below, and have assumed that those properties will be relet at the prevailing average target rent. In addition, we have included an allowance for incidental voids as outlined in section 4.11.

Property Type	Relet Rate
House	5.0%
Flat	5.0%
Room	5.0%

4.8 Sales Rates

In accordance with section 1.6, we have not included the sale of any void units under the deregulatory measures introduced by the Housing and Planning Act 2016 in any of our EUV-SH valuations.

In our MV-T cashflows we have assumed that some of the units which become void are sold on the open market. In establishing the sales rates, we have had regard to Land Registry's information on the number of sales and average prices across the same localities over the past 12 months.

The average sales rates we have applied per annum for houses and flats are shown in the table below:

Category	Annual Sales Rates	Sales (Year 1)
Sales rate (houses)	0.0% - 40.0%	62
Sales rate (flats)	0.0% - 40.0%	34

The above figures equate 2,144 sales in total over 50 years. This, in our view, is a sustainable level of sales which would not adversely impact local house prices or marketability.

4.9 Right to Buy

We anticipate that the tenants of some of the properties within the portfolio may have either the Right to Buy ("RTB") or the Right to Acquire ("RTA"). However, we consider it imprudent to reflect additional value from capital receipts and we have therefore assumed that neither RTB nor RTA will be available to exercise at the date of valuation.

4.10 Outgoings

In forming our opinion of the net rental income generated by the portfolio, we have considered the following outgoings:

- bad debts, voids and arrears;
- cost of maintenance and repairs; and
- management and administration expenses.

We emphasise that, under the definitions of the bases of valuation we have been instructed to adopt, we are not valuing the Original Chargors' stewardship of the stock, rather we are assessing what a hypothetical purchaser in the market would pay for the stock, based on the market's judgement of the capabilities of the portfolio.

The assumptions we have made in our appraisal reflect our opinion of the view the market would adopt on the future performance of the portfolio. In forming our opinion, we have had regard to other recent valuations we have undertaken of comparable stock.

4.11 Bad Debts and Voids

We have incorporated into our valuations the potential for future voids and bad debts. Any loss of income for both void properties and bad debts is reflected in a deduction made from the gross rental income.

The rates applied take into consideration the figures in the 2023 Global Accounts data provided by the Regulator of Social Housing and are similar to allowances used by other RPs providing a management and maintenance service in the areas where the properties are situated.

The 2024 Global Accounts data shows that across the whole affordable housing sector, RPs have lost approximately 0.59% of their gross income through bad debts and 1.76% through void losses. The void losses reflect a decrease from 0.66% in the 2023 data whilst bad debts have remained at similar levels over the same period.

In our MV-T valuations we are assuming greater increases in rents than a social landlord would impose. In our opinion, these rent increases would inevitably be reflected in a higher level of voids and bad debts than would otherwise be the case. The associated risk has been factored into our MV-T discount rate.

The rates we have adopted for bad debts and voids as a percentage of gross income for each of our EUV-SH and MV-T valuations are summarised in the table below:

Category	Units Count	Bad debts & voids Year 1 (EUV-SH)	Bad debts & voids Year 1 (MV-T)
GN Affordable Rent	524	2.50%	10.0%
GN Social Rent	1,863	2.25%	10.0%
HOP self-contained	799	2.50%	9.0% - 10.0%
Supported & shared amenities	39	3.0% - 4.0%	-
Supported Affordable Rent	47	3.00%	-
Supported self-contained	16	2.50%	10.0%

4.12 Management Costs

We have adopted rates for management and administration based on our experience of other RPs operating in similar areas to the Original Chargors. Our rates are subject to an annual inflator of 0.5% (real) for the duration of the cashflow reflecting long-term earnings, growth predictions and potential management savings.

From the information provided in the 2024 Global Accounts, the average cost of management across the sector is £1,279 per unit and the average management cost for the Original Chargors is £924 per unit.

In arriving at our opinion of value, we are assessing what a hypothetical purchaser in the market would pay for the properties, and in our experience, bids are likely to reflect a marginal approach to management costs. That is, the incremental cost to the organisation of managing the acquired stock is likely to be less than the organisation's overall unit cost. Furthermore, a growth in stock numbers could give rise to potential economies of scale, rationalisation of services and other efficiencies which would reduce unit costs.

Taking the above into account, we have adopted an average rate of £763 per unit for management and administration in our valuations on the basis of EUV-SH.

We have assumed that a mortgagee in possession would expect to spend 10.0% of rental income on management and administration in our valuations on the basis of MV-T.

4.13 Repairs and Maintenance

Although the majority of the properties are generally in a reasonable or good condition, renewal, day-to-day and cyclical maintenance will be required to keep the stock in its present condition.

From the information provided in the 2024 Global Accounts, the total average cost of carrying out major repairs, planned and routine maintenance across the sector is £3,079 per unit and the average maintenance cost for the Original Chargors is £2,665 per unit. The Global Accounts average figure for the sector is an increase of 13.8% on the 2023 Edition.

The above figures are broad averages; costs will vary according to a property's age, type, size and form of construction. In particular, the profile of expenditure will be different for a newly built property compared to an older property. The former should only require modest routine maintenance over the first 5 to 10 years of its life, with major repairs only arising from years 15 to 20. Hence there is a low start cost profile, rising steeply in the medium term, whilst an older property is likely to have a flatter profile with a higher starting point.

In accordance with section 3.3 we have had due consideration to the age and construction type for each of the tenure types in our valuations.

The following table sets out the average cost assumptions we have made in the first year of our EUV-SH cashflows. All of our appraisals assume that these costs will inflate at 1.0% (real) per annum.

Category of Expenditure	Period	Rented Properties
Major repairs and renewals	Year 1	£1,328
Cyclical repairs	Year 1	£406
Day-to-day repairs	Year 1	£506
Total Average Costs	Year 1	£2,240

We have adopted higher costs for major repairs in the first 2 years of our MV-T valuations as some of the properties will require refurbishment and redecoration in order to attract buyers or to be let in the private residential market. After this initial period, our costs settle to a lower level similar to the costs used in our EUV-SH valuation.

4.14 Discount Rate

Our cashflow valuations are based on constant prices and therefore explicitly exclude inflation. The chosen discount rate reflects our judgement of the economic conditions at the time of the valuation and the level of risk involved in each cashflow, taking all factors and assumptions into account. To determine the risk involved we have looked at:

- the sustainability of the existing rental income;
- the likely rate of future rental growth;
- the condition of the portfolio;
- the level of outgoings required to maintain the maximum income stream;
- the likely performance of the portfolio in relation to its profile and location;
- the real cost of borrowing; and
- the long-term cost of borrowing.

For our EUV-SH valuations of the rented properties we have adopted real discount rates of between 5.00% and 6.00% on net rental income.

In our MV-T model we have adopted a higher rate on rental income to reflect additional risk resulting from the significant rental growth that we have assumed during the first 3-8 years. In addition, we have adopted a higher rate on income from sales to reflect the additional premium on the yield which an investor would expect from a sales income stream.

We have adopted real discount rates of between 7.00% and 7.75% (rental income), and between 7.25% and 8.50% (sales) for our MV-T cashflows.

5 Valuation Commentary - Shared Ownership

5.1 Introduction

There are 11 shared ownership properties within the portfolio. 55.64% of the equity in the units is currently owned by the Original Chargors and a rent is charged on this percentage.

5.2 Rental Levels

According to the information provided by the Original Chargors, the average gross weekly rental level is £47.15 against the average retained equity. All rents are expressed on the basis of 52 rent weeks per year.

We have not included the value of any current or future ground rent income in our valuations.

5.3 Rental Growth

The RSH's restriction on future rental growth through section 2.4.5 of the Capital Funding Guide allows a maximum of 0.5% real growth per annum only. The imposition of this formula effectively constrains the net present value of the cashflow to the basis of EUV-SH.

It should also be noted that although, in general, rents in the sector will be linked to CPI, the rents for shared ownership properties will grow as set out in the signed leases for each property. We have not had sight of these leases and assume that they have the standard rent review provisions (upwards only, indexed linked at RPI plus 0.5%) set out in the model shared ownership lease, published by the National Housing Federation.

We have grown rents at a rate of RPI plus 0.5% in line with this guidance and the terms of the existing leases.

5.4 Outgoings

In forming an opinion of the net rental income generated by the portfolio, we have allowed 8.0% of gross rental income for management.

5.5 Voids and Bad Debts

We understand that all of the properties are now let and so we would not expect any voids going forward. We have allowed for the incidence of bad debts in the discount rate.

5.6 Repairs and Maintenance

We have assumed any repair obligations will lie with the leaseholders. We would expect that repair/renewal, dayto-day and cyclical maintenance would be required to keep the stock in its present condition. However, we have assumed that, where appropriate, service charge income fully covers expenditure.

5.7 Discount Rate

For our EUV-SH valuation we have adopted a discount rate of 5.5% on the rental income and 7.75% on sales.

5.8 Market Value subject to Vacant Possession (MV-VP)

The average MV-VP of the retained equity in the shared ownership properties in the portfolio is £82,949.

5.9 Rate of Sales

We have adopted what we would expect to be a long-term sustainable rate of sales of further tranches over the 50 years of our cashflow model. We have assumed that equity is sold in 25.0% tranches.

Years	Tranche Sales p.a.
Sales rate (yrs. 0-2)	0
Sales rate (yrs. 3-4)	1
Sales rate (yrs. 5-15)	0.5
Sales rate (yrs. 16-50)	0.25

The rates we have adopted in our cashflow are as follows:

It is difficult to judge when tenants will purchase additional tranches so the income from sales proceeds has been discounted at a higher rate, in line with section 5.7, to reflect the additional risk of realising the value. However, it should be noted that in our valuation, the majority of the value (circa 61.58%) is attributed to the rental income.

6 Valuation

6.1 Background

We have prepared our valuations on the following bases:

- Existing Use Value for Social Housing ("EUV-SH"); and
- Market Value subject to existing Tenancies ("MV-T").

Our valuations have been prepared in accordance with the RICS Red Book.

Apportionments of the valuations have been calculated as arithmetic apportionments and are included in the schedules at Appendix 1. This is a portfolio valuation, and no valuation of individual properties has been performed.

In forming our opinion of the value of the portfolio as a whole, we have neither applied a discount for quantum nor added a premium to reflect break-up potential.

The definitions of the bases of valuation are set out in full in section 7 of this report.

6.2 Asset Value for Loan Security Purposes

Our valuation of the 260 properties being valued on the basis of Existing Use Value for Social Housing ("EUV-SH"), in aggregate, at the valuation date is:

£19,620,000

Our valuation of the 2,921 properties being valued on the basis of Market Value subject to Tenancies ("MV-T"), in aggregate, at the valuation date is:

7 Bases of Valuation

Our valuations have been prepared in accordance with the RICS Red Book.

7.1 Existing Use Value for Social Housing

The basis of Existing Use Value for Social Housing is defined in UK VPGA 7 of the RICS Valuation Global Standards – UK National Supplement as follows:

"Existing use value for social housing (EUV-SH) is an opinion of the best price at which the sale of an interest in a property would have been completed unconditionally for a cash consideration on the valuation date, assuming:

- a willing seller;
- that prior to the valuation date there had been a reasonable period (having regard to the nature of the property and the state of the market) for the proper marketing of the interest for the agreement of the price and terms and for the completion of the sale;
- that the state of the market, level of values and other circumstances were on any earlier assumed date of exchange of contracts, the same as on the date of valuation;
- that no account is taken of any additional bid by a prospective purchaser with a special interest;
- that both parties to the transaction had acted knowledgeably, prudently and without compulsion;
- that the property will continue to be let by a body pursuant to delivery of a service for the existing use;
- the vendor would only be able to dispose of the property to organisations intending to manage their housing stock in accordance with the regulatory body's requirements;
- that properties temporarily vacant pending re-letting should be valued, if there is a letting demand, on the basis that the prospective purchaser intends to re-let them, rather than with vacant possession; and
- that any subsequent sale would be subject to all the same assumptions above."

7.2 Market Value

The basis of Market Value is defined in VPS 4.4 of the Red Book as follows:

"The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."

Market Value subject to Tenancies is in accordance with the above definition, with the addition of the point below:

"That the properties would be subject to any secure or assured tenancies that may prevail, together with any other conditions or restrictions to which property may be subject."

7.3 Expenses

No allowance is made in our valuations for any expenses of realisation.

7.4 Tax

No allowance is made in our valuations for any liability for payment of Corporation Tax, or for any liability for Capital Gains Tax, whether existing or which may arise in the future.

The transfer of properties between RPs is exempt from Stamp Duty Land Tax ("SDLT"). Our MV-T valuations include fees of 3.0% on individual unit sales, however we have not included SDLT or other costs of acquisition within our valuation.

7.5 VAT

Our valuations are exclusive of VAT on disposal.

8 Sources of Verification of Information

8.1 General

We have relied upon the description, tenancy type and current rental income provided to us by the Original Chargors and we have been unable to verify the accuracy of that data.

8.2 Tenure

Unless otherwise stated in this Report, the Original Chargors hold a freehold interest or long leasehold interest with not less than 80 years unexpired in respect of its properties. We confirm that there will be no material difference in the MV-T and EUV-SH cashflow valuations between these two holding interests.

8.3 Title

We have reviewed the certificate of title prepared by Gowling WLG (UK) LLP (the "Certificate") and the Overview Report prepared by Pinsent Masons LLP (the "Report") and can confirm that our valuations fully reflect the disclosures contained therein.

In respect of each property that we have valued on the basis of MV-T we confirm that we have reviewed the Certificates and Report and confirm that each such property can be disposed of on an unfettered basis (subject only to existing tenancies disclosed in the Certificates but not subject to any security interest, option of other encumbrance or to any restriction preventing or restricting its sale to or use by any person for residential use).

8.4 Nomination Agreements

Our valuations are prepared on the basis that there are no nomination agreements. If any nomination rights are found to be in existence, they are assumed not to be binding on a mortgagee in possession unless otherwise stated in this report.

8.5 Measurements/Floor Areas

We have not measured the properties, this being outside the scope of a valuation of a portfolio of this nature, unless otherwise stated in this report.

However, where measurements have been undertaken, we have adhered to the RICS Code of Measuring Practice, 6th edition, except where we specifically state that we have relied on another source. The areas adopted are purely for the purpose of assisting us in forming an opinion of capital value. They should not be relied upon for other purposes nor used by other parties without our written authorisation.

Where floor areas have been provided to us, we have relied upon these and have assumed that they have been properly measured in accordance with the Code of Measuring Practice referred to above.

8.6 Structural Surveys

Unless expressly instructed, we do not carry out a structural survey, nor do we test the services and we, therefore, do not give any assurance that any property is free from defect. We seek to reflect in our valuations any readily apparent defects or items of disrepair, which we note during our inspection, or costs of repair which are brought to

our attention. Otherwise, we assume that each building is structurally sound and that there are no structural, latent or other material defects.

In our opinion the economic life of each property should exceed 50 years providing the properties are properly maintained.

8.7 Deleterious Materials

We do not normally carry out or commission investigations on site to ascertain whether any building was constructed or altered using deleterious materials or techniques (including, by way of example high alumina cement concrete, woodwool as permanent shuttering, calcium chloride or asbestos). Unless we are otherwise informed, our valuations are on the basis that no such materials or techniques have been used.

8.8 Reinforced Autoclaved Aerated Concrete ("RAAC")

The presence of RAAC in buildings and its potential to fail with little or no warning is receiving media attention at the moment following the closure of schools which are considered to be at risk.

RAAC is a lightweight form of concrete commonly used in construction between the 1950s and mid-1990s. It is predominantly found as precast panels in roofs, commonly flat roofs, and occasionally in floors and walls.

Although the majority of reported cases are within education and public sector buildings, there is potential for RAAC to be present in other property types and sectors. Whether this poses a risk will depend on several factors including location, condition and quality of the original installation and each case will need to be assessed on its own merits.

Within the residential sector, the RICS advise that they expect the exposure to be low. The RSH has also said that it believes RAAC is not widespread in social housing.

We have not carried out or commissioned investigations on site to ascertain whether any building was constructed using RAAC. Unless we are otherwise informed, our valuations are provided on the basis that no such material has been used.

8.9 Site Conditions

We do not normally carry out or commission investigations on site in order to determine the suitability of ground conditions and services for the purposes for which they are, or are intended to be, put; nor do we undertake archaeological, ecological or environmental surveys. Unless we are otherwise informed, our valuations are on the basis that these aspects are satisfactory and that, where development is contemplated, no extraordinary expenses, delays or restrictions will be incurred during the construction period due to these matters.

8.10 Environmental Contamination

Unless expressly instructed, we do not carry out or commission site surveys or environmental assessments, or investigate historical records, to establish whether any land or premises are, or have been, contaminated. Therefore, unless advised to the contrary, our valuations are carried out on the basis that properties are not affected by environmental contamination. However, should our site inspection and further reasonable enquiries during the preparation of the valuation lead us to believe that the land is likely to be contaminated we will discuss our concerns with you.

8.11 Japanese Knotweed

Our inspections are for valuation purposes only and carried out on an external and internal sample basis only, therefore we cannot confirm whether invasive vegetation has been or is present on the site, our valuation assumes that none exists within the demise or proximity of any of the properties.

8.12 Energy Performance Certificates (EPCs)

We have not been provided with copies of any Energy Performance Certificates by the Original Chargors. The Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 make it unlawful for landlords in the private rented sector to let properties that have an EPC rating of F or G, from 1 April 2018. The Regulations do not apply to the majority of properties owned by RPs.

Based on our inspections and our wider knowledge of energy ratings within the social housing sector, we do not consider this issue to present a material valuation risk.

8.13 Market Rental Values

Our assessment of rental values is formed purely for the purposes of assisting in the formation of an opinion of MV-T and is generally on the basis of Market Rent, as defined in the "the Red Book". Such figures should not be used for any other purpose other than in the context of this valuation.

8.14 Insurance

Unless expressly advised to the contrary we assume that appropriate cover is and will continue to be available on commercially acceptable terms.

8.15 Planning

We have prepared our valuations on the basis that each property exists in accordance with a valid planning permission.

8.16 The Equality Act

We have assumed the properties appear to comply with the requirements of the Equality Act 2010.

8.17 Outstanding Debts

In the case of property where construction works are in hand, or have recently been completed, we do not normally make allowance for any liability already incurred, but not yet discharged, in respect of completed works, or obligations in favour of contractors, subcontractors or any members of the professional or design team.

8.18 Services

We do not normally carry out or commission investigations into the capacity or condition of services. Therefore, we assume that the services, and any associated controls or software, are in working order and free from defect. We also assume that the services are of sufficient capacity to meet current and future needs.

8.19 Plans and Maps

All plans and maps included in our report are strictly for identification purposes only, and, whilst believed to be correct, are not guaranteed and must not form part of any contract. All are published under licence and may include mapping data from Ordnance Survey © Crown Copyright. All rights are reserved.

8.20 Compliance with Building Regulations and Statutory Requirements

Our valuations have been provided in accordance with the RICS' Guidance Note: "*Valuation of properties in multi-storey, multi-occupancy residential buildings with cladding, 1st Edition March 2021*", effective from 5 April 2021.

Unless otherwise stated in our report none of the properties are of 18m or 6 storeys or more or are subject to any remedial works in the wake of the Grenfell Tower disaster of June 2017. We have therefore assumed that the properties conform to the Fire Precaution Regulations and any other statutory requirements.

Appendix 4 Housing Market Commentary

JLL Residential Market Update – February 2025

Angela Rayner has committed another £350 million to address the shortfall of affordable homes. £300m has been signed off to boost the Affordable Homes Programme with a further £50m for the Local Authority Housing Fund. Every little helps for those looking to deliver affordable housing, but the scale of the problem and the years of shortfall in delivery means that further funding will be needed on top.

The £300m injection is forecast to deliver 2,800 homes (equating to roughly £107,000 per home), but recent analysis of the housing waiting list shows the number of households on the list topped 1.33 million at last count (March 2024), up 43,000 in 12 months. Meaning that to build the 43,000 homes required just to keep the list at 2023 levels would have required £4.6 billion in funding at £107,000 a home. If we look to tackle the 1.33 million households on the waiting list it would take 21 years at current affordable housing delivery rates to build enough homes, before we even consider new entrants over that period.

Clearing the 1.33m social housing waiting list would take 21 years

Fiscal headroom disappearing

The outlook for the UK economy has become more challenging in the last few weeks. The Bank of England cut the base rate (hurrah!) but were pessimistic about the UK's growth prospects. Their expectations for GDP growth in 2025 cut from 1.5% to 0.75%. Of course, the Bank are not the only forecasters, with the latest consensus forecasts remaining north of 1%, but we expect to see a more tempered short-term outlook emerge in the coming weeks.

The Office for Budget Responsibility will deliver their next forecast to parliament on 26 March. With the combined effect of weaker economic growth and higher borrowing costs expected to have significantly reduced Rachel Reeves' £10bn of fiscal headroom.

But fears of a recession in the second half of 2024 have been allayed by news that UK GDP grew by 0.4% in December, up from 0.1% in November. This means estimates for Q4 2024 have tipped (very

marginally) into positive territory at 0.1% growth, higher than the 0.1% contraction forecasters were expecting in a recent poll by Bloomberg. Annually GDP is estimated to be 1.5% higher in December 2024 than it was a year earlier, with full year estimates lower at 0.8% year-on-year.

Increased construction activity contributed to the latest growth figures. Government estimates suggest construction output rose 0.5% in the three months to December 2024 compared with the three months to September. The rise in activity was led by new work, which increased by 1.2%, with

Construction output rises 0.5% in Q4

repairs and maintenance activity falling marginally by 0.4%. Private new housing was one of the main drivers in the growth in new work, rising 1.3%. Positive news for the sector but still 20% lower than the post-pandemic peak in September 2022.

The return of the sub-4% fix

Both Santander and Barclays have announced new 3.99% fixed rates deals, signalling the return of the sub-4% mortgage which has been absent from the market for a few months now (although with a hefty fee and low loan-to-value). It's hoped that breaching the psychological sub 4% barrier will bring more home movers, who had become accustomed to record low rates, back to the market.

Fewer home movers have meant the proportion of first-time buyers in the market has risen significantly. UK Finance figures crunched by Halifax show there were more than 340,000 first-time purchases in 2024, up 19% on 2023. First-time buyers accounted for more than half (54%) of mortgaged purchases last year, a record high since the data was first collected back in 2014.

Latest from the RICS

The proliferation of lower rates will be good news for activity in the housing market, but in their absence the latest RICS Survey shows a tentative start to the year in January. Activity in the sales market remained broadly flat last month, with the same number of respondents reporting new buyer enquiries rising than falling in January. Here at JLL we're in the (marginally) more positive camp, with data from our offices showing a modest uptick in new applicants registering so far this year, up 6% on the same period in 2024.

Sellers continue to return to the market, with more respondents (a balance of +25%) reporting an increase in new instructions, higher than the +16% recorded in December. Stock per surveyor rose too, reaching 45 homes in January, up from 41 at the same point a year ago.

For lettings, tenant demand remained broadly flat, with the balance of opinion at +2% in January, meaning marginally more respondents reported a rise than a fall. Fewer landlord instructions were reported again in January (net balance of -19%), with March 2022 being the last month when we saw a positive net balance recorded. Lack of stock, through fewer landlord instructions, is still expected to underpin further rental growth this year.

New Towns

Housing Minister Matthew Pennycook has announced that more than 100 potential sites across England have been submitted to the New Towns Taskforce for consideration. The sites, the majority of which are urban extensions, aim to provide more than 10,000 homes each with the government promising spades in the ground before the end of this parliament. Initial reports suggest the government could green light around 12 schemes, or more than 120,000 homes. But few, if any, of these homes will be delivered within this parliament, meaning their (self-imposed) challenge of building 1.5 million homes remains.

Taxation

Tax legislation, including in the country where an investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes.

United Kingdom Taxation

The following is a summary of the Issuer's understanding of current United Kingdom law and published HM Revenue & Customs' (**HMRC**) practice relating only to the United Kingdom withholding tax treatment of payments of interest (as that term is understood for United Kingdom tax purposes) in respect of Notes. It does not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of Notes. The United Kingdom tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

Payments of interest on the Notes may be made without deduction of or withholding on account of United Kingdom income tax provided that the Notes carry a right to interest and the Notes are and continue to be "quoted Eurobonds" for the purposes of section 987 of the Income Tax Act 2007. A Note will be a quoted Eurobond provided that it is admitted to trading on a "multilateral trading facility" operated by a "regulated recognised stock exchange". The ISM is a multilateral trading facility for the purposes of the amended section 987, and the London Stock Exchange is a regulated recognised stock exchange.

Provided, therefore, that the Notes carry a right to interest and are and remain admitted to trading on a multilateral trading facility operated by a regulated recognised stock exchange, interest on the Notes will be payable without deduction of or withholding on account of United Kingdom tax.

Payments of interest on Notes may be made without deduction of or withholding on account of United Kingdom tax where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes that has a United Kingdom source on account of United Kingdom income tax at the basic rate (currently 20 per cent.), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder not resident in the United Kingdom, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty) provided that certain procedural formalities are complied with.

The Proposed Financial Transactions Tax (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has ceased to participate.

The Commission's Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 (as amended or superseded) are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

It is not clear how the FTT would apply to the UK notwithstanding the UK's withdrawal from the European Union.

Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a foreign financial institution (as defined by FATCA) may be required to withhold on certain payments it makes (foreign passthru payments) to persons that fail to meet certain certification, reporting or related requirements. The Issuer may be a foreign financial institution for these purposes. A number of jurisdictions (including the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (IGAs), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be "grandfathered" for the purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the relevant Issuer). However, if additional Notes (as described under "Conditions of the Notes - Further Issues") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

Subscription and Sale

The Dealers have, in a Programme Agreement dated 4 April 2025 (as modified and/or supplemented and/or restated from time to time, the **Programme Agreement**), agreed with the Obligors a basis upon which they or any of them may from time to time agree to purchase Notes (other than any Retained Notes). Any such agreement will extend to those matters stated under *"Form of the Notes"* and *"Conditions of the Notes"*. In the Programme Agreement, the Issuer (and, failing whom, each other Obligor) has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and each Obligor has agreed to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, use of the restrictions on offers and sales of the notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Significant Change

There has been no significant change in the financial or trading position of the Issuer, the Group Borrower, any Original Borrower or the Sanctuary Group since 31 March 2024.

Material Change

Litigation

Save as provided below, none of the Issuer, the Group Borrower and any Original Borrower is and has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened) of which the Issuer, the Group Borrower or such Original Borrower is aware in the 12 months preceding the date of these Programme Admission Particulars which may have, or have had in the recent past, a significant effect on its ability to meet its obligations to Noteholders.

Following an incident in 2020 at a development site owned by Swan, where its subsidiaries, Swan Commercial Services Limited (**SCS**) and Swan New Homes Ltd (**SNH** and together with Swan and SCS the **Affected Companies**), were acting as developer and principal contractor respectively, the Affected Companies are the subject of an ongoing joint investigation by the police and the Health and Safety Executive (**HSE**) as well as civil claims from certain affected parties. The police and HSE investigations

are ongoing and, as at the date of these Programme Admission Particulars, no charges have been brought against any of the Affected Companies.

As at the date of these Programme Admission Particulars, it is not possible to determine: (a) whether any criminal or regulatory charges relating to these matters will be brought against any of the Affected Companies, (b) the basis of any charges, (c) whether any of the Affected Companies may be subject to successful prosecutions in the future and/or the quantum of any fines which the Affected Companies may face if convicted (which would be subject to applicable sentencing guidelines) and/or (d) the uninsured aggregate quantum of any successful civil claims which have been brought against any of the Affected Companies (or settlement amounts which may be paid in relation to such claims by any of the Affected Companies).

Auditors

The auditors of the Issuer, the Group Borrower and each Original Borrower are KPMG LLP (**KPMG**). KPMG has audited the accounts of the Issuer, the Group Borrower and each Original Borrower, without qualification, in accordance with generally accepted auditing standards in the United Kingdom for each of the financial years ended on 31 March 2024 and, for each of above entities other than Swan, 31 March 2023.

For year ended 31 March 2023, Swan was audited by Grant Thornton UK LLP who were Swan's incumbent auditor prior to Swan joining the Sanctuary Group. From year ending 31 March 2024, Swan has been audited by KPMG. Swan's audited accounts for year ending 31 March 2023 had a qualified opinion. The basis for the qualified opinion concerned appropriate evidence for the impairment charges, associated provisions and contingent liabilities reflected in the accounts. This arose from development schemes of Swan being impacted by operational challenges, resulting from factors including management team changes, changes to building regulations, and the impact of macro-economic conditions.

KPMG has no material interest in the Issuer, the Group Borrower or any Original Borrower.

Certifications

The Note Trust Deed provides that any certificate or report of the Auditors (as defined in the Note Trust Deed) or any other person called for by, or provided to, the Note Trustee (whether or not addressed to the Note Trustee) in accordance with or for the purposes of the Note Trust Deed may be relied upon by the Note Trustee as sufficient evidence of the facts stated therein notwithstanding that such certificate or report and/or any engagement letter or other document entered into by the Note Trustee in connection therewith contains a monetary or other limit on the liability of the Auditors or such other person in respect thereof and notwithstanding that the scope and/or basis of such certificate or report may be limited by any engagement or similar letter or by the terms of the certificate or report itself.

Post-issuance information

The Issuer does not intend to provide any post-issuance information in relation to the Notes issued under the Programme, other than as required (and available from the Issuer publicly at all times) pursuant to Condition 6.2 (*Information Covenants*) and as described in "*Use of Proceeds and Sustainable Finance Framework*".

Dealers transacting with the Obligors

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for one or more

of the Obligors and their respective affiliates in the ordinary course of business. Certain of the Dealers may from time to time also enter into swap and other derivative transactions with the Obligors and/or their respective affiliates.

The Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of an Obligor and/or their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of an Obligor or their affiliates. Certain of the Dealers or their affiliates that have a lending relationship with of an Obligor routinely hedge their credit exposure to such entities consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such positions could adversely affect future trading prices of the Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Note Trustee's action

The Conditions and the Note Trust Deed provide for the Note Trustee to take action on behalf of the Noteholders in certain circumstances, but only if the Note Trustee is indemnified and/or secured and/or pre-funded to its satisfaction. It may not always be possible for the Note Trustee to take certain actions, notwithstanding the provision of an indemnity and/or security and/or pre-funding to it. Where the Note Trustee is unable to take any action, the Noteholders are permitted by the Conditions and the Note Trust Deed to take the relevant action directly.

Potential Conflicts of Interest

Each of the Programme Parties (other than the Issuer), the Dealers and their affiliates in the course of each of their respective businesses may provide services to other Programme Parties and/or Dealers and to third parties and in the course of the provision of such services it is possible that conflicts of interest may arise between such Programme Parties, the Dealers and their affiliates or between such Programme Parties, the Dealers and their affiliates. Each of the Programme Parties (other than the Issuer), the Dealers and their affiliates may provide such services and enter into arrangements with any person without regard to or constraint as a result of any such conflicts of interest arising as a result of it being a Programme Party or a Dealer.

Yield

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the applicable Pricing Supplement. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.
